# ANNEXURE 28

# SCHEDULE OF SERVICE DELIVERY STANDARDS

| Description<br>Standard | Service Level |
|---|---|
| **Building Plans Approval** | |
| How long does it take to approve a building plan (Days) | 30 days for structures of <500m2<br>60 days for structures of >500m2 |
| **Solid Waste Removal** | |
| Premise based removal (Residential Frequency) | Once per week |
| Premise based removal (Business Frequency) | One, three and five times per week |
| Removal Bags provided (Yes/No) | Yes; Informal Settlements |
| Garden refuse removal Included (Yes/No) | No; alternative removal per arrangement/request at separate tariff. |
| Street Cleaning Frequency in CBD | Daily |
| Street Cleaning Frequency in areas excluding CBD | Adhoc service |
| How soon are public areas cleaned after events (24hours/48hours/longer) | Within 24hours |
| Clearing of illegal dumping (24hours/48hours/longer) | Longer; dependant on the amount to be removed and subject to resource availability. |
| Recycling or environmentally friendly practices (Yes/No) | Yes |
| Licenced landfill site (Yes/No) | Yes |
| **Water Service** | |
| Water Quality rating (Blue/Green/Brown/No drop) | Blue and Green drop / No drop audit performed. |
| Is free water available to all? (All/only to the indigent consumers) | Only indigent consumers |
| Frequency of meter reading? (Per month, per year) | Per month |
| Are estimated consumption calculated on actual consumption over (two month's/three month's/longer period) | Longer period |
| On average for how long does the municipality use estimates before reverting back to actual readings? (months) | Latest standard procedure is not to exceed 12 months. |
| Duration (hours) before availability of water is restored in cases of service interruption: | |
| * One service connection affected (number of hours) | Within 24 hours (Within 48hrs if meter related) |
| * Up to 5 service connections affected (number of hours) | Within 24 hours |
| * Up to 20 service connections affected (number of hours) | Within 24 hours |
| * Feeder pipe larger than 800mm (number of hours) | Within 48 – 60 hours (Timeframe is however situation dependent - Use is made of alternative sources of supply during repairs on the Bulk Water supply system) |
| What is the average minimum water flow in your municipality? | Pre-restrictions average daily flow (2014/15) was 940 Ml/d<br>Pre-restriction (2015) average winter flow approx. 830 Ml/d. Prior years it had been lower. During restrictions average winter flow approx. 505Ml/d.<br>Average winter flow in 2019 was 560 Ml/d. This is increasing as restrictions are lifted and as the water demand rebounds. |
| Do you practice any environmental or scarce resource protection activities as part of your operations? (Yes/No) | Yes (Water conservation and water demand management programmes, clearing of invasive alien plants in dam catchments) |
| How long does it take to replace faulty water meters? (days) | Within 48 hours. Can however take up to 28 days depending on circumstances. |
| Do you have a cathodic protection system in place that is operational at this stage? | Only partial |
| **Electricity Service** | |
| What is your electricity availability percentage on average per month? | 99.93% |
| Do your municipality have a ripple control in place that is operational? (Yes/No) | Yes |
| What is the frequency of meters being read? (per month, per year) | Per month |
| Are estimated consumption calculated at consumption over (two month's/three month's/longer period) | Previous year |
| On average for how long does the municipality use estimates before reverting back to actual readings? (months) | Always attempt to use actual readings. |
| Duration before availability of electricity is restored in cases of breakages (immediately/one day/two days/longer) | Immediately |
| Are accounts normally calculated on actual readings? (Yes/no) | Yes |
| How long does it take to replace faulty meters? (days) | 1 day |
| Do you have a plan to prevent illegal connections and prevention of electricity theft? (Yes/No) | Yes |
| How effective is the action plan in curbing line losses? (Good/Bad) | Average |
| How soon does the municipality provide a quotation to a customer upon a written request? (days) | Dependent on circumstances |
| How long does the municipality takes to provide electricity service where existing infrastructure can be used? (working days) | 3 months |
| How long does the municipality takes to provide electricity service for low voltage users where network extension is not required? (working days) | 3 months |
| How long does the municipality takes to provide electricity service for high voltage users where network extension is not required? (working days) | 3 months |

| Description<br>Standard | Service Level |
|---|---|
| **Sewerage Service** | |
| Are your purification system effective enough to put water back in to the system after purification? | Wastewater is treated before returning to the natural environment. A portion of treated wastewater is reused for irrigation and industrial purposes. System = nature = yes / System = water system (Treated Effluent for irrigation and industrial purposes) = Yes |
| To what extent do you subsidise your indigent consumers? | 0-4.2kl free + additional 3.15kl subsidised for indigent customers. |
| How long does it take to restore sewerage breakages on average: | |
| * Severe overflow? (Hours) | Within 24 hours |
| * Sewer blocked pipes: Large pipes? (Hours) | Within 24 hours |
| * Sewer blocked pipes: Small pipes? (Hours) | Within 24 hours |
| * Spillage clean-up? (Hours) | Within 24 hours |
| * Replacement of manhole covers? (Hours) | Within 24 hours |
| **Road Infrastructure Services** | |
| Time taken to make safe Potholes on minor roads after the Department has been informed of the report thereof. | Within 24 hours |
| Time taken to repair a single pothole on a major road after the Department have been informed of the report thereof? Final repair (weather permitting and materials availability). | Within 72 hours |
| Time taken to make safe Potholes on major roads after the department has been informed of the report thereof. | Within 24 hours |
| Time taken to repair a single pothole on a minor road after the Department has been informed of the report thereof? Final repair (weather permitting and materials availability). | Within 72 hours |
| Time taken to repair a road following an open trench service crossing? (Service provider is responsible for keeping safe the trench crossing.) Final repair can be within 2 to 6 weeks dependent on depot staff availability or outsourcing via an annual contractor. | 6 weeks |
| Time taken to repair walkways after the Department has been informed of the report thereof? (Make safe) | Within 72 hours |
| Final repair of walkways (dependent on extent of the work required) - Work will be programmed. From 1 week to 3 months. | 3 months |
| **Property valuations** | |
| How long does it take on average from completion to the first account being issued? (one month/three months or longer) | 1 to 2 months depending on the daily billing cycle for the specific property. |
| Do you have any special rating properties? (Yes/No) | Yes |
| **Financial Management** | |
| Is there any change in the situation of unauthorised and wasteful expenditure over time? (Decrease/Increase) | Fluctuates from year to year. |
| Are the financial statements outsourced? (Yes/No) | No |
| Are there Council adopted business processes instructing the flow and management of documentation feeding to Trial Balance? | Yes; standard SAP business processes. |
| How long does it take for an Tax/Invoice to be paid from the date it has been received? | It takes approximately 14 days on average to pay an invoice from date of receipt, taking into account all verification and approval processes performed by all line departments involved. |
| Is there advance planning from SCM unit linking all departmental plans quarterly and annually including for the next two to three years procurement plans? | We have a system for demand management which is incorporated into the Tender Tracking System (TTS). The system is maintained for the MTREF period subject to the necessary data being provided in a timely and accurate manner by line departments. |
| **Administration (Corporate Call Centre)** | |
| Reaction time on enquiries and requests? | This varies from day to day and also depends on the medium used. Calls are answered within 1 to 2 minutes. This changes when there are spikes in call volumes. |
| Time to respond to a verbal customer enquiry or request? (working days) | Immediately during the call; depending the nature of the request. |
| Time to respond to a written customer enquiry or request? (working days) | Acknowledged immediately via auto response and responded to as soon as possible. This varies from queue to queue. Our aim is to acknowledge immediately and respond within 7 days. |
| Time to resolve a customer enquiry or request? (working days) | Approximately 70% are resolved immediately at first point of contact. 30% resolved by back office according to their service standards. Percentage of calls not answered ranges from 5% to 20%. |
| What percentage of calls are not answered? (5%,10% or more) | It differs from queue to queue and the time of day, week, month, year and extenuating circumstances. |
| How long does it take to respond to voice mails? (hours) | We do not use voice mail. |
| Does the municipality have control over logged enquiries? (Yes/No) | Yes; the City uses the SAP system, which gives us an overview of all customer complaints and service requests reported via the Call Centre. |
| Is there a reduction in the number of complaints or not? (Yes/No) | Yes, there is a general reduction in the number of complaints received. There are spikes in specific types of complaints, e.g. water management devices under guarantee that has now been resolved. |

| Description<br>Standard | Service Level |
|---|---|
| How long does it take to open an account for a new customer? (1 day/2 days/ a week or longer) | There is a difference in the time to open a new account for a new property, which is dependent on the registration process from the conveyancer to the deeds office. This takes up to 3 months. |
| How many times does SCM Unit, CFO's Unit and Technical unit sit to review and resolve SCM process delays other than normal monthly management meetings? | Process delays are tracked by SCM Management and engagements with respective line departments take place on an ongoing basis. |
| **Community safety and licensing services** | |
| How long does it take to register a vehicle? (minutes) | 15 min |
| How long does it take to renew a vehicle licence? (minutes) | 8 min |
| How long does it take to issue a duplicate vehicle registration certificate? (minutes) | 15 min |
| How long does it take to de-register a vehicle? (minutes) | 10 min |
| How long does it take to renew a drivers license? (minutes) | 30 minutes |
| What is the average reaction time of the fire service to an incident? (minutes) | Between 8 to 20 minutes |
| What is the average reaction time of the ambulance service to an incident in the urban area? (minutes) | N/A - Provincial Competency |
| What is the average reaction time of the ambulance service to an incident in the rural area? (minutes) | N/A - Provincial Competency |
| **Economic development** | |
| Did your municipality participate in the Sub-National Doing Business Survey, and have the results been analysed to design interventions to promote the ease of doing business in your municipality? (Yes/No) | Yes |
| Does the municipality have a consolidated spatial view of its key business districts and the interventions required to unlock or promote economic growth in these areas, and is this information taken into account in the City's infrastructure planning – including the Built Environment Performance Plan? (Yes/No) | Yes. The City monitors information from the valuation data as well as surveys and other studies to determine economic activity. The nodes are contained in the Metropolitan Spatial Development Framework (MSDF) for the City, approved in 2018. In addition, further work is in progress to assess the data and make various assumptions about more localised economic activity to inform the Land Use Model. The Land Use Model will be used to inform the sector plans that will detail the infrastructure requirements for utilities. Land Use Model to be completed by June 2020 and draft sector plans to be available November 2020. This data and guidance will be contained in the District SDFs, that provide more detail and local perspective from the MSDF. District SDFs to be completed by June 2021. |
| How many job opportunities have been created through the municipality's EPWP and/or Community Work Programme in the last financial year? | 36 910 |
| How many projects does the municipality drive to support small business growth and entrepreneurship? | Enterprise & Investment = 18<br>Social Development and Early Childhood Development = 16 |
| Does the municipality have an active partnership with academic institutions in the region in order to grow the local skills base? (Yes/No) | Yes |
| Does the municipality have an internship and/or apprenticeship programme to support skills development? (Yes/No) | Yes - Internship and apprenticeship programs |
| Does the municipality have active programmes to promote its business sectors and attract investments? (Yes/No) | Yes |
| Does the municipality have any incentive plans in place to create a conducive environment for economic development? (Yes/No) | Yes, financial and non-financial incentives available to new investment and expansion of existing investment in 6 spatially targeted areas. |
| **Other Service delivery and communication** | |
| Is an information package handed to the new customer? (Yes/No) | No |
| Does the municipality have training or information sessions to inform the community? (Yes/No) | Yes |
| Are customers treated in a professional and humanly manner? (Yes/No) | Yes |

# PART ONE – ANNUAL BUDGET

## 1. Chairpersons report and resolutions

Please see separate report.

## 2. Executive summary

Over the past number of years, the CTICC has managed to generate positive growth in revenue and operating profit before interest, taxation, depreciation and amortisation (EBITDA), despite various challenges facing the region and industry. The situation has drastically changed as a result of the COVID-19 pandemic, with all normal business operations having ceased due to the National State of Disaster declaration and the subsequent lockdown instituted by the government. The government have split the lockdown into 5 levels with each level allowing various industries to return to operations. Unfortunately, the event and conference industry is not likely to be allowed to operate at any of the higher levels of the lockdown. The CTICC anticipates that the earliest that it is likely to return to operations would be January 2021. The revised budget for the 2020/21 financial year has been compiled by management, taking into account relevant factors, risks and forecasted micro- and macro-economic indicators.

To slightly mitigate the total loss of revenue from normal operations, the company successfully concluded agreements with the Western Cape Provincial Government (WCPG) to utilise CTICC 1 as a COVID-19 Temporary Intermediate Care Hospital for an initial three month period to 10 September 2020, with a month to month renewal to 31 December 2020, as well as the use of two halls in CTICC 2 for storage of medical supplies to 30 June 2020 with a possibility of a month to month renewal.

The company has identified the possibility that essential services companies may require the space provided by our venues during this time, to ensure that the requisite social distancing requirements can be met. This will allow the company to further limit the loss in revenue as a result of the lockdown.

Total adjusted revenue excluding interest income is forecast at R207.9-million, a decrease of 29.2% and 25.4% on the original budget for 2020/21, and the 2019/20 adjusted budget respectively. The decline is as a result of the State of Disaster declared on March 2020 due to the COVID-19 pandemic. The revised budget has been based on the company being allowed to commence trading as of January 2021. The company has continuously engaged with its clients who had events that were postponed from mid-March 2020 to the end of 2020 to negotiate the postponement of their events rather than an outright cancellation. This approach

has proven to be quite successful with multi-year events extended by a further year where the event was not able to be postponed. It is as yet not known if or when the industry will be able to return to the level that it was before the COVID-19 pandemic.

EBITDA for the period is forecast at a loss of R50.0-million, a decrease of 512.0% and 364.3% on the previous budget and the prior year respectively. The reduction in EBITDA is directly related to the COVID-19 pandemic's impact on the global business environment.

The agreement with the WCPG will at best ensure that the company is able to cover a portion of its costs without utilising all its available cash resources.

The CTICC's overall impact on the economy is not judged solely on its own financial results but the overall benefit to the citizens of Cape Town, the Western Cape and South Africa, which is best reflected in the contribution to GDP, as mentioned previously.

Each business unit has an implementation framework and a detailed action plan for the next year, which supports overall business objectives. These unit strategies support the core business strategy and explain how key performance indicators will be achieved and how each unit will contribute to the sustainability of the organisation.

Given the centre's economic mandate, the CTICC is focused on expanding its international reach. Sales, client relations and marketing strategies are in place to, firstly, keep the CTICC top of mind with key role-players and decision makers and, secondly, position the CTICC as a venue that has the staff and skills, track-record and vision to deliver and exceed clients' expectations. We have several client engagements planned, nationally and particularly internationally, to support this strategy.

Due to the nature of our business and the increase in short-term bookings, we have always included a portion of 'unknown' revenue for the unknown or short-term business. As venue rental income is the primary source of revenue, the other revenue stream budgets are prepared with these same assumptions.

Gross margins are budgeted to be at 80%.

Indirect costs have been budgeted to increase at 7.8% in total, mainly as a result of an increase in payroll, utilities, maintenance and marketing costs. The revised budget of 2020/21 reflects a R70.9-million net loss after tax for the year.

## 3. Annual budget tables

The basis of measurement and accounting policies in preparation of the budget has been consistent with prior years. Refer 4.Overview of budget-related policies.

# PART TWO – SUPPORTING DOCUMENTATION

## 1. Overview of budget process

The 2020/21 budget process followed a similar approach to that used in previous years. The budget takes into account the current market conditions, such as the impact of the COVID-19 pandemic, inflation, historical trend analysis, as well as the proposed city budget guidelines. Zero-based budgeting was used, where all expenses were justified and analysed for the centre's needs and cost.

## 2. Strategic alignment with the City of Cape Town's Integrated Development Plan (IDP)

The CTICC is committed to ensuring its activities align and support the City of Cape Town's IDP. As a municipal entity, the CTICC is required to submit, along with the annual budget, a multi-year business plan that sets key financial and non-financial performance objectives and measurement criteria. The mandate of economic growth, job creation and driving the knowledge economy remains at the core of what the CTICC does.

Annexure A illustrates the alignment between the CTICC and the City of Cape Town. The CTICC's business strategy is geared towards driving the knowledge economy and contributing to growth in the key economic sectors identified by both the City of Cape Town and the Western Cape Government as strategic areas for job creation and economic growth. Strategic economic sectors include:

- Agro-processing
- Business process outsourcing
- ICT
- Oil and gas
- Electricity
- Film
- Renewables
- Tourism
- Water
- Logistics
- Financial services
- Education
- Health

The City of Cape Town's Integrated Development Plan focus areas compared to the CTICC's Business Objectives has been attached as Annexure A.

## 3. Key performance indicators 2020/21

As a results-driven organisation, much emphasis is placed on attainment of targets, firstly at an organisational level, and then cascading down to departmental and finally to individual performance assessments. The system of performance management is integral to achieving the financial and non-financial targets. The CTICC's performance is measured by the City of Cape Town against a set of Key Performance Indicators (KPIs). These are reviewed annually by both shareholders. The KPIs as referred to in Annexure B, have two specific financial areas namely, operating profit and capital projects.

These are key performance indicators which measure the financial performance of the Company.

## 4. Overview of budget related policies

The budget policies effective at the time of the budget preparation are as follows:

4.1 Annual Leave Policy
4.2 Asset Management Policy
4.3 Business Travel and Subsistence Policy
4.4 Cost Containment Policy
4.5 Cell Phone Policy
4.6 Credit Control and Debt Collection Policy
4.7 Director's and Audit Committee Member's Remuneration Policy
4.8 Optimal Yielding Policy
4.9 Entertainment Policy
4.10 Fraud Policy
4.11 Investment Policy
4.12 Overtime Policy
4.13 Petty Cash Policy
4.14 Procedures for Acceptance and Receipt of Gifts Policy
4.15 Reward and Recognition Policy
4.16 Uniform Policy

These policies are available for inspection upon request.

## 5. Overview of budget assumptions

REVENUE

Venue rental has been budgeted to contribute 56% to total revenue, with the inclusion of the revenue earned from WCPG for the hospital in CTICC 1. Income for this category is budgeted to decrease by 12.0% compared to the 2019/20 adjustment budget. As in prior years, the budget includes a portion of "unknown business" which takes into account actual booking information in the system and factors into the budget, using a weighted calculation.

Food & beverage revenue is calculated on a percentage of venue rental income, which in turn is based on the events in the booking system.

Other Income is directly dependent on the events held at the CTICC, with the exception of the turnover rental received.

DIRECT COSTS

The cost of sales budget is in line with the historic trend of the Company and takes into account the business levels expected.

INDIRECT COSTS

Total salary costs for existing positions are budgeted to increase in 2020/21 by 11.5%, as it is based on a full complement of staff for a 12-month period.

Operations general costs have been budgeted to increase in total by 2.7% compared to the 2019/20 adjustment budget.

Utility Services are budgeted to increase in total by 11.6% for 2020/21, mainly due to the electricity tariff increase. Water and rates, has been budgeted to increase by on average by 6%, which is more or less in line with prior year trends. The Company continues to embark on energy saving initiatives.

Maintenance costs are budgeted to increase by 1.8% in the 2020/21 financial year. The budget takes into account that most items will be under guarantee following the construction of CTICC 2 and the refurbishments in CTICC 1 and requires no additional maintenance cost outlay.

Building costs are budgeted to increase by 3.6% compared to the 2019/20 adjustment budget of which mainly relates to the inflationary related increases.

IT Costs have been budgeted to increase by 6.0% for the 2020/21 financial year, primarily due to the costs related to a more virtual working environment where staff are provided various equipment and resources to deliver their services to the company.

Depreciation takes into account the additions to capital expenditure budgeted for 2020/21, taking into account the reassessment of useful lives where assets are due to be fully depreciated but still in use. Depreciation relating to the new building has been calculated at the value of the project over a period of 40 years.

## 6. Overview of budget funding

The CTICC is a cash generating entity and its operational and capital expenditure are self-funded through cash generated from operational activity and reserves.

## 7. Expenditure on allocations and grant programs

The CTICC is not the beneficiary of allocations and grants and all operational and capital expenditure are funded through cash generated and reserves.

## 8. Board member allowances and employee benefits

The Board of Directors and Audit and Risk Committee members do not receive any allowances and are only paid fees for their attendance of board and committee meetings. The fees are determined by the City in terms of national guidelines issued by National Treasury. The fees breakdown for the budget year is as follows:

*Table 2: Directors Fee Breakdown*

| Detail | Members | Chairman |
|---|---|---|
| Board and Committee meetings<br><br>Committees include:<br>Audit and Risk Committee<br>Nominations Committee<br>Social and Ethics Committee<br>HR & Remuneration Committee<br>Ad Hoc Meetings | **R 446 063** | **R 135 137** |

The following table represents the personnel employed by the CTICC.

| Detail | Count | R'000 |
|---|---|---|
| No. of board members | 12 | 581 |
| Senior managers (incl. CEO) | 5 | |
| Other managers | 19 | |
| **Total managers** | **36** | **11 212** |
| Other staff members | 294 | 79 128 |
| | | |
| **Total personnel** | **330** | 90 921 |

## 9. Monthly targets for revenue, expenditure and cash flow

**REFER ANNEXURE C**

## 10. Contracts having future budgetary implications

The contracts with suppliers have been included in the normal operational expenditure budget.

## 11. Capital expenditure details

**REFER ANNEXURE C**

## 12. Legislation compliance status

The legislative checklist is done on an annual basis and there are no areas of non- compliance.

## 13. Other supporting documents

None.

## 14. Chief Executive Officers quality certification

**REFER ANNEXURE D**

## ANNEXURE A

| | | |
|---|---|---|
| 1. | **The Opportunity City**<br>*Economic Growth and Job Creation* | The CTICC aims to maximise economic impact and job creation through:<br>• Driving the knowledge economy and skills exchange<br>• Attracting more meetings and events to Cape Town<br>• BBBEE procurement of no less than 60%<br>• Partnering with business tourism role-players<br>• Creating new strategic business opportunities |
| | *Infrastructure-led growth and development* | **CTICC 2** has added 10 000 $m^2$ to existing exhibition space and approximately 3 000$m^2$ of formal and informal multi-purpose exhibition space. This will allow the CTICC to service high levels of demand by hosting more events concurrently. The expanded facility also supports our commitment to the knowledge economy and economic growth. |
| | *Promote a sustainable environment* | The CTICC places a priority on integrating economic, social and environmental sustainability into every aspect of its business. The triple bottom-line approach is informed by a comprehensive environmental policy and monitored by a dedicated sustainability committee. |
| | *Leverage assets to drive economic growth* | The **CTICC's purpose** is to contribute to and drive economic growth and job creation, and this mandate is achieved year-on-year. |
| | *Training and skills development* | To create and maintain a highly capable and talented team requires a multi-faceted approach and we employ a system of continuous-training, rewards, recognition and mentorship, as well as a focus on our employees' financial and physical wellness.<br>**Service excellence** is further enhanced through the continuous innovation of technology and processes. |
| 2. | **The Safe City** | We believe that for a safe experience, the safety of our visitors and staff members must be addressed in the wider environment. The CTICC is a member of Cape Town Central District (CCID) and pays a monthly fee for cleaning and security within the precinct and during large events. We also have measures in place to ensure a safe environment on the premises. |

## ANNEXURE A (conti.)

| | CITY OF CAPE TOWN 2017-2022 IDP focus areas | CTICC Mission statement and activities |
|---|---|---|
| 3. | **The Caring City** | The CTICC is committed to uplifting and empowering the local community. We support five key Local Community Partners that are aligned with sectors related to CTICC operations. Our focus on volunteerism encourages our staff, suppliers and clients to assist our Local Community Partners through activations and direct skills exchange. The CTICC is also involved in a number of broader community initiatives. |
| 4. | **The Inclusive City** | The CTICC contributes to **transformation** and ensures inclusivity by consistently meeting and exceeding the target of no less than 60% expenditure with BBBEE suppliers, women owned businesses and SMMEs. |
| 5. | **The Well-run City** | We contribute to a well-run city through our compliance with MFMA and other legislation, our adherence to the principals of the King IV Code of Governance, as well as our risk identification and management processes. We are proud of our five clean, unqualified audits. |

The table below illustrates the agreed KPIs for the financial year 2020/21:

| | Category | Measurement | Annual Target 2018/19 | Actual 2018/19 | Annual Target 2019/20 | Annual Target 2020/21 | Annual Target 2021/22 | Annual Target 2022/23 |
|---|---|---|---|---|---|---|---|---|

For its 2020/21 financial year,
**the CTICC will focus its operations around achieving the following targets**

CTICC

## SECTION TWO

# Executive Summary

# EXECUTIVE SUMMARY

## Introduction

The Cape Town International Convention Centre (CTICC) was established in 2003 with the very clear purpose of contributing to economic growth and job creation in the city and province through the hosting of international and national conferences, meetings, exhibitions and events. Since then the centre has not only met but exceeded those expectations on every level.

**R47.7bn**
South Africa's Gross Domestic Product (GDP)

**R39.6bn**
Western Cape's Gross Geographic Product (GGP)

## Contribution to Economy

As it approaches its 17th year of operations, the CTICC has sustained more than 130 000 direct and indirect jobs since inception and contributed a considerable R47.7bn to South Africa's Gross Domestic Product (GDP), of which over R39.6bn was injected directly into the Western Cape's Gross Geographic Product (GGP) to support the centre's purpose.

As it enters its third year of operations in 2019/20, CTICC 2 continues to support its purpose and growth outlook, as well as the city's objective of establishing Cape Town as Africa's top business events destination. The increased capacity and flexibility of physical space allows for higher delegate numbers, as well as increasing the variety of events that can be held concurrently. This provides a significant boost to Cape Town's global standing as a premier world-class meetings and events destination.

## Centre for Knowledge Exchange and Service Excellence

In this highly competitive market, the CTICC has sought to differentiate its offering from those of its industry peers by focusing on high standards, service excellence and leadership in triple bottom line sustainability. There is a strong commitment to innovation, customer centricity and, importantly, financial sustainability. This, along with an active pursuit of events that support the 'knowledge economy', has bolstered the CTICC's importance as a significant contributor to the local and national economy.

There is no doubt that economic growth is increasingly dependent on intellectual capital and the CTICC believes that it has a significant role to play in providing a platform for knowledge exchange and rigorous debate, not only in South Africa but also the broader global economy.

To this end, many of the 560 events hosted by the CTICC in the 2018/19 financial year, especially the international conferences, supported the advancement of industries identified as key catalytic sectors by the City of Cape Town and Western Cape Government for trade, investment and growth. By attracting global associations and experts to the city for these events, the CTICC makes a vital contribution towards growing essential expertise, knowledge and skills.

This document represents the CTICC's Business Plan for the 2020/21 financial year, based on the CTICC's stated purpose: to create jobs by attracting events in key economic sectors and exceeding clients' expectations.

As a state-owned entity, this business plan is aligned with the City of Cape Town's Integrated Development Plan (IDP), as well as the Western Cape Government's Economic Growth Strategy, and is guided by their key principles.

For context, the 2020/21 plan includes an organisational overview of the CTICC and the core reasons for its formation. The CTICC operates in a challenging global context, and the market analysis section of this plan provides insight into the broader market environment. The business plan and budget also take into account the impact of the Covid-19 pandemic on the operations and finances of the company.

The company has continued to pay full salaries for all permanent employees since the state of disaster and lock down was instituted even though normal operations have ceased, but a majority of the staff were equipped to work remotely. The staff not able to work remotely will be rostered to work during the period that the temporary hospital is in the building.

## Financial Management

Over the past number of years, the CTICC has managed to generate positive growth in revenue and operating profit before interest, taxation, depreciation and amortisation (EBITDA), despite various challenges facing the region and industry. The budget for the 2020/21 financial year has been compiled by management, taking into account the significant negative impact of the Covid-19 pandemic on the company's ability to host events in the near future.

As a consequence of the preventative Covid-19 measures put in place by the government, the National Treasury has issued guidance in the form of Circular 99. This enables the CTICC to submit a revised budget which takes into account the specific impact of the pandemic on the company's operations.

In light of the state of disaster and lockdown, the CTICC has been unable to host events since mid-March 2020, which has had a devastating impact on operations. During this time, no revenue could be earned, yet most operating costs remained in place, and it is anticipated that events will only be given the go-ahead in the early stages of 2021. A large percentage of the staff was provided with the tools to work from home and, while it proved challenging at times, this new system was largely successful.

Whereas the CTICC's previous budget estimated a R12.1 million profit, the net result of the current pandemic may result in a budgeted EBITDA loss of R50.0 million. However, the CTICC has been able to mitigate the total revenue loss by concluding agreements with the Western Cape Provincial Government (WPCG) to:

- Utilise the CTICC 1 as a temporary intermediate care hospital for 3 months (ending mid-September 2020); and
- Utilise the CTICC 2 for storage of medical supplies until 30 June 2020.

Both these contracts may be extended on a month to month basis, as required.

The CTICC has always been in the enviable position of generating its own financial resources, which fund its growth through re-investing for the future, the only exception being the major expansion of CTICC 2. This trend is not likely to persist in the 2020/21 financial year, however, as a result of the loss in business and the use of available cash resources to fund operational and critical capital expenditure.

The CTICC's overall impact is not judged solely on its own financial results but the overall benefit to the citizens of Cape Town, the Western Cape and South Africa, which is best reflected in the contribution to the GDP, as mentioned previously.

Each business unit has an implementation framework and a detailed action plan for the next year, which supports overall business objectives. These unit strategies support the core business strategy and explain how key performance indicators will be achieved and how each unit will contribute to the sustainability of the organisation.

Given the company's economic mandate, the CTICC continues to focus on expanding its international reach. Now more than ever, it is important to ensure that the CTICC plans for the future and adapts in a way that allows the CTICC to achieve success in the post-pandemic environment. Sales, client relations and marketing strategies are in place to, firstly, keep the CTICC top of mind with key role-players and decision-makers and, secondly, position the CTICC as a venue that has the staff, skills, track-record and vision to deliver and exceed clients' expectations. The CTICC has several client engagements planned, nationally and particularly internationally, to support this strategy.

## Reinvestment in the Business

A high quality, contemporary food and beverage offering plays an essential role in the success of the CTICC. It is through this major touchpoint that most of the CTICC's clients and visitors experience its world-class service.

The CTICC focuses on producing an exceptional culinary experience with quality food and personalised service, while maintaining strict food safety and hygiene standards. In 2019/20, the centre maintained its ISO 22000 certification (food safety management), ensuring its food and beverage offering meets exacting international standards. The CTICC is committed to remaining competitively priced and aligned to the latest trends to ensure a competitive advantage.

From an IT perspective, the CTICC will continue to place significant focus on support services and infrastructure projects, to enhance service delivery. A number of upgrades are in the pipeline which will enhance the initial system integration between the buildings (CTICC 1 and CTICC 2), with a focus on driving standardisation and support of a common platform for the complex.

The CTICC recognises the associated benefits of moving towards cloud platforms. In 2018, this technology was successfully trialled through the implementation of a cashless system for the Cape Town International Jazz Festival. This method of computing will be further enhanced during the course of the coming year for an expanded level of cashless payment systems. Cyber security also remains top of the company's ICT agenda, supported by continual advancement of disaster recovery programmes.

**ISO 22000**
Achieved for Food Safety Management

## Staff Engagement

The CTICC is committed to creating a culture of employee engagement by providing information, resources and services to staff that promote collaboration, connection and a commitment to their work, colleagues and the objectives of the centre. The focus will be on championing employee wellness, work- life balance and employee incentive options as cost-effective workforce strategies.

## Audit Outcome

The CTICC has achieved an unqualified or clean audit report with no findings for the past seven consecutive years and it remains committed to managing and regulating processes throughout the organisation to maintain this record. Procurement from BBBEE companies is a priority and the CTICC has not only met but exceeded targets set. Moving into the 2020/21 financial year, the CTICC will continue to strive to increase procurement from BBBEE and women owned enterprises.

## Ethical Business Culture and Governance

United Nations Global Compact

The CTICC is committed to upholding and building an ethical business culture. As a sign of this ongoing commitment, the CTICC subscribes to the United Nations Global Compact (UNGC) and adheres to the ten guiding principles in support of a principled approach to doing business.

The CTICC is privileged to have an experienced and stable Board of Directors that directs and governs the centre based on its mandate to be self-sustaining and contribute to economic growth and job creation.

The CTICC and its Board of Directors are committed to upholding good ethical standards and the application of corporate governance principles in accordance with the King IV Report on Corporate Governance for South Africa, 2016. As an adoptor of 'King IV™', the Board ensures that governance structure in the centre cultivates good governance outcomes in relation to ethical culture, performance, effective control and legitimacy.

## Cautionary Note

The 2020/21 Business Plan and Budget has been drafted giving due consideration to all factors that could impact on the CTICC's ability to achieve the objectives set out herein. These objectives include the financial information relating to the budget and non-financial targets as detailed in Section 3.5 (Table 3 – CTICC Key Performance Indicators (KPI's)).

The achievement of the targets set out in the 2020/21 Business Plan is based on various assumptions made in relation to uncertainties for the future period, one of them being the Coronavirus pandemic.

### Coronavirus Pandemic

The 2020/21 Business Plan was based on the assumptions that:

- Due to the Coronavirus (Covid-19) pandemic, existing Contracts of Hire for July to December 2020 events have been cancelled or postponed. It is anticipated that event hosting will resume in January 2021.
- These event cancellations and postponements have had a significant impact on the company's financial projections and events numbers.
- This will have a direct impact on the KPI targets, should the assumptions used in the budget not be realised.
- The reduced delegate numbers will, in turn, also have a negative economic impact on the GGP and GDP.

CTICC

## SECTION THREE

# About the CTICC

# ABOUT THE CTICC

When the CTICC opened its doors in 2003, it was widely anticipated that visitors from around the world would be welcomed to this attractive new venue in Cape Town. Those aspirations have been met on all levels. After 16 years of successful operation, the CTICC has become an iconic attraction on the business tourism map of Cape Town, South Africa and Africa as a whole.

The centre continues to operate in the following trade segments: national and international conferences, exhibitions, trade fairs, banquets and special events, as well as film shoots and other events.

The value of any internationally competitive convention centre is measured by its economic contribution and financial stability. For a convention centre to contribute significantly and sustainably to an economy, it needs to be invested in that economy and its people.

Since its inception, the CTICC has injected more than R47bn into the national Gross Domestic Product (GDP), with over R39bn contributed directly to the Western Cape economy. In addition, more than 130 000 jobs have been created, and sustained over the years.

To continue its success, it is vital that the CTICC remain internationally competitive. The centre's expansion will continue to raise the global competitiveness of Cape Town as a premier world-class meetings and events destination, in turn allowing the CTICC to meet the City of Cape Town's Integrated Development Plan objective of establishing the city as Africa's business events destination.

Over
**130 000**
jobs have been created, and sustained, since the CTICC's inception

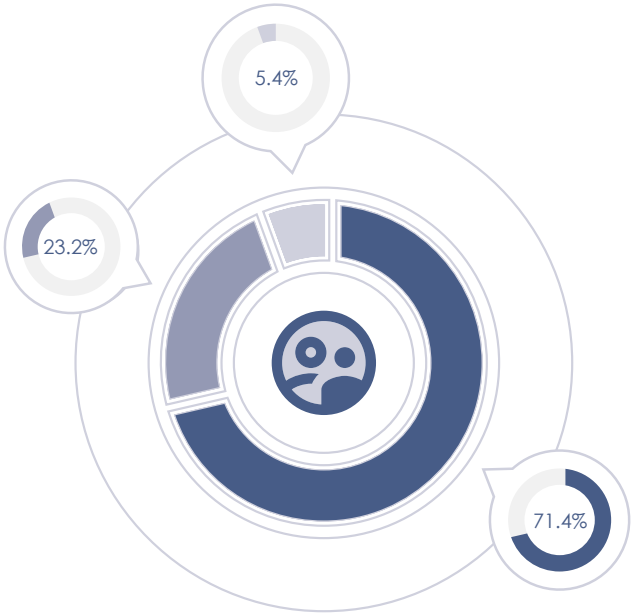
The CTICC 2 consists of 31 148m² of gross space, which includes 10 000m² of multi-purpose conference and exhibition space, as well as almost 3 000m² of formal and informal meeting space. With this addition, the CTICC has doubled its previous exhibition capacity, which is essential to meet the growing demand for event space.

The CTICC has a reputation for excellence, often leading the way in the quest for improved systems, functionality and sustainability. It maintains four internationally recognised management system certifications (ISO 9001, 14001, 18001 and 22000) as well as a Hazard Analysis Critical Control Process (HACCP). From an excellence perspective, the CTICC has maintained its Tourism Grading Council 5-star rating and achieved Gold AIPC (International Association of Convention Centres) quality standard certifications.

The CTICC has recently transitioned to the newly enhanced ISO 9001:2015 and ISO 14001:2015 standards that apply to the Annex SL management structure. It is anticipated that the enhanced ISO 45001 will replace the current OHSAS 18001 standard with the same Annex SL management structure, aligning the existing system with a higher structural level of management. The CTICC will transition to this new ISO 45001 in Occupational Health and Safety by 2021.

The CTICC's broader corporate sustainability is underpinned by ethical business practices and principled values. The company's adherence to the United Nations Global Compact principles also means operating in ways that meet international responsibilities in the areas of human rights, labour, environment and anti-corruption measures.

As a municipal entity, the CTICC is expected to deliver against a set of key performance indicators (KPIs) that are agreed upon by the centre and the City of Cape Town on an annual basis. Year-on-year, the CTICC is required to meet and exceed these targets.



## 3.1 Shareholding Structure

The Cape Town International Convention Centre Company (Convenco) is a state-owned company (ring-fenced). Convenco was formed in 1999 through a collaboration between the City of Cape Town, the Western Cape Government and the private sector.

The primary objective behind the formation of the company was to establish a world-class international convention centre in Cape Town that would provide meeting, convention and exhibition services and facilities for local and international organisations and their delegates.

It was envisaged by the Convenco co-founders that the CTICC would have a sustainable positive impact on the economic and social development of Cape Town, the Western Cape and South Africa.

Financing of the expansion phase has resulted in changes to the shareholding proportion as illustrated in the supporting graph.

Graph 1: **Shareholding Structure**

- **71.4%** City of Cape Town
- **23.2%** Western Cape Government
- **5.4%** SunWest International (Pty) Ltd

Primary
**Objective**
to deliver a world-class international convention centre in Cape Town

## 3.2 The CTICC's Purpose, Mission and Values

### Purpose

The CTICC connects people to create jobs by attracting events in key economic sectors and exceeding clients' expectations.

### Mission

The CTICC will bring its vision to life by:

- Maximising economic spin-off and job creation.
- Focusing on innovation and exceeding expectations.
- Achieving service excellence by building capable and quality staff.
- Being a world leader in sustainability.

### Values

The CTICC will achieve its mission and vision by applying ourselves with:

- Passion – We live to go beyond.
- Integrity – We are transparent in all our actions.
- Innovation – We create magic that gives us the edge.
- Excellence – We create superior experiences.
- Gratitude – We are appreciative of the opportunities provided by the CTICC, City of Cape Town and the country we live in.
- Caring – We care for one another, our clients, our business, our building and our equipment.

The CTICC aims to achieve its purpose by being a truly inspirational business that sets the global standard for excellence in business practices, hospitality and event hosting, both locally and internationally. Doing business ethically remains at the core of its corporate culture. Driving the knowledge economy and skills exchange are imperative in terms of focusing on key economic sectors of the City of Cape Town and the Western Cape Government.

Of the more than 7 900 events hosted by the CTICC over the past 16 years, 623 were international association conferences across a broad spectrum of sectors. This includes the priority sectors for trade and investment growth as identified by the City of Cape Town and Western Cape Government below and further illustrated in the supporting table on page 17:

- **Productive sectors:**
  Oil & gas, tourism, agro-processing, business process outsourcing, renewables, and film.
- **Enabling sectors:**
  Electricity, water, ICT, logistics and financial services.
- **Social sectors:**
  Education and health.

By attracting global associations to the city for these events, the CTICC is making a vital contribution towards growing expertise, knowledge and skills in all these areas in Cape Town, the Western Cape and South Africa. In this way, the CTICC continues to strengthen local, regional and national competitiveness and potential.

Over
**7 900**
events hosted by the CTICC
over the past 16 years.

## 3.3 Strategic Alignment with the City of Cape Town's Integrated Development Plan (IDP)

The CTICC is committed to ensuring its activities align and support the City of Cape Town's IDP. As a municipal entity, the CTICC is required to submit, along with the annual budget, a multi-year business plan that sets key financial and non-financial performance objectives and measurement criteria. The mandate of economic growth, job creation, and driving the knowledge economy remains at the core of what the CTICC does.

The illustration below outlines the alignment between the CTICC and the City of Cape Town. The CTICC's business strategy is geared towards driving the knowledge economy and contributing to growth in the key economic sectors identified by both the City of Cape Town and the Western Cape Government as strategic areas for job creation and economic growth.

### Strategic economic sectors include:

- Oil and Gas
- Tourism
- Agro-processing
- Business Process Outsourcing
- Renewables
- Film
- Electricity
- Water
- ICT
- Logistics
- Financial Services
- Education
- Health

This will allow the CTICC to service high levels of demand by hosting more events concurrently. The expanded facility also supports the centre's commitment to the knowledge economy and economic growth.<br><br>The CTICC places a priority on integrating economic, social and environmental sustainability into every aspect of its business. The triple bottom line approach is informed by a comprehensive environmental policy and monitored by a dedicated sustainability committee.<br><br>The CTICC's purpose is to contribute to and drive economic growth and job creation, and this mandate is achieved year-on-year.<br><br>To create and maintain a highly capable and talented team requires a multi-faceted approach and the company employs a system of continuous training, rewards, recognition and mentorship, as well as a focus on employees' financial and physical wellness. Service excellence is further enhanced through the continuous innovation of technology and processes. |
| The Safe City | The CTICC believes that, to ensure a safe experience, the safety of its visitors and staff members must be addressed in the wider environment. The CTICC is a member of the Cape Town Central City Improvement District (CCID) and pays a monthly fee for cleaning and security within the precinct and during large events. The CTICC also has measures in place to ensure a safe environment on the premises. |
| The Caring City | The CTICC is committed to uplifting and empowering the local community. The venue supports five key Local Community Partners that are aligned with sectors related to the CTICC's operations. The company's focus on volunteerism encourages staff, suppliers and clients to assist its Local Community Partners through activations and direct skills exchange. The CTICC is also involved in a number of broader community initiatives. |
| The Inclusive City | The CTICC contributes to transformation and ensures inclusivity by consistently meeting and exceeding the target of no less than 60% expenditure with BBBEE suppliers, women-owned businesses and SMMEs. |
| The Well-run City | The contributes to a well-run city through its compliance with MFMA and other legislation, in accordance with the King IV Report on Corporate Governance for South Africa ("King IV™") as well as its risk-identification and management processes. The centre proudly boasts seven clean, unqualified audits. |

## 3.4 Key Performance Indicators 2020/21

As a results-driven organisation, much emphasis is placed on the attainment of targets – firstly at an organisational level, from where it cascades down to departmental level and, finally, to individual performance assessments. This system of performance management is integral to achieving financial and non-financial targets. The CTICC's performance is measured by the City of Cape Town against a set of KPIs that are reviewed annually by the stakeholders.

The table below illustrates the agreed KPIs for the 2020/21 financial year:

### Table 2:
### CTICC Key Performance Indicators (KPIs)

| | Category | Measurement | Annual Target 2018/19 | Actual 2018/19 | Annual Target 2019/20 | Annual Target 2020/21 | Annual Target 2021/22 | Annual Target 2022/23 |
|---|---|---|---|---|---|---|---|---|
| 1 | Operating Profit[1]/ (Loss) before Tax | Percentage achievement of annual operating profit | 100% | 722% | 100% | **100%** | 100% | 100% |
| 2 | Capital Projects | Percentage of total number of capital projects for the year completed or committed | 90% | 97% | 90% | **50%** | 90% | 90% |
| 3 | Capital Expenditure (CTICC 2 Expansion) | Percentage of total capital expenditure spend | 100% | 100% | 100% | **n/a** | n/a | n/a |
| 4 | Quality Offering | Maintain 5-star tourism grading through effective management & maintenance of quality service delivery | Achieve 5-star tourism grading | 5-star tourism grading achieved | Achieve 5-star tourism grading | **Achieve 5-star tourism grading** | Achieve 5-star tourism grading | Achieve 5-star tourism grading |
| 5 | Events | Number of events hosted | 535 | 560 | 545 | **50** | 565 | 570 |
| 6 | International Events | Number of international events hosted compared to annual budgeted target | 32 | 34 | 34 | **6** | 35 | 35 |

| 9 | Minimum Competency Level | Number of senior managers registered for MFMA Competency Course | 7 | 12 | 7 | **7** | 7 | 7 |

## 3.4 Key Performance Indicators 2020/21 *(continued)*

| | Category | Measurement | Annual Target 2018/19 | Actual 2018/19 | Annual Target 2019/20 | Annual Target 2020/21 | Annual Target 2021/22 | Annual Target 2022/23 |
|---|---|---|---|---|---|---|---|---|
| 10 | Customer Centricity and Service Excellence | Minimum aggregate score for all CTICC internal departments and external suppliers | 80% | 84% | 80% | 75% | 80% | 80% |
| 11 | Procurement | Supply chain procurement BBBEE suppliers measured in terms of BBBEE Act | Percentage spend not lower than 60% | 86% | 60% | 60% | 60% | 60% |
| 12 | Financial Ratios: | Total cash and investments, less restricted cash for monthly operating expenditure | RCC = 5.0 times | 10.0 times | 7 times | 3.8 times | 0 times | 0 times |
| | • Ratio of cost coverage maintained (RCC) | | | | | | | |
| | • Net debtors[3] to annual income (ND) | Net current debtors divided by total operating revenue | ND = 7.0% | 1.3% | 2.0% | 5% | 4% | 4% |
| | • Debt coverage by own billed revenue (DC) | Total debt divided by total annual operating income | DC = 0.0% | 0.0% | 0.0% | 0.0% | 0.0% | 0.0% |
| 13 | Student Programme contribution to youth employment and skills development | Number of student opportunities provided | 6 | 14 | 6 | 8 | 10 | 10 |
| 14 | Graduate Programme contribution to youth employment and skills development | Number of graduate opportunities provided | 6 | 11 | 6 | 7 | 8 | 8 |
| 15 | Number of people from the employment equity target groups employed in the three highest levels of management in compliance with the Municipal Entity's Approved Employment Equity Plan | Percentage of Exco, Manco and Leadership positions held by persons from designated groups | 80% | 80% | 80% | 80% | 80% | 80% |

1 Operating profit is defined as earnings before interest, taxation, depreciation and amortisation.
2 Clean audit is defined as an unqualified audit report with no material findings on compliance with laws and regulations, and predetermined objectives.
3 Nett debtors are defined as gross trade debtors after impairment.

## 3.5 Situational Analysis 2020/21

### Macro Environment

An ever-changing macro environment presents a complex and dynamic context for the CTICC, consisting of six sub-environments or variables, namely political, economic, social, technological, legal and environmental (PESTLE). This PESTLE analysis highlights the CTICC's current environment and the implications for the business.

Table 3:
**PESTLE Analysis**

| | |
|---|---|
| Political | • Global challenges faced by governments due to Covid-19<br>• Limited governmental support – National Convention Bureau (Subvention Fund)<br>• Good synergy with shareholders<br>• Governmental restrictions on business activity due to national lockdown restrictions (lockdown levels) |
| Economic | • Global economic recession due to Covid-19<br>• Exchange rate depreciation<br>• Financial downgrade by credit rating agencies<br>• Shift in traditional markets<br>• Electricity and fuel costs/load-shedding<br>• Flight and accommodation costs<br>• Lack of transport infrastructure<br>• American trade restrictions<br>• Geopolitical influences<br>• Increasing food costs |
| Social | • Negative impact of inner-city homelessness and vagrancy on delegates<br>• Sustainability of job creation<br>• High rate of poverty<br>• Crime<br>• Unemployment<br>• Responsible citizenry<br>• Limited social interaction due to Covid-19 |
| Technological | • Digitisation of business activity due to Covid-19<br>• Adaption to new technology trends<br>• Lack of national infrastructure to support new technology<br>• Emergence of new and advanced mobile technology<br>• Cyber threats<br>• Information security |
| Legal | • Existing and new general legislation<br>• Municipal entity legislation<br>• Immigration and visa regulations<br>• POPI Act and GDPR compliance and possible amendment due to Covid-19 |
| Environmental | • Climate change risks<br>• Shortage of energy<br>• Water scarcity and associated restrictions<br>• Reduced food security resulting from the breakdown of the supply chain<br>• Reduction of carbon footprint |

## 3.6 Company Analysis

### 3.6.1 Brand Essence and Brand Positioning

The CTICC views its brand as a connector and a platform for opportunity: a brand that brings people together through the hosting of events that exceed expectations through a culture of customer-centric teamwork.

The CTICC's brand positioning is encapsulated in its purpose: to create jobs by attracting key economic business events and exceeding clients' expectations. While the CTICC Strategy Pyramid and Value Proposition have been well documented in previous annual submissions, it is important to reinforce its core message. The illustration below has been included for this purpose.

## 3.7 Market Attractiveness

The opening of the CTICC 2 has allowed the centre to attract a higher volume of large-scale exhibitions and international conferences of 10 000 or more delegates to Cape Town. It also provides the capacity to expand repeat events and international association meetings.

Diagram 1:
**Strategy Pyramid and Value Proposition**

| | | | | | | |
|---|---|---|---|---|---|---|
| Brand Pillars | We live to go beyond | We are transparent in all our actions | We create magic that gives us the edge | We create superior experiences | We are appreciative of the opportunities provided by the CTICC, City of Cape Town and the country we live in | We care for one another, our clients, our business, our building and our equipment |
| Brand Values | Passion | Integrity | Innovation | Excellence | Gratitude | Caring |

Diagram 1:
**3.8 SWOT Analysis**

## 3.8 SWOT Analysis

To remain competitive, it is necessary to constantly monitor the environment and the factors that affect the business, both positively and negatively. This revision of the previous year's SWOT Analysis is useful in guiding the CTICC on how to grow its business, capitalise on opportunities and mitigate risk.

### Strengths

- Excellent/diverse culinary offering
- High quality building infrastructure
- Good governance and service ethics
- International standards driven
- Committed and passionate staff
- High quality in-house service providers
- Diverse and flexible product offering
- Strong brand awareness
- Strong industry commitment to brand and marketing initiatives
- Well-established high-yielding repeat client base
- Competitive pricing relative to long-haul competitors
- Sustainability conscious organisation
- Good city location and access to high quality amenities
- Lack of similar-sized venue supply in Cape Town for large international conferences and exhibitions/trade fairs
- Diverse accommodation options including surrounding high-end hotels
- Long-standing relationships with suppliers
- Healthy cash reserves
- Development of staff

### Weaknesses

- IT policy and resources limiting innovation
- Attracting and retaining skilled staff
- Inconsistency of customer service delivery, which impacts on reputation and/or financial loss
- SCM constraints which impact on competitiveness
- Difficulty in sustaining ever-changing technology standards

Whilst international meetings and conferences represent higher-yielding business opportunities and greater macro economic benefits than local events, the market-environment analysis indicates that there is a need to have a parallel focus on the CTICC's national market segments footprint. The CTICC's strategic plan for the future, therefore, needs to take a holistic approach that maximises opportunities across all market segments.

### Opportunities

- Targeting the South African market for larger incentive groups and corporate business
- Limited number of competitors with the capacity to host events of more than a 1 000 pax
- Leveraging stakeholder relationships and Cape Town brand initiatives
- Long-term commitment to current target markets
- Growth of Cape Town as a prime destination
- Growing niche and emerging economy markets
- Communicating product range to new markets
- Enhanced digital strategy
- Virtual meetings and contracting with essential service providers, such as call centres during Covid-19
- Use of technology to reduce costs
- Favourable exchange rate for international events

### Threats

- The impact of the Covid-19 pandemic on gatherings and travel – i.e. business sustainability
- The impact of the water scarcity on business sustainability
- International demand for short-haul destinations (economic pressure)
- Increased local competition from new venues in Cape Town, including conferencing facilities within hotels
- Increase in crime in the areas surrounding the CTICC and the limited presence of law enforcement
- Long-term weakness of the rand, resulting in increasing operating costs (equipment, international trade shows, etc.)
- Government regulations and policies (particularly related to labour legislation, land reform, visa regulations, etc)
- Long-haul destination – associated costs and carbon footprint related to travel
- Profit-margin erosion due to factors such as increased costs related to water, food, beverages and labour
- Revenue erosion due to decreasing customer spend and delegate attendance
- Varying business models allowing other venues to be more competitive
- Outbreaks of communicable and food diseases
- Potential terrorist threats
- Implementation of capital works given business demands
- Political instability and the impact of service delivery
- Competitors not adhering to legislative requirements (i.e. SASRIA Act)

CTICC

# SECTION FOUR

# Sales & Marketing

# SALES & MARKETING

The Sales and the Marketing & Communications' teams, together with Revenue Management, play a central role in ensuring that the business meets and exceeds the following objectives:

- Maximising revenue
- Exceeding event number targets for international conferences
- Positioning the CTICC (and the City of Cape Town) as a highly desirable destination for meetings and events
- Securing a range of events
- Exceeding client expectations through service excellence

Together, the three teams
**play a central role**
in ensuring that the business meets and exceeds the following objectives

## Stakeholders/Shareholders

- The City of Cape Town
- The Western Cape Government
- SunWest International (Pty) Ltd
- CTICC Board Members
- Relevant sector organisations and associations, both regional and global, including Cape Town Tourism, South African Association for the Conference Industry (SAACI), Cape Town and Western Cape Convention Bureau, National Convention Bureau, International Association of Convention Centres (AIPC), The Global Association of the Exhibition Industry (UFI) and International Congress and Convention Association (ICCA), among others

## Clients

- International associations and corporations
- National associations
- Professional conference organisers
- Exhibition clients
- Visitors and delegates
- Corporate clients
- Government organisations and embassies
- Event organisers
- Production companies

## Media

- Industry and mainstream online media
- Regional and national print media
- Regional and national radio stations
- Online news portals
- Industry and association websites
- Social media

## CTICC Staff

- Permanent staff
- Contract staff

## Public

- Local communities

**Contributors**
add to the success of the CTICC, making it a world-class venue for both national and international events

## 4.1 Sales

The overarching objective of the Sales team is to increase the CTICC's competitiveness in the global long-haul market through successfully bidding for international association conferences, as well as targeting corporate and government events in the region. Due to the Covid-19 pandemic and current business dynamic, the CTICC will focus primarily on local events, followed by national events and, finally, international events in accordance with the various levels of restrictions as enforced by the government.

As a venue, the CTICC specialises in delivering events in the following segments:

- International Conferences
- National Conferences
- Exhibitions
- Trade Fairs
- Special Events (sports, cultural and leisure events)
- Banquets
- Film and Photo Shoots
- Other Events (workshops, training seminars, exams, product launches, breakfasts, AGMs & corporate roadshows)

**To effectively attract and host events, the CTICC targets clients and event planners in the following markets:**

- International and local associations
- Businesses and corporate organisations
- Exhibition and trade fair organisers
- Government departments
- International developmental organisations
- Film production companies
- Music and sports promoters
- Virtual meeting organisers

In the international market, the centre's primary business will continue to be derived from European and British associations markets. However, there also exist opportunities with international associations headquartered in Africa, as well as the American corporate and associations market. On a national level, trade fair, exhibition and national conference segments remain key revenue generators for the business.

The business of securing international conferences involves a bidding process and differs from securing other event segments, where clients book directly with the CTICC.

Associations are a collective of constituted businesses, professions and organisations that have membership within a country and are often affiliated with an international association. These international associations stage larger international conferences (also known as congresses, symposiums and general assemblies) on a regular basis. Often a local representative or association has to place a bid for the event to take place in their country. Specialised research is required to determine upcoming opportunities for Cape Town (and the CTICC) to bid on, as well as the exact bidding process involved, venue requirements, and the national host that would most likely be in a position to extend the invitation. The CTICC works closely with the City of Cape Town and the Western Cape Convention Bureau, as well as the National Convention Bureau to bid for international conferences.

Lead times can be very long – in fact, it is not unusual to have gaps of up to eight years between bids to host a particular world congress. However, shorter lead times are becoming more common.

### 4.1.1 Sales Objectives

| | |
|---|---|
| 1 | Build and maintain strong client relationships |
| 2 | Generate leads within the city's catalytic sectors |
| 3 | Acquire and grow all market segments |
| 4 | Retain and grow repeat business |
| 5 | Match trends and tactics to maximise the above objectives |

### 4.1.2 Sales Trends

The top trends in the local and international meetings and events sector are as follows:

| | |
|---|---|
| 1 | Clients require more multi-functional venue capabilities and flexibility, as well as enhanced technology and telecommunications (AIPC) |
| 2 | Increasing competition requires greater flexibility with lead times, packages and pricing in order to meet challenging client demands and requirements |
| 3 | The average number of participants per meeting is decreasing (ICCA) |
| 4 | Local and international corporate meetings have the best growth outlook (AIPC) |
| 5 | Regional rotation is a growing trend (ICCA) |
| 6 | Universities are becoming a popular venue choice (ICCA) |
| 7 | The duration of meetings is getting shorter (ICCA) |
| 8 | Due to global economic growth, larger countries enjoy the majority of the market share in trade shows outside of China |
| 9 | Exhibition visitors have shifted their focus from attending exhibitions to online market places |
| 10 | Lead times between the bidding and hosting of events are becoming shorter. In the Middle East Africa region there was less profit shown in 2018 than in 2017 |

UFI Global Exhibitions Barometer 21st Edition

## 4.2 Marketing & Communications

The Marketing and Communications team's focus is to execute external and internal marketing and communication initiatives on behalf of the CTICC. The department supports the Sales team in maintaining relationships with internal and external stakeholders to help facilitate the meeting of objectives as set out in the business plan.

The CTICC's marketing and communications strategy will continue to integrate CTICC 2 into its product offering and narrative, with the key message being that the CTICC complex boasts a variety of flexible options, while promoting the CTICC's own events. The goal is to ensure that CTICC 1 and CTICC 2 are presented as one complex in all communications.

The CTICC will utilise traditional and digital channels, and employ strategic through-the-line marketing and communication tactics to effectively reach objectives within budget, while also offering the best ROI.

Content is repurposed for each platform, producing the best content for the right audience at the right time. This can include infographics, videos, imagery, GIFs, written content or a combination, depending on the platform, budget and ROI.

### 4.2.1 Marketing & Communication Objectives

The CTICC aims to communicate the fact that it offers more than just flexible venue and catering offerings. It is, in fact, a platform for collaboration and knowledge sharing, and the aim is to be known for creating unique and memorable experiences across all event segments. Marketing and communications messaging will focus on these key messages via the 'Experience Extraordinary' promise.

For the 2020/21 financial year, the key marketing and communication objectives are to:

| | |
|---|---|
| 1 | Ensure that the delivery of all marketing and communication action plans contribute measurably to the CTICC's overall business development objectives |
| 2 | Establish viable, business-generating partnerships with selected stakeholders that can leverage the company's marketing programmes and add value to its business development efforts |
| 3 | Demonstrate the successes of the CTICC |
| 4 | Engage effectively with internal and external audiences |
| 5 | Raise the profile of the CTICC among key decision-makers in local and international markets |

### 4.2.2 Marketing & Communication Trends

The CTICC will plan and execute a marketing communications strategy that will position the brand with the following trends in mind:

| | |
|---|---|
| 1 | The convergence of marketing and corporate communication, using an agile marketing approach |
| 2 | An increased focus on customer experience and understanding the buying-behaviour patterns of clients |
| 3 | Thought leadership and opinion pieces as a larger share of PR budgets |
| 4 | The continued shift towards digital content, including increased and immediate video content and quality, such as live video streaming and vox pops |
| 5 | Increased social media marketing, including curating user-generated content and customer reviews |

Sources: forbes.com, bizcommunity.com, walkersands.com

### 4.2.3 Communications Tactics

For the CTICC to bring marketing to life on all platforms, communications have to evolve to ensure audiences on the right platforms receive the right information to make the best possible decision. This includes internal and external communications across traditional and digital media. The department, therefore, aims to create strategic content that will best serve the CTICC's purpose.

To facilitate this, the CTICC has a number of tactics, analytics and improvements to implement for communications as a whole:

#### Digital Alignment & Social Media Focus

- Website optimisation and launch of the e-commerce site.
- Consistent search engine optimisation for the website.
- Social media updated continuously, reviewed and tailored to the audience, trends and best practices.
- Paid social media and search engine marketing (SEM) has been approved.
- Creating interactive content, videos and collateral aligned to brand for relevant platforms.
- Generating multi-platform content with the audience in mind.
- Creating content plans for the interactive website with the intent of building an engaged and thus valuable audience.
- Social media will, while always curated, aim to engage more with users and utilise more user generated content.
- Finalise and implement the CTICC virtual tour on the website.
- Investigate and remain on trend where relevant for social and digital within an ever-evolving medium.
- Utilising UI and UX best practices to inform the customer journey and create a more seamless path to purchase at various touchpoints.

#### Writing

- Communications writing will focus on strategic content for the audience, which will be informed by the relevant platform.
- Writing will align to the brand and bring the purpose to life while living the values of the CTICC.
- Writing tone will differ for internal and external, and be dependent on the platform.
- Communications will generate two press releases and various advertorials on a monthly basis, as required.
- Content is reworked and utilised strategically and where relevant.
- Thought leadership content will be generated for media, web and LinkedIn, to promote and enhance the brand, with the aim of establishing the brand as an industry leader.

#### Branding

- All communications are created to enhance the brand.
- Manage and enhance touchpoints to create the right perception and align to brand while informing the client experience.
- Share communications internally to create a compelling staff brand narrative – the careers section on the website is one element of this.
- Create shared value for people and the business by collaborating with HR on human interest content.
- Write content to create credibility for speaking at relevant events to enhance brand and become a thought leader in the industry.

#### Reporting

- Reporting for social media and website analytics will be updated.
- New social media and PR reporting tools have been introduced. This will be integrated and used to full capacity to generate relevant insights and updates.
- Analytics on paid-for content to be integrated once completed.
- New reports to be compiled in accordance with best practices during the first half of the year.

## 4.3 Revenue Management

The Revenue Management supports the Sales and Marketing & Communications functions by ensuring the CTICC achieves its long-term and short-term business strategies. This is achieved through effective rate management, revenue streams management, business mix strategies, channels and distribution, strategic pricing and benchmarking while adhering to the city's requirements.

For the 2020/21 financial year, the key revenue management objectives are to:

| | |
|---|---|
| 1 | Ensure a clearly defined retention and acquisition strategy is established |
| 2 | Ensure an effective base business strategy is in place with key stakeholders/business partners |
| 3 | Drive revenue streams through effective business mix management and strategic pricing |
| 4 | Establish a clearly defined demand calendar with alignment to Sales and Marketing |
| 5 | Drive an effective and efficient contract management process while ensuring audit and city requirements are met |

**Revenue Management**
supports the Sales and Marketing & Communications departments

CTICC

## SECTION FIVE

# Events Delivery

# EVENTS DELIVERY

Events delivery consists of three areas, all of which ensure the successful planning and management of events that are hosted at the CTICC. They are:

- Events Management
- Operational Support
- Food & Beverage

These three areas combined ensure seamless, profitable and sustainable service delivery across all event segments and activities, providing logistics, ICT, security, parking, and food and beverage services.

## 5.1 Events Management

Event management in the context of the CTICC forms part of the second of a three-phase process flow in which an event is planned, coordinated and executed.

The Event Management team is tasked with contributing to meeting and exceeding budgets, such as those set out for the Food & Beverage and Operations departments. The CTICC strives to deliver service excellence within a 24-hour turnaround time, while building client relations in an effort to promote repeat business.

### 5.1.1 Events Management Objectives

| | |
|---|---|
| 1 | The successful and profitable management of events |
| 2 | Up-selling food and beverage offerings, IT, facilities and branding sites |
| 3 | Constant improvement of client relationship management |
| 4 | Departmental training and development, and cross-departmental training |
| 5 | Monitoring of systems and internal processes to improve efficiencies, turnaround times and client experience |

These objectives are met through a range of tactical implementations.

### 5.1.2 Events Management Trends

| | |
|---|---|
| 1 | Centre-owned events and event partnerships |
| 2 | Increased need for event security |
| 3 | Electronic cashless payment services |
| 4 | Continued focus on sustainability |
| 5 | Higher demand for technology and telecommunications services |

Source: https://helloendless.com/2020-event-trends// and AIPC Customer Survey Report/ and AIPC 2019 Research Report: Event Organizer Trends and Perspectives

### 5.1.3. Conference and Exhibition Services

The Conference and Exhibition Services department is responsible for providing a turnkey solution to all clients by establishing partnerships with key suppliers. These suppliers are able to offer services to all conference and exhibition organisers. Services range from audio visual, electrical connections and plumbing, to safety and security, cleaning and décor services. The Conference and Exhibition Services department is tasked with meeting and exceeding the budgets set for the department. In addition to the revenue component, the department focuses on ensuring all events comply with the by-laws set by the City of Cape Town and the Safety at Sports and Recreational Events Act.

#### Conference and Exhibition Services Objectives

| | |
|---|---|
| 1 | Increase market share for all subcontracted services by ensuring all clients are advised of the company's offerings |
| 2 | Improve relationships with the City of Cape Town's Events Office to ensure all events are timeously issued with the necessary permit documentation |
| 3 | Focus on departmental training for all receptionists and operations services coordinators |
| 4 | Strengthen relationships with all service partners by hosting regular meetings and SLA reviews to ensure that the company delivers world-class events for its clients |
| 5 | Increase awareness and initiatives to provide more sustainable events |

#### Conference and Exhibition Services Trends

| | |
|---|---|
| 1 | Increase in providing food sustainability at events |
| 2 | Provision of creative meeting room design |
| 3 | Increase in experiential meetings |
| 4 | Increase in event technology for a superior delegate experience |

The CTICC continues to maintain its **5-Star Rating**

## 5.2 Operational Support

### 5.2.1 Facilities Management

The CTICC seeks to ensure that the facility is maintained in a pristine, 5-star condition at all times, by continually investing in upgrades and refurbishments that will continue to create memorable customer experiences and position the CTICC as one of the world's leading conference centres.

#### Facilities Management Objectives

| | |
|---|---|
| 1 | Preventative maintenance to uphold the 5-star grading year on year |
| 2 | Continually upgrade and refurbish the facilities |
| 3 | Ensure core services and clients are not impacted by load-shedding or water scarcity |

Sufficient back-up electricity has been catered for, through the installation of additional power generation capacity. SLAs for the supply of emergency diesel will be put in place to ensure adequate provision of diesel at all times. In addition, a reverse osmosis plant has been installed, which can produce up 200 000 litres of potable water in a 24-hour cycle.

The CTICC's world-class facility meets both national and international standards, allowing the business to continue to meet and exceed its objectives and drive a positive client satisfaction rating.

#### Facilities Management Trends

The 2018 trend analysis by the International Facility Management Association (IFMA) shows a shift in workplace strategy. Still, the company's focus will continue to follow the 2017 trend analysis which is the most relevant to its facility.

These focus areas remain as follows:

| | |
|---|---|
| 1 | Sustainability remains important worldwide |
| 2 | Complex building systems and controls offer opportunities and challenges |
| 3 | Older buildings demand a growing focus on 'repair or replace' policies |
| 4 | Disaster preparation is required to ensure business continuity after a disrupting event |
| 5 | Complex information poses challenges but also offers opportunities to improve services |
| 6 | Recruiting top talent is difficult and requires better marketing of the facilities management profession |
| 7 | Facilities that safeguard the health of building occupants are becoming imperative |
| 8 | Special needs and accessibility standards are increasingly covered by local codes and regulations |

Further to this, increasing internal mobility is the single pertinent trend identified in the 2018 analysis that is relevant to the facility and business. This trend will also form part of the CTICC's focus areas.

With the rising use of technology and 'smart working', an increasing number of employees are no longer desk-bound. In the interest of innovation, employees are now equipped to work from home or access 'hot desks' that have been setup in both CTICC buildings, to make the most of its flexible environments and resources. It is this innovative approach that has allowed the business to remain functional, while it continues to support the concept of social distancing during the Covid-19 pandemic and lockdown period.

### 5.2.2 Parking

The CTICC recognises that the parking facility is both the first and last experience that most attendees will have during their visit to the CTICC. As a result, there is a strong focus on service excellence within this environment. Here the team assists clients in event build-up and breakdown logistics planning, as well as ensuring sufficient parking for event attendees, staff and contractors.

**Parking Objectives**

| | |
|---|---|
| 1 | Provide easy access to and from the parking facilities for all event stakeholders |
| 2 | Facilitate and maximise parking availability within the CTICC precinct for as many of its patrons as possible |
| 3 | Enhance parking location and accessibility |

### 5.2.3 Marshalling Yard Logistics

Marshalling Yard management is essential to the smooth build-up and breakdown processes required to meet client timelines. With approvals from the city for the access and egress routes from the off-site Marshalling Yard not yet formally acquired, logistics for the CTICC 2 Marshalling Yard will continue to pose a challenge. To this end, additional build-up and breakdown time will be allocated, incurring unnecessary costs that will potentially continue to negatively impact the traffic flow in the Foreshore.

**Marshalling Yard Objectives**

| | |
|---|---|
| 1 | Ensure compliance with the City Traffic Services' requirements to properly manage the Marshalling Yard and alleviate city congestion |
| 2 | Implement event logistics plans and ensure that these are proactively communicated to include both CTICC 1 and CTICC 2 |
| 3 | Agree build-up and breakdown schedules with clients and stand builders |
| 4 | Provide clear access regulations instructions seven days prior to build-up |
| 5 | Post signage when and where required and as dictated by event needs |

### 5.2.4 ICT

The Information Communication and Technology (ICT) department supports the business both through the provision of service, as well as by generating revenue.

**ICT Objectives**

| | |
|---|---|
| 1 | Harnessing emerging technologies to enhance service offering |
| 2 | Support corporate governance through technical solutions and ensuring legislative ICT requirements are complied with |
| 3 | Modernising the digital infrastructure of the complex |
| 4 | Ensuring availability of services supporting the business and event hosting activities |
| 5 | Continually enhancing the cyber security controls while ensuring service availability |

### 5.2.5 Health & Safety

The safety and security of people, property, patrons and assets at the CTICC is imperative, as is the safe and secure execution of events hosted within the complex. At the same time, the necessary quality, environmental and safety management systems must be maintained at every level so as to retain its ISO Certification and ensure full legislative compliance, as required by the Safety at Sports and Recreational Events Act and Regulations (SASREA).

**Health & Safety Objectives**

| | |
|---|---|
| 1 | To maintain and secure infrastructure that is safe for clients and stakeholders |
| 2 | To obtain a Venue Safety and Risk Grading Certificate |
| 3 | To work in collaboration with CBD stakeholders to improve security measures in the city |
| 4 | To comply with safety and security requirements at events |
| 5 | To provide reassurance and safety for international/national delegates visiting the CTICC |

### 5.2.6 Occupational Health & Safety

There are three components to promoting a safety culture: a healthy environment, emotional well-being, and safety and protection. Trends in this area focus on training and supervision as part of the safety culture. In addition, draft legislation for Ergonomics Regulation was published in 2017 and was promulgated in December 2019. These regulations will provide guidance on how work is conducted and how equipment should be used in the workplace, the impact on employee well-being, and what measures are required to reduce muscular-skeletal injuries or disorders in the workplace.

Workplace safety is assured by the CTICC's ISO standards and will continue to provide a support framework for the management of safety at events for contractors and employees alike.

The CTICC is central to Cape Town and the Foreshore and attracts local and international clients, VIPs, celebrities and dignitaries to events that might pose security and/or cyber-security risks to the centre. The company aims to provide a safe venue and host events without incident.

To this end, the CTICC has engaged and formed close relations with external and supporting law-enforcement agencies such as the SA Police Service (SAPS), Metro Police, City of Cape Town Fire Department, Central City Improvement District (CCID) and City of Cape Town Disaster Risk Management Centre.

The CTICC has a disaster preparedness plan in place that covers eventualities such as fires, viral outbreaks, power- cuts, water shortages, bomb threats, terror attacks or incidents resulting in mass casualties. During this financial year, the CTICC plans to coordinate and conduct training exercises with the stakeholders mentioned.

In light of the Covid-19 pandemic, the CTICC has introduced various safety measures and enhanced cleaning protocols. All bathrooms have been equipped with alcohol-based hand sanitiser, and decontamination spray booths will be installed at entrances. In addition, staff members have undergone extensive training in terms of sanitisation and food safety, and they are encouraged to wear face masks at all times.

**Occupational Health and Safety Objectives**

| | |
|---|---|
| 1 | Ensure full compliance in accordance with legislation governing work and events |
| 2 | Provide continuing education to staff and contractors |
| 3 | Retain a low accident rate |
| 4 | Offer a safe workplace to staff and contractors |
| 5 | Provide staff members thought to be affected by Covid-19 with supplies, dispensation and resources required to self-quarantine |

## 5.3 Food and Beverage

The Food & Beverage department generates about 40% of the CTICC's annual turnover while achieving targeted cost of sales figures. The team plays a vital role in ensuring the delivery of world-class experiences to its clients and visitors. The CTICC has a reputation for creating contemporary food and beverage offerings for a broad range of events, including banquets, cocktails and public catering in exhibition spaces.

The CTICC has two production kitchens and 23 satellite kitchens, making it one of the largest and most sophisticated F&B venues in the Western Cape. This allows for prompt and efficient delivery of meals for more than 3 000 delegates at a time. The team uses the latest cooking technologies and follows the most current culinary trends. The trained culinary team is equipped to prepare and produce any type or style of food requested by clients.

The Food & Beverage department consists of the following divisions: kitchen (culinary), front of house (banqueting and beverage), back of house, and the coffee shops, including the Old Pier Café.

### 5.3.1 Food & Beverage Trends

| | |
|---|---|
| 1 | Experiential dining that is unique, authentic and relevant to the local culture |
| 2 | Convenience: grab-and-go and self-service kiosks |
| 3 | Food safety as the industry is vulnerable to food-borne diseases e.g. avian flu, foot and mouth disease. This includes new safety protocols as affected by Covid-19 – e.g. roll-back of buffet option. |
| 4 | Healthy and ethical lifestyle choices are influencing demand for, for example, low or no carbohydrate meals; use of plant-based/vegan-suitable ingredients; use of natural, organic or gut-friendly (digestive wellness) food, low-sugar, low-alcohol or no-alcohol beverages; alternative dairy; mood enhancing food; the role food plays in reducing the risk of disease and promoting good health; and delicious and healthy desserts without the excessive use of dough, cream, sugar, etc. |
| 5 | Using locally sourced meat and seafood, food grown in-house and sustainably sourced and produced products, e.g. fairtrade |
| 6 | Packaging that is more environmentally sustainable/plastic free |
| 7 | Botanical beverages, e.g. craft gins, flavoured coffees and teas |
| 8 | Use of food technology, e.g. digitisation, apps for ordering food and robotics |
| 9 | Food-waste reduction through zero-waste cooking |
| 10 | Cannabis/hemp-infused food and beverage offerings |
| 11 | Wood-fire cooking |

### 5.3.2 Objectives

| | |
|---|---|
| 1 | Produce exceptional quality food and beverage offerings in line with international trends and the highest standards |
| 2 | Maintain the ISO 22 000 Food Safety Management Standard |
| 3 | Regular competitor analysis to ensure an understanding of the strengths and weaknesses of the CTICC food offering against competitors. This will facilitate the formulation of strategies to provide the CTICC with a distinct food and beverage advantage over its competitors |
| 4 | Maintain event-based costing |
| 5 | Expand the cashless system for all public-catering operations |
| 6 | Continuous training of staff to ensure that the company provides the highest standard of service |
| 7 | Enter competitions for chefs, bar staff and baristas |
| 8 | Partner with local celebrity chefs, baristas and mixologists for coffee shops and roof top venue |
| 9 | Leverage the newly opened Mountain View Roof Terrace |

CTICC

# SECTION SIX

# Sustainability

NURTURE OUR WORLD

we are a green conscious convention centre

# SUSTAINABILITY

Sustainability is everyone's responsibility and, to this end, the CTICC has a clear Corporate Social Responsibility (CSR) strategy. The Commercial team is responsible for the CSR component, while the Operations team takes care of the environmental component of the CTICC's sustainability strategy. The company's mission statement includes the goal of becoming a world leader in sustainability initiatives and sustainability is, therefore, central to every operation, every decision and every event.

While each department has a responsibility to ensure that they 'think sustainability' at all times, it is the mandate of the Nurture Our World (NOW) team to ensure that practical objectives for a sustainable outcome are properly planned and achieved.

The CTICC's NOW concept was launched in 2009 and remains the sustainability icon that drives the CTICC's sustainable practices. NOW is the collective initiative that supports other subsidiary initiatives such as Manco and ISO Certification (ISO 9001 Quality Management, ISO 14001 Environmental Management and OHSAS 18001 BS Occupational Health and Safety Management).

## 6.1 Sustainability Objectives

| | |
|---|---|
| 1 | To track all sustainability activities and ensure they have a significant impact (financial and non-financial) on the organisation before contributing to the achievement of its vision and objectives |
| 2 | To promote sustainable events through early assessment of the construction and waste that will be derived, and identify CSR donations and opportunities for Local Community Partners (LCPs) attendance to events that would benefit LCPs |
| 3 | To measurably build the CTICC brand as a world leader in sustainability while leveraging sustainability as a key compelling selling point for the CTICC |
| 4 | To refine the CSR strategy in order to maximise the impact of targeted investments in support of Local Community Partners and other non-profit organisations, including upcycling initiatives and education events |

These objectives seek to meet the needs of two core strands of the CTICC' sustainability strategy, namely social sustainability and environmental sustainability.

NURTURE OUR WORLD
we are a green conscious convention centre

**The CTICC NOW** concept was launched in 2009 and remains the sustainability icon that drives the CTICC's triple bottom line

### 6.1.1 Social sustainability

Given that the City of Cape Town is the CTICC's majority shareholder, the centre is truly owned by the people for the people. As such, it is vital that the CTICC focuses on maximising its contribution to GDP, GGP and job creation. Its contribution to social capital is, therefore, an important CSR measure – one supported by a comprehensive CSR strategy, which lists various focus areas for the CTICC's community support. This extends beyond financial support and includes skills development, education and overall community upliftment.

Core to this is the CTICC's partnership with its five identified Local Community Partners. These selected partners receive support from the CTICC for a three-year cycle after which new nominations are called for.

**The current selected partners are:**

- Abalimi Bhezekhaya
- Mothers Unite
- Journey of Enrichment
- FARR Foundation for Alcohol Related Research
- Ikhaya le Themba Community of Hope

In addition to the above, the CTICC's social commitment extends to organisations and outreach initiatives beyond the five Local Community Partners. Its commitment to the betterment of communities was served through several initiatives that took place in 2018/19. These included, but were not limited to, a youth day programme; celebration of seniors with Neighbourhood Old Age Home elders on International Day of Older Persons; providing care packages to the homeless on World Homeless Day; celebrating the legacy of former South African President, Nelson Mandela, on Mandela Day, by donating food parcels; and highlighting water awareness during National Water Week, to name but a few.

Based on international trends in sustainability, as well as the CTICC's own experience, an approach to social sustainability that is narrower and deeper (as opposed to broad and shallow) is most effective and delivers lasting impact. As such, the needs analysis of the community partners will pay close attention to the 'deep' support that may be required. This may include skills exchange, ongoing mentorship, monitoring and evaluation, and other contributions.

### 6.1.2 Environmental Sustainability

The CTICC has made great strides in environmental sustainability in recent years, and this success has become one of the CTICC's unique selling points. The CTICC continually improves its energy and water efficiency, as well as providing adequate services for safe disposal and, where possible, the recycling of its waste. It has also made a concerted effort to raise awareness among staff to reduce its carbon footprint.

#### Water

- The CTICC has been reducing its water consumption through its environmental sustainability practices for several years. Over the last seven years, the centre has reduced its consumption by an average of 10.7 million litres per year when compared to the baseline year of 2011/2012. Going forward, the CTICC intends to:
- Continue to focus on water resilience plans to reduce dependence on the municipal supply.
- Source water for cooking and food preparation from non-municipal sources. A reverse osmosis plant has been installed, which is able to produce 200 000 litres of drinking water in a 24-hour cycle obtained from ground water.
- 400 000 litres of additional storage capacity for the purified water from its Reverse Osmosis Plant has also been added.
- An additional 265 000 litres of water is captured in rainwater storage tanks.

#### Electricity

The CTICC's electricity consumption demonstrated an increase of 732 102 kWh, which equated to an average increase of 6% in electricity consumption in the 2018/19 year. As outlined in our five-year strategy, we are investigating more sustainable electricity generation options, including photovoltaic solar PV panels and water heating by means of heat pumps.

Our commitment going forward is to reduce our electricity consumption by 1% year on year in terms of kWh.

#### Waste

The CTICC further reinforces its environmental commitment by remaining vigilant about waste reduction in general and minimising waste being sent to landfill sites in particular.

Our recycling begins with a rigorous policy of eco-procurement, working primarily with suppliers who offer reusable and recyclable products.

The CTICC will continue its efforts, as it has in prior years, to reduce waste to landfill.

### 6.1.3 ISO Certification

In September 2018 the CTICC underwent an Integrated Management Systems Audit for:

**ISO 9001: 2015, ISO 14001: 2015 and OHSAS 18001: 2007 (BS)**

The CTICC achieved full recertification from the South African Bureau of Standards (SABS) for all three standards, and certificates were issued to reflect this. These certifications have been awarded for a period of three years and will need to be renewed in September 2021. Over and above this, the CTICC was also audited and achieved full certification for ISO 22000, which superseded its previous SANS 10330:2007 HACCP certification and will be renewed in October 2021.

The CTICC constantly strives to improve its service delivery and product offering, and it is to this end that it will focus on the following:

| | |
|---|---|
| 1 | Drive ISO standards as part of the embedded CTICC work-life culture |
| 2 | Maintain ISO certification |
| 3 | Prepare to integrate ISO 9001, 14001 and OHSAS 18001 into ISO 45001 by 2021 |
| 4 | Maintain ISO 22000 (Food Safety) certification |

**THE CTICC**
achieved full recertification from the South African Bureau of Standards (SABS)

CTICC

# SECTION SEVEN

# Governance

# GOVERNANCE

The company's Board of Directors ('the Board') subscribes to the principles set out in The King Report on Corporate Governance for South Africa 2016 ('King IV ™'). The Board places a strong emphasis on maintaining high standards of financial management, accounting and reporting to ensure that the company's affairs are managed in an ethical, transparent and responsible manner, while also taking into consideration appropriate risk parameters.

The company has an experienced and stable Board of Directors, which directs, governs and remains in effective control of its business. The Board is ultimately responsible for determining the strategic direction of the company through the establishment of strategic objectives and policies. Board meetings are held at least quarterly to review the company's performance against budgeted targets, and more frequently if necessary.

## The Company Secretariat

The core focus of the Company Secretariat is the effective administration of Board and Shareholder matters and to ensure that procedures and structures are in place to promote good corporate governance by the company.

The Company Secretariat strives to ensure that the company has a balanced and representative Board of Directors, which is properly informed and equipped to make the right decisions in the best interests of the CTICC within the constraints of the legal framework within which it operates.

It is important that Board members are aware of their duties and responsibilities as directors in terms of the applicable legislation and Good Corporate Governance Principles in general. New Board members must therefore receive a thorough induction as soon as possible to enable them to add value to the company.

It is also important that Board members and shareholders respectively receive comprehensive reports to enable them to make informed decisions regarding the company.

## 7.1 Supply Chain Management

The core function of the Supply Chain Management (SCM) unit is to ensure that the correct products and services are procured to meet client needs in a manner that is cost-effective and in line with prevailing legislation. SCM plays a pivotal role, working in tandem with the business units, to ensure proper planning, market analysis and development of the correct specifications for goods and services.

### 7.1.1 Supply Chain Management Objectives

| | |
|---|---|
| 1 | To ensure legislative compliance, including MFMA, PPPFA, SCM regulations |
| 2 | To implement detailed demand management and strategic sourcing |
| 3 | To institute effective cost-saving mechanisms to improve profitability, without compromising service standards |
| 4 | To maximise enterprise supplier development and empowerment, and align this to the CTICC's BBBEE strategy/target |
| 5 | To ensure that SCM forms an integral part of the financial-management system and the CTICC's digital strategy |
| 6 | To align the company with industry trends and ensure that CTICC adheres to international best practices |
| 7 | To encourage sustainable procurement |
| 8 | To have no material findings in SCM which impacts achieving an unqualified audit |

| | |
|---|---|
| Principle Six | Businesses should uphold the elimination of discrimination in respect of employment and occupation |
| Principle Eight | Businesses should undertake initiatives to promote greater environmental responsibility |
| Principle Ten | Businesses should work against corruption in all its forms, including extortion and bribery |

United Nations Global Compact

## 7.2 UNGC Principles

| | |
|---|---|
| Principle One | Businesses should support and respect the protection of internationally proclaimed human rights |
| Principle Two | Businesses should make sure they are not complicit in human rights abuses |
| Principle Three | Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining |
| Principle Four | Businesses should uphold the elimination of all forms of forced and compulsory labour |
| Principle Five | Businesses should uphold the effective abolition of child labour |
| Principle Seven | Businesses should support a precautionary approach to environmental challenges |
| Principle Nine | Businesses should encourage the development and diffusion of environmentally friendly technologies |

The CTICC continues to follow the United Nations Global Compact's (UNGC) principles as part of its leadership strategy. It is divided into four groups: human rights, fair and equal labour principles, embedded environmental principles and anti-corruption. In addition, this helps position the CTICC as a love-brand based on its ability to show care for and commitment to the communities in which it operates.

CTICC

# SECTION EIGHT

# Human Resources

# HUMAN RESOURCES

Human Resources (HR) department is transitioning from a service delivery model to a business partnering model. HR will partner with the business in the formation of strategy, the design of the organisation, and the implementation of the business model. The goal of HR is to drive and support the workforce through development, recruitment and retention. The CTICC believes that growing its people contributes to growing the organisation.

The CTICC's corporate value of Integrity clearly states its expectations of employee behaviour. The CTICC is transparent in all its actions, and expects ethical behaviour in every single area of business. Adherence to the UN's Global Compact further demonstrates a commitment to fair labour practices as well as ethical conduct in terms of the centre's contractual obligations with business partners and clients.

Human capital development and providing graduate training opportunities are key HR KPIs for the CTICC. Graduates from the hospitality sector are placed throughout the business to gain valuable work experience. Over and above standard training courses, permanent staff are selected to participate in international knowledge exchange programmes, summits and professional development programmes. These initiatives provide a targeted, industry-specific form of training and development, as well as opportunities to establish the kind of industry networks that facilitate future professional growth.

The **CTICC** believes that growing its people contributes to growing the organisation

## 8.1 HR Objectives

| | |
|---|---|
| 1 | To ensure that the CTICC remains an employer of choice |
| 2 | To develop employees in order to create an environment that recognises hard work and talent |
| 3 | To identify and improve the cost and efficiency of HR service delivery (e.g. cost of hiring) as well as the time taken to provide the services (e.g. time taken to fill vacancies) |
| 4 | To recruit and retain a diverse workforce to meet the needs of the organisation |

## 8.2 HR Trends

| | |
|---|---|
| 1 | Employee experience: create a great employee experience similar to the emphasis on customer experience. An exceptional employee experience is required if employees are to provide the best possible customer experience |
| 2 | Employee health and wellness: create a higher level of employee health and wellness, not only regarding physical health, but also emotional, mental and financial wellness |
| 3 | Learning and development: the speed and complexity of change requires a competent workforce, thus, more proactive and dynamic approaches to learning and development are imperative. Learning should be more focused and just-in-time to set employees up to deliver their best |
| 4 | Engaging employees in order to build their commitment to the organisation |
| 5 | Creating an environment and brand that attracts through its success |

Working with the above trends will lead to the onboarding and retention of passionate employees.

CTICC

## SECTION NINE

# Financial Projections

# FINANCIAL PROJECTIONS

The operational plans that give effect to the strategy and which are factored into the budgets have taken into account growth in primary and secondary revenue streams, as well as the continuous drive to save costs. The business needs in respect of capital expenditure, which is also funded from CTICC reserves, have been budgeted at R59.8 million for the year. The capital expenditure is for new and existing assets, which will contribute to the CTICC remaining a world-class facility.

The 2020/21 budget process followed a similar approach to that used in previous years, but taking into account the significant impact that the Covid-19 pandemic will have on the future of the business. The budget takes into account the current market conditions, such as the lockdown, inflation, historical trend analysis, as well as the proposed city budget guidelines. Zero-based budgeting was used, where all expenses were justified and analysed for the centre's needs and cost.

The budgeted 2020/21 operating profit before interest tax depreciation and amortisation (EBITDA) for the company is projected to be a loss of R50.0 million for the year.

The 2020/21 budget includes the potential revenue, and cost recovery that the company will earn from the contracts concluded with the WCPG during the lockdown period, as well as the commencement of operations in some form or other from January 2021.

Due to the nature of the business and the increase in short-term bookings, the company has always included a portion of 'unknown' revenue for the unknown or short-term business. As venue rental income is the primary source of revenue, the other revenue stream budgets are prepared with these same assumptions.

Gross margins are budgeted to be maintained at about 80%. Indirect costs have been budgeted to increase at 7.8% in total, mainly as a result of an increase in payroll, utilities, maintenance, marketing and IT costs. The budget for 2020/21 reflects a R70.9-million net loss after tax for the year.

The following table shows the 2018/19 actual amounts as well as the 2019/20's original and adjusted budgets, and the projected budget for the 2020/21 financial year.

Table 5:

# ANNEXURE 32

# CAPE TOWN INTERNATIONAL CONVENTION CENTRE (MUNICIPAL ENTITY) – TARIFFS

**Pricing Strategy 2020/2021 FY**

The Cape Town International Convention Centre Company SOC Limited (RF) (CTICC) is a financially sustainable municipal entity that attracts and retains events.

The CTICC receives no operational funding from its shareholders including the City of Cape Town (CoCT). As such, the CTICC must ensure that the costs of operating and maintaining both CTICC 1 and 2 are effectively managed and that sufficient revenue is earned through the hosting of events to cover any, and all, operational and maintenance costs and ensure that the CTICC retains its 5-star grading status.

In order to do this and to remain competitive in an ever-evolving and competitive market, the CTICC has a clear pricing strategy, which is reviewed on an annual basis.

In terms of this strategy, the CTICC's adopts two forms of pricing namely Premium Pricing as we believe our product offers value and memorable experiences to our clients, as well as Bundled Pricing, which is focused on package rates which are more suitable to the local and corporate market.

**Validity of Rates**

Package rates are made available for the calendar year (Jan-Dec) with an anticipated CPI related increase.

Rates are determined taking the following factors into consideration:

- CPI rate at the time of finalising its pricing,
- Competitor rates including local, national and international markets,
- Foreign currency fluctuations,
- Food costs (inflationary and fuel costs),
- Labour legislation and in particular sectoral determinations.

Conference package rates have increased by 4.3% (July – December 2020) and 5.8% (Jan – June 2021), based on market dynamics and demand.

The below rates are published on our website in the client manuals:

**Day Conference Package Rates for 2020 Calendar Year**

| Package | 2020 (July - Dec 2020) Excluding VAT | 2021 (Jan – June 2021) |
|---|---|---|
| Full English Breakfast | R 304,35 | R 334,79 |
| Half Day Conference | R 513,04 | R 547,82 |
| Full Day Conference – Meeting rooms | R 573,91 | R 604,35 |
| Full Day Conference – Ballroom and Auditoria | R 643,48 | R 691,30 |

**Event Numbers**

Our event number targets for the 2020/21 FY is 35 for International Conferences and 555 for the total number of events.

The CTICC strives to reach the event numbers target by actively launching promotions and campaigns to increase business from the local corporate and association market as well as business from local communities and organisations.

These campaigns are designed to increase the venue rental budget, but more importantly, are aimed attracting events in key economic sectors and addressing occupancy levels in low seasons.

**Optimal Yielding Policy**

The CTICC has developed an Optimal Yielding Policy aimed at attracting and retaining clients in key economic sectors that support the CoCT's IDP. Discounts are offered in line with the delegated authorities approved by the Board.

## 1. Executive summary

Due to the impact which COVID 19 will have on the tabled 2020/21 budgets, National Treasury advised that they will have no objection if a municipality /municipal entity is of the opinion that it will have to re-do their entire 2020/21 budget, given that these budgets were prepared prior to the declaration of the national disaster and subsequent nationwide lockdown. In light of the recent changes due to COVID19 it would be prudent for Cape Town Stadium to revise its 2020/21 budget. As there are many uncertainties and unknowns at the moment, the revised budget 2020/21 is based on the limited available information at the time of preparation of the revised budget 2020/21. The recent announcement on 23 April 2020 by government is that sporting events, gatherings, concerts etc. will be prohibited in the foreseeable future hence impacting the budgeted revenue of the Cape Town Stadium for the 2020/21 financial year. The state of the national economy is in disarray with a clear indication that the economy is shrinking. This will have a direct impact on fewer spectator attendances at events and a less than average spend per spectator. Furthermore, there will also be an impact on the sale of hospitality tickets and the business as a whole specifically non-bowl events and film shoots in particular.

In terms of the Key Performance Indicators as agreed upon between the City and the entity, the grant allocation which the CTS receive from the City is budgeted to decrease by more than the initial 6% for 2020/21 financial year.

## 2. Annual Budget tables

The basis of measurement and accounting policies in preparation of the budget has been consistent with prior years. Refer to part two section 4, overview of budget-related policies.

## PART TWO – SUPPORTING DOCUMENTATION

### 1. Overview of budget process

The 2020/21budget process has taken into account the 2018/19 financial year of the operations of the CTS, as well as the current market conditions specifically the impact the COVID-19 pandemic will have on the future operations of the entity, inflation, historical trend analysis and the proposed City budget guidelines.

### 2. Strategic alignment with the City of Cape Town's ('COCT') Integrated Development Plan (IDP)

The CTS is committed to ensuring its activities align but also support the City of Cape Town's IDP. As a municipal entity, CTS is required to submit, along with the annual budget, a multi-year business plan that sets key financial and non-financial performance objectives and measurement criteria. The CTS's mandate of achieving financial sustainability through maximum leveraging of all commercial opportunities, as well as contributing to the local economy through job creation, promotion of entrepreneurial endeavour and increase event tourism, economic growth, job creation and maintaining the asset, remains at the core of what the CTS does.

Annexure A illustrates the alignment between the CTS and the City of Cape Town. In addition to aligning with the City of Cape Town's IDP, the CTS's business strategy is also geared at contributing to the growth in the key economic sectors identified by both the City of Cape Town and the Western Cape Government as strategic areas for job creation and economic growth. Strategic economic sectors include:

- Finance
- Information Communication Technology (ICT)
- Retail
- The green economy including renewable energy
- Tourism and events

The COCT's Integrated Development Plan focus area's as compared to the CTS's business objectives is attached here under.

## 3. Key performance indicators 2020/21

The attainment of the key performance indicators targets as reflected in the Service Delivery Budget Implementation Plan ('SDBIP') is crucial for the successful operations of the entity. In addition, the performance management system prevalent is measured by the City of Cape Town against a set of key performance indicators (KPI's). These are reviewed annually by the shareholder. Annexure B reflects the CTS's SDBIP and targets for 2020/21.

## 4. Overview of budget related policies

The budget policies effective at the time of the budget preparation are as follows:

4.1 All City related HR policies
4.2 Business Travel and Subsistence Policy
4.3 Supply Chain Management Policy
4.4 Director and Audit Committee Remuneration Policy
4.5 Code of Ethics
4.6 Entertainment Policy
4.7 Health & Safety Policy & SOP
4.8 Suite Policy
4.9 Procedures for Accepting and Receipt of Gifts Policy

These policies are available for inspection upon request.

## 5. Overview of budget assumptions

### *5.1 Revenue*

**Rental of Facilities and Equipment:**

Rental of fixed assets in 2020/21 have been budgeted at R21.4 million as no events will take place from July – November 2020. It is envisaged that rugby sevens will take place in December 2020 until such time as the South African Rugby Union (SARU) advises otherwise. Income to be realised from the proposed new financial model with Western Province Rugby Federation (WPRF) from February 2021 have also been included in the 2020/21 budget. Included in the budget is also R2.4 million which will be received from naming rights.

**Transfers and Subsidies (Grants)**

As per key performance indicators agreed upon between the City and the entity, the annual grant which the CTS receive from the City is budgeted to decrease by more than the initial 6% for 2020/21 financial year.

**Other Revenue**

Other revenue have been budgeted at R6 million for the period January – June 2021 which comprises of income generated through stadium tours, income received from the sale of tickets for the utilisation of the suites in the business lounge, the contribution received from WPRF for city services and food and beverage income from public sales for rugby matches from February – June 2021 as well as services in kind.

## *5.2 Expenditure*

**Remuneration of Board Members**

The budget is based on 6 board members and the outer years have been budgeted with annual inflationary increases of 6%.

**Other materials**

Other materials comprise of fuel, printing and stationary and other material related costs. An estimate amount has thus been included in the 2020/21 budget and adjusted with inflationary related increases of 4.5%.

**Contracted Services**

Contracted services consist of consultants and professional services, contractors cost as well as outsourced services. The 2020/21 budget has been increased with only 4% compared to the 2019/20 budget due to the reasons as outlined above.

**Other Expenditure**

Other expenditure has been budgeted to increase by 9.88% compared to the 2019/20 budget due to the reasons as outlined above.

## 6. Overview of budget funding

The CTS is the beneficiary of a municipal grant allocation to cover operational expenditure in terms of the Budgeted Medium Term Revenue and Expenditure framework.

## 7. Board member allowances and employee benefits

The board members do not receive any allowances and are only paid a director's fee for their attendance at board and committee meetings. The director's fees are also determined by the City in terms of national guidelines issued by National Treasury. The directors' fees are as follows:

| Detail | Members |
|---|---|
| Board and Committee meetings: 2020/21<br><br>Committee include:<br>Audit and Risk Committee<br>HR, Social and Ethics Committee<br>Events strategy and Marketing Committee | **R 424 400** |

## 8. Contracts having future budgetary implications

The Cape Town Stadium does not have any contracts which will impose financial obligations on the municipal entity beyond the three years covered in the annual budget.

## 9. Legislation compliance status

The legislative checklist is done on an annual basis and there are no areas of non-compliance.

## 10. Other supporting documents

None

# Annexure A

## Alignment between the City and the CT Stadium

| | |
|---|---|
| **1. Opportunity City:**<br><br>Leveraging the City's assets | Cape Town Stadium strives to position Cape Town as a forward looking and globally competitive City through:<br>• Maximum leveraging of commercial opportunities<br>• Contributing to local economy by hosting of major events.<br>• Improved business conversation short, medium and long term.<br>• Developing partnership<br>• Seamless and successful delivering of events.<br>• Implementation, promotion and enhancements of the repositioning of the CTS Corporate brand. |
| Training skills development: | • Attract, retain, motivate and develop a high calibre cohesive component and strive to become a highly sought employer |
| Infrastructure, development & sustainability: | • An approved and scheduled facility operational programme to support the planned life cycle of the CTS |
| Health and Safety: | • Ensure clients and staff needs are addressed through the provision of a menu of services , from cleaning to safety and security and other BBBEE suppliers |
| **2. Inclusive City:** | • The CTS will strive to contribute to transformation and inclusivity in appointment of staff and BBBEE suppliers |
| **3. Well – run City** | • The CTS contributes to a well-run city through compliance with the MFMA and the required legislation as well as through development and subsequently compliance of various policies such as the risk management policy, code of ethics, travel and subsistence policy and HR related policies. |

CAPE TOWN STADIUM

# 1 EXECUTIVE SUMMARY

# 1 EXECUTIVE SUMMARY

## 1.1 INTRODUCTION

The 2019/2020 financial year has been an eventful and rewarding year for the Cape Town Stadium ("CTS") and the City of Cape Town owned Municipal Entity ("ME") which governs and manages the stadium on the City's behalf. As projected in the previous CTS business planning cycle, CTS has taken major strides in developing and implementing its organisational, administrative, commercial, financial and facility management operations.

Cape Town Stadium (RF) SOC Limited has successfully completed its first full annual financial cycle. The Board and Management of CTS are pleased to report that during this financial year, the stadium has achieved (and in some instances exceeded) its projected performance and budgeted financial targets, but has also successfully concluded its organisational re-structure following the establishment and commencement of the business operations of the ME.

The Cape Town Stadium has achieved an unqualified audit report with no findings, i.e. clean audit in respect of the first full financial year.

This included the finalisation and implementation of the legislatively required Service Delivery Agreement ("SDA") with the City in respect of its governance and management of the CTS.

In short, CTS has now been enabled to effectively execute on its contractual mandate to the City for the ultimate benefit of the City ratepayers.

In pursuit of its Board approved commercialisation strategy, which has been the primary operational focus point of CTS during its current business cycle, CTS has fine-tuned its commercial strategy and business plan. This has included the identification and the commencement of the implementation of all possible commercial revenue streams, particularly those which have been enhanced by the securing of a major local and international Rugby Union franchise, Western Province Rugby ("WPR") as a premium anchor tenant at CTS.

In this regard a Binding Heads of Agreement has been signed between all parties and it is envisaged that WPR will be playing their first professional matches at the CTS in early 2021. Critically, CTS has also finalised and is in the process of implementing its commercial delivery model which encompasses both outsourced and in-house elements. Tender processes in respect of seven key stadium commercial revenue streams are well advanced and although commercial tenders are to be awarded by July 2020, income will only be earned from early 2021 due to the fact that there are no events for the period of July- December 2020 as a result of the COVID-19 pandemic.

A critical commercial revenue generator is the Naming Rights to CTS. This initiative has advanced as there are current discussions underway in securing a naming rights partner. Three naming rights partners have expressed genuine interest and CTS is looking forward to the appointment of a suitable partner.

Further to the Entity's drive towards achieving full commercial capitalisation of the stadium, appropriate focused targets have been set as per its Service Delivery Budget Implementation Plan ("SDBIP") (Annexure B). This has been agreed with the City, in order to achieve its stated commercial objective.

The following CTS Board committees and sub-committees have been fully constitutionalized via the development and approval of Terms of Reference for the following committee and sub-committees:

- Audit and Risk Committee
- Human Resource, Social & Ethics Sub-committee
- Events, Marketing & Communication Sub-committee.

These committees have been effectively and diligently fulfilling their respective oversight roles. Significant strides have also been made on the Corporate governance front. The current Internal Company Secretarial function is scheduled to make way for an independent, experienced outsourced company secretarial service provider.

Recognising that its human capital is a strategic and valuable asset to the success of the organisation, CTS maintains a key focus on the retention and development of its valuable staff complement and the filling of key operational vacancies.

In short, CTS is now entering into its commercial and financial sustainability phase of its business cycle which is ultimately aimed at transforming the CTS into a financially sustainable asset. A 4-year business plan is approved by the CTS Board.

## 1.2 LEGISLATIVE COMPLIANCE & POLICY FRAMEWORK

A final SDA between CTS and the City was signed on 15 November 2018. The business plans and SDBIP (Annexure B) targets and scorecards of CTS have been developed to ensure focused implementation and execution of its legislative and contractual mandates, obligations and responsibilities.

Relevant policies were internally developed by CTS to ensure compliance with these legislative responsibilities. These policies were reviewed during 2019/20 and a number of new policies were drafted and approved by the Board. These are dealt with later in the report.

## 1.3 FINANCIAL SUSTAINABILITY

As part of its drive towards financial sustainability and having recognised the fact that the number of well attended events is the major driver of all commercial income streams, CTS is focusing on the following targeted operational areas:

1.3.1 Activation of all potential income streams.
1.3.2 Focusing its marketing initiatives towards increasing the number of events at CTS (including, but not limited to, bowl, non-bowl, conferencing & banqueting, film shoots and product launch events).
1.3.3 Optimising utilisation of budget and realising savings where possible and appropriate.

Following the organisational restructure of CTS and in order to manage and drive this commercial revenue enhancement process, a new position of Manager: Commercialisation has been created. The Commercialisation Manager will be supported by two Commercial Account Managers who will report directly to the incumbent.
The appointment of the CTS Commercial Manager, a local experienced major stadium event delivery executive, is imminent.

## 1.4 CTS COMMERCIALISATION MODEL

Three potential commercialisation models were presented to the CTS Board for consideration and approval:

- Fully insourced model
- Fully outsourced model
- Partially outsourced model

Each potential model was presented in detail including all of the relevant pro's and con's associated with implementation.

The Board approved the implementation of the recommended partially outsourced model which, in essence, entails that the majority of commercial opportunities be outsourced to specialists during year 1 – 4 with the intention of insourcing these opportunities, following skills transfer, from years 5 – 6.

The outsourced commercial opportunities include the commercialisation of inter alia, naming rights, advertising rights, pouring rights, liquor distribution, hospitality, food and beverage and concessionaires. Critically, CTS will, during this initial period, retain control over all commercial revenue elements deemed to be of strategic importance, i.e. event scheduling, financial modelling, over-arching commercial strategy, allocation and use of stadium assets, management and quality control of outsourced services.

In pursuance of its commercial property initiatives, CTS has entered into a lease agreement with the City which now allows it to sublet all available office and retail space in the stadium.
As stated above, and as a component of the partially outsourced commercial strategy, the securing of a naming rights partner for the stadium, following a competitive tender process, was outsourced to an experienced local service provider.

## 1.5 EVENTS

The stadium has maintained its position as a multi-functional facility and has hosted a total of 105 multi - category events, during the 2019 financial year, which have been broken down as follows:

- 37 bowl events;
- 52 non-bowl events;
- 16 film shoots.

As part of the organisational restructure, the Events Department was recently merged with the Operations Department and is now known as the Operations and Events Department. This allows for a more optimised and customer-centric approach i.e. existing and potential clients and customers of CTS now have one point of entry and a much faster turnaround time in connection with event scoping, costing, and planning.

CTS has concluded a number of multi-year bowl event deals with, inter alia, major international concert promoters, World Rugby™, major Premier Soccer League (“PSL”) clubs and the South African Rugby Union (“SARU”). The stadium is also a regular annual host to the business-end knockout stages of PSL major events.

The stadium is currently the host of the SA leg of the World Rugby Sevens Series and again, during 2019, received the accolade of the best event of the World Sevens™ Series.

CTS is also proud to have recently secured both a Springbok Test and a Provincial match against Western Province during the 2021 British and Irish Lions Tour to SA. Reference is also made to the recent announcement that CTS will be the proud host of the Rugby Sevens World Cup™ in 2023. In short, it remains a strategic priority of CTS to ensure the optimal use of the City’s major stadium asset through, amongst others, the creation of event use opportunities for both professional and non-professional (community/cultural) organisations and the professional delivery of its obligations to its valued international and local event organiser clients.

## 1.6 MARKETING - "CTS - SO MUCH MORE THAN JUST A STADIUM"

"So much more than just a Stadium" is more than just a glib marketing slogan for CTS. It is a message which been integrated into its daily business practices and is, inter alia, a core feature of our communication and PR strategy.

The Department previously known as Commercialisation, Brand and Marketing has, as part of the recent CTS organisational restructuring process, been constituted into a stand-alone Marketing, Brand and Events Acquisition Department.

This new department is focusing its efforts on managing the CTS's key marketing and brand components as well as procuring and designing new events for the stadium. The integrated Niche Marketing, Public Relations ("PR") and Communication strategy was developed and is in the process of being implemented. This included the development and maintenance of a stand-alone CTS website and an Instagram account. Launching of a LinkedIn account for CTS is imminent.

CTS recognises that it is mission critical that the implementation of the above strategy must play a significant role in the elevation of the stadium profile and brand awareness.

An events acquisition strategy will also be developed and finalised within this period.

## 1.7 ORGANISATIONAL DESIGN & ALIGNMENT WITH BUSINESS GOALS

The new organisational design was approved by the CTS Board and the filling of all the positions as per the phased approval programme will be concluded within the latter part of 2019/20 financial year.

The revised organisational structure is set out in Annexure A.

## 1.8 HUMAN CAPITAL DEVELOPMENT

As a progressive organisation which prides itself in the well-being and development of its human capital, CTS is acutely aware that continuous training of its valued staff is essential to the successful delivery of its mandate.

The management of major stadia is a specialist, complex and dynamic area which requires consistent growth of its staff, both as individuals and as a key component of the organisation. To achieve this, targeted training interventions as well team and organisational effectiveness assessments (and interventions where applicable) will be affected by CTS during the period of this business plan.

Management will ensure that it spends 100% of its allocated budgets towards the attainment of this goal.

## 1.9 OPERATIONS AND EVENTS

The new Operations and Events Department has been established. The primary mandate of this new department is asset preservation, facility maintenance and logistical /event readiness and co-ordination.

A Maintenance Strategy and Plan has been implemented and is being diligently monitored to ensure the longevity of this asset. The regular compliments received in this regard from national and international users of the stadium bears testimony to the success of this programme. This Strategy remains in place and will be continually monitored.

This Department also serves as the entry point for event clients and the movement of the events section into this sphere of operations has proven to be effective both from an integration as well as a client service point of view.

**Additional Hospitality Suites**

In line with international research and benchmarking of commercially successful international stadiums, CTS has embarked on the expansion of its in-stadium hospitality offering. This involves the design and construction of additional suites at CTS. The Operations and Events Department will be responsible for the managing and oversight of this strategic capital project.

The project increases the number of suites by 162, which will bring the total suites available at the CTS to 230. This project commences during February 2020 and is scheduled to be completed in February 2021.

**SASREA COMPLIANCE**

CTS has applied for and has again received its Existing Stadium Safety and High-Risk Grading Certificate as contemplated in Section 8 of the Safety at Sports & Recreational Events Act, 2010. The CTS is the only sport & recreational facility in the Western Cape Province categorised to host high risk events.

The Operations and events Department is currently in the process of applying for the SASREA required Section 10 stadium Alteration/Extension Safety Certificate in respect of its imminent additional suite capital project referred to in more detail later in this report.

**AN ENVIRONMENTALLY SUSTAINABLE STADIUM**

CTS is currently and will continue to implement a number of initiatives in order to maximise the environmental sustainability of the asset and to comply with existing City, Provincial and National requirements and local environmental challenges.

These initiatives include, but are not limited to, the following implemented initiatives:

- Water conservation;
- Pitch Fertilisation;
- Energy efficiency including “intelligent” LED Lighting systems;
- Waste management and cleaning.

The Operations and Events Department will shortly be developing an Event Environmental Sustainability Guide, aligned with ISO 20121. This Guide will be issued to all event organisers hosting events at the stadium for compliance purposes.

## 1.10 AUDIT OUTCOME

The Board and Management of CTS are proud to confirm that the entity has achieved an unqualified audit report with no findings, i.e. clean audit, in respect of its first full year of operations as an independent business. CTS will continue to strive towards ensuring that it consistently achieves unqualified audit reports in the future.

CAPE TOWN STADIUM

# 2 OUR CORE OBJECTIVE & GUIDING PRINCIPLES

# 2 OUR CORE OBJECTIVE & GUIDING PRINCIPLES

CTS will consistently focus on ensuring that the following core objectives and values of the organisation will be applied.

## 2.1 VISION

To achieve global recognition as a major event hosting facility and become the premium venue of choice.

## 2.2 MISSION

As a leading international, multi-purpose events facility our objectives toward attaining our vision are:

- client service excellence through focused strategic purpose;
- team synergies;
- customer centricity;
- innovative approaches and
- environmental sustainability.

Our Mission Statement can be further refined as follows:
*"The CTS will continue to strive to achieve financial sustainability through the maximum possible leveraging of all commercial opportunities".*

The CTS will deliver on its plan in a manner that is consistent with international environmental best-practice. Furthermore, it will continue to contribute to the socio-economic well-being of the City by positively impacting on the local economy (Inc. job creation, promotion of entrepreneurial endeavour & increased event based tourism) through the hosting of major events as well as creating a safe and spectator-friendly environment where members of our Cape Town & Western Cape communities and International and National visitors can share in the CTS experience.

## 2.3 CORE VALUES

The following core values will continue to under-pin the business of CTS as it transitions into a fully commercialised, major stadium business entity:

- Professionalism
- Integrity
- Customer centricity
- Respect
- Efficiency
- Versatility

## 2.4 BUSINESS ETHICS

CTS is committed to developing and upholding an ethical business culture.
As stated in the Executive Summary (above), CTS has adopted the King IV principles and will continue to conduct its business in an open, fair, responsible and transparent manner, with accountability attributed to relevant Board, management and staff members.

## 2.5 GUIDING PRINCIPLES

In addition to the stated core business objectives and values, CTS have adopted and will continue to comply with the following guiding principles drawn from the City's current 2017-2022 IDP. These guiding principles act, amongst others, as drivers for the implementation of its 2019-2022 Business Plan:

- Good Governance
- Operational sustainability
- Forward looking & globally competitive
- Customer centricity
- Resilience
- Transversal approach (improved integration, coordination and strategic alignment of departmental services)
- Economic inclusion
- Resource efficiency & security
- Environmental sustainability
- A safe & secure environment.

The CTS Board has approved the internally developed Code of Ethics Policy. It serves as the guiding light for the ethical operational practices which permeate the organisation.

## 2.6 STRATEGIC ALIGNMENT TO THE CITY'S INTEGRATED DEVELOPMENT PLAN (IDP)

CTS will continue to conduct its business in accordance with the key pillars and objectives of the City's current 2017-2022 IDP.

The business planning of all CTS departments are aligned with the following City of Cape Town Strategic Focus Areas:

**Strategic Focus Area 1.1: The "Opportunity City"**

- CTS's key role in assisting the City to position itself as a forward-looking globally competitive City
- Job creation, facility & event service provider opportunities
- Support of local entrepreneurial endeavour
- Creation of event tourism opportunities

**Strategic Focus Area 1.1G: Leverage (City's) Assets to drive Economic Growth**

- The full commercial leveraging of the CTS following the City's establishment of a stand-alone external business entity (adoption of a commercially flexible governance & management model) to govern & manage the stadium is achieving the dual objective of driving economic growth in the City whilst lessening the financial burden on its City Ratepayers.

**Strategic Focus Area 5.1: The "Well Run City"**

CTS continues to align itself with and contribute to the principles of a well-run City in, amongst others, the following ways:

- Full municipal entity legislative governance compliance;
- Unqualified "clean" audit report;
- Adherence to the business principles enshrined in King IV.

CAPE TOWN STADIUM

# 3 WHO WE ARE

# 3 WHO WE ARE

CTS (RF) SOC Limited, the ME commenced business operations on 01 February 2018. As already stated, it has successfully concluded its first full financial cycle (2018/19) and is operating within the mandate as captured in the SDA between the Entity and the City.

**SHAREHOLDING**
The City is currently the sole owner (100% shareholder) of the Company (Cape Town Stadium (RF) SOC Limited, Reg. NO: 2017/488432) which houses the ME. Notwithstanding its sole ownership of the entity, the City has elected to appoint a Board consisting of non-executives with a combination of appropriate experience and professional skills. These non-executive directors were drawn by the City from the ranks of the Cape Town private sector. CTS has been mandated by its 100% shareholder, inter alia, with the full commercialisation of the stadium.

**BOARD OF DIRECTORS**
As stated above, CTS retain an experienced Board of non-executives Directors who perform an oversight function over the governance and business affairs of CTS as contemplated by the Companies Act, 2008 (Act No. 71 of 2008); the Memorandum of incorporation ("MOI") of the Company, the City contractual mandate set out in the SDA and the principles enshrined in King IV.

The strategic focus of the Board remains the financial sustainability of CTS, the maximisation of its commercial potential and the alignment with and promotion of the core drivers of the City's current Integrated Development Plan.

**CURRENT DIRECTORS OF THE BOARD ARE:**
Mr. Peter-John Veldhuizen (Chairman)
Ms. Viola Manuel (Vice-Chairman)
Ms. Limia Essop
Mr. Martin van Staden
Mr. Samkelo Blom
Mr. Johan Dique

**COMMITTEE AND SUBCOMMITTEES**
The following CTS Board sub-committees have been established and have continued to perform their respective functions in terms of the relevant Board approved Terms of Reference, Board directives, applicable law and the principles enshrined in King IV:

Audit & Risk Committee
- Ms. Viola Manuel (Chairman)
- Mr. Johan Dique
- Mr. Rowan Nicholl
- Ms. Someshni Barnes
- Ms. Lindiwe Ndaba

HR, Social & Ethics Subcommittee
- Mr. Samkelo Blom (Chairman)
- Ms. Limia Essop
- Mr. Peter-John Veldhuizen
- Ms. Viola Manuel

Events, Marketing & Communication Subcommittee
- Mr. Martin van Staden (Chairman)
- Ms. Viola Manuel
- Ms. Limia Essop

**KEY STAKEHOLDERS**

CTS continues to enjoy the support of and conducts business with an ever expanding range of stakeholders and stakeholder groups. These include:

| | |
|---|---|
| **Governance**<br>• The City of Cape Town<br>• The Western Cape Government<br>• CTS Board Members | **CTS Staff**<br>• Full-time staff<br>• Fixed term contract staff<br>• Casual event staff |
| **Clients/Customers**<br>• Spectators/event attendees<br>• International Sports & Entertainment Rights Holders<br>• Local Sports & Entertainment Rights Holders<br>• International & domestic sports & recreational controlling bodies<br>• Professional Sports Franchises (e.g. WPR, CT City, Kaizer Chiefs FC<br>• International & local music concert promoters & managers<br>• International & local event organisers/managers<br>• International & local production companies<br>• International & local sponsors<br>• International & local corporates<br>• International & local advertising companies<br>• International & local members of the motion picture (film) industry<br>• Cultural organisations<br>• Religious groups<br>• Political organisations<br>• National and International Conference Organisers | **Media**<br>• International & local print media<br>• International & local broadcast media (TV & Radio)<br>• Industry and mainstream online media<br>• Social media platforms<br>• Regional news media<br>• Regional radio stations<br><br>**General Public**<br>• Ratepayers organisations<br>• Cape Town community<br>• Western Cape Community<br>• National and International visitors<br><br>**Business Partners/Associates**<br>• 3rd party professional service providers<br>• 3rd party vendors / suppliers |

CAPE TOWN STADIUM

# 4 GOVERNANCE

# 4 GOVERNANCE

## 4.1 KING IV

As an organisation, CTS, its Board of Directors and management has adopted and will continue to conduct its business operations within the ethical, moral & compliance principles as set out in King IV. The CTS Board, its members and management will continue to place a strong focus on the upholding of high standards of corporate ethics, fiscal management and corruption-free practices.

## 4.2 POLICY MAKING

The CTS Board will continue to actively, with the assistance of CTS management, develop and approve corporate business policies for CTS which are aligned with the principles enshrined in King IV.

Two new policies have been developed and approved to date by the Board during the current 2019/20 financial year:

- Risk Policy
- Cost Containment Policy

The following existing policies were subject to review and amendment and approval by the Board during the period under review:

- Directors and Audit Committee Members' Remuneration Policy;
- Supply Chain Management ("SCM") Policy.

Furthermore, the annual review of the followings existing policies was concluded with no amendments:

- Code of Ethics Policy;
- Health & Safety Policy & Standard Operating Procedures;
- Entertainment Policy;
- Hospitality Suite Policy;
- Business Travel & Subsistence Policy;
- Gift Policy.

In addition to the above, CTS management developed and the Board approved the Terms of References for the various Committees and sub-committees referred to above.

CAPE TOWN STADIUM

# 5 CTS – PURPOSE & SERVICE MANDATE

# 5 CTS – PURPOSE & SERVICE MANDATE

## 5.1 KEY ASPECTS OF REQUIRED SERVICE DELIVERY

As previously reported, a final SDA was signed between the City and CTS on 15 November 2018. CTS continues to comply with its contractual obligations set out therein.

## 5.2 SERVICE DELIVERY AGREEMENT BETWEEN THE CITY AND THE CAPE TOWN STADIUM

The salient provisions of the SDA between the City and CTS, are captured in the following table:

**TABLE 1 – CTS ME SDA OVERVIEW**

| | |
|---|---|
| **Period of agreement** | The City may, at its sole discretion, extend the Service Provider's (ME's) appointment for a further period of 49 years. Then say effectively 50 years from commencement date. |
| **Funding** | The City will provide the grant/allocation to cover CTS operational expenditure in terms of an approved budget and provide support services for the first three years. The stadium will be responsible for all maintenance which will be based on the City's maintenance standards. The City will be liable for all capital expenditure, including additional hospitality suites. |
| **Staffing** | The City will second staff members to the ME with the concurrence of the staff members concerned. Staff currently employed at CTS will remain as City employees, will be paid by the City and will receive their standard benefits including bonuses and leave pay. The ME may appoint additional staff. |
| **Services to be Provided** | • General facility maintenance & event support operations<br>• Events and entertainment services management<br>• Commercialisation, marketing and hospitality management<br>• Finance, legal and administration management |
| **Ownership and Control** | The City of Cape Town is the 100% shareholder. |
| **Oversight Processes** | The Finance Directorate (Treasury Department) of the City monitors the SDA and related performance and compliance of the municipal entity. |
| **City's Obligations** | The City must provide dedicated and prioritised support with regards to accounting, financial management and budgeting per MFMA, including utilisation of the SAP (Systems, Applications and Products) System as used by the City and Supply Chain Management support, legal, company secretary, brand management and communication. In addition, the City must provide dedicated and prioritised services in regard to human resource management support, as well as internal audit and risk management support including oversight over the service provider's audit committee. |

The following operational deliverables in terms of the SDA continue to be executed in terms of the provisions of the SDA between the City and CTS:

### 5.2.1 GENERAL FACILITY OPERATIONS

Asset management and maintenance: ICT services and infrastructure support (including ticketing, advertising, audio-visual,), safety and security, capital projects, refurbishment and investment projects.

### 5.2.2 EVENTS AND ENTERTAINMENT SERVICES MANAGEMENT

Bowl and non-bowl event scheduling; planning and execution; development and hosting of signature events; managing of events industry and service provider requirement; events leveraging and bidding processes, etc.

### 5.2.3 COMMERCIALISATION, MARKETING AND HOSPITALITY MANAGEMENT

Advertising; merchandising; supplier and pouring rights; ticketing; hospitality; sponsorships; tourism; marketing of bowl and non-bowl facilities; property development and management; commercial legal services.

### 5.2.4 LEGAL HR AND ADMINISTRATION MANAGEMENT

Establishment and management of structures, systems and processes with regards to legal, governance, HR and administration and such additional services as the City may require from time to time.

CAPE TOWN STADIUM

# 6 EXECUTION OF CTS SERVICE DELIVERY MANDATE

# 6 EXECUTION OF CTS SERVICE DELIVERY MANDATE

In order to guide the implementation of the City mandate per the SDA, the following strategies and implementation plans are in the process of being rolled-out at CTS:

- Commercialisation Strategy and Implementation Plan;
- Marketing, Communication and Events Acquisition Strategy and Plan;
- CTS Maintenance Strategy and Plan.

## 6.1 COMMERCIALISATION

The following steps are, inter alia, being undertaken towards the full activation of the following identified commercial opportunities at the CTS occasioned by the establishment of CTS:

**IDENTIFICATION OF FULL SPREAD OF COMMERCIAL OPPORTUNITIES CURRENTLY AVAILABLE TO CTS**

| | |
|---|---|
| • Naming rights partnership<br>• Stadium bowl quadrant/stand sponsorships<br>• Hospitality, catering & banqueting services<br>• Liquor warehousing & liquor distribution<br>• General food & beverage concessions<br>• Activation of Commercial Parking opportunity<br>• Leasing of office & retail space inventory<br>• Event related equipment and asset rentals | • Pitch level & first tier electronic (LED) advertising<br>• Pouring rights sponsorships<br>• Value in Kind & preferred product suppliers<br>• Event day acquisition & hosting<br>• CTS ticketing & hospitality sales<br>• Commercialisation of commercial & retail office space inventory<br>• Conferencing & banqueting services<br>• Film & advertising shoot rentals & support services |

An overview of the CTS Partially Outsourced Commercialisation Implementation Strategy to give effect to the City's full commercialisation mandate has already been canvassed above. In essence it has been determined which of the identified commercial opportunities were to be initially outsourced and which would be provided in-house. The naming rights tender was the first outsourcing tender to be put out and the process of securing a lucrative naming rights partner for CTS is well advanced. Seven (7) commercial tenders have already reached the conclusion of the tender bid evaluation phase and will shortly be assessed by a Bid Adjudication Committee ("BAC"). The detail of this process will be canvassed later in the report.

It is anticipated that all of the above commercial tenders will have been successfully activated during the financial period covered by this report.

The WPR has been secured as a premium anchor tenant and will provide impetus to the CTS commercialisation process.

## 6.2 INTEGRATED EVENT ATTRACTION

CTS will continue to focus on retaining long term clients and seeking multi-year agreements with prospective new clients. CTS will also endeavour to seek partnerships with other role players to secure major events for CTS and the City. It will also continue with its new event design initiatives for the purposes of marketing same to its existing event organiser customer base.

## 6.3 INTEGRATED BRAND, NICHE MARKETING, PUBLIC RELATIONS ("PR") AND COMMUNICATION

CTS will continue the implementation of the following developed, board approved strategies, plans and activities:

- CTS Marketing Plan
- Social Media Strategy Plan
- The leveraging of its new stand-alone website and Instagram account

A full overview of the activities of the brand, niche marketing, PR and corporate communication operations of CTS is set in the departmental overview section of this report (below).

## 6.4 INTERNAL COMPANY SERVICES – ADMINISTRATION, LEGAL & HUMAN RESOURCES

The organisational restructuring of CTS has been completed and is in the process of being implemented in line with the CTS Board strategic planning of all CTS Departments. CTS's corporate governance structure and systems have been established and are in the process of full implementation. In this regard, CTS is in the process of appointing an experienced outsourced Company Secretariat service provider via a tender process. It is envisaged that the new Company Secretariat will be in place by the 01 July 2020. An overview of the planned activities of the new Company Secretariat is set in the departmental overview section of this business plan (below).

## 6.5 FACILITY OPERATIONS

A Maintenance Strategy with a detailed maintenance and scheduled program has been implemented per the current CTS Business Plan. The Board approved the strategy which will continue to guide strategic, preventative and general maintenance activities at CTS.

CAPE TOWN STADIUM

# 7 SWOT ANALYSIS

# 7 SWOT ANALYSIS

The SWOT analysis of the current CTS Business Plan has been re-assessed and has been updated as follows:

| | |
|---|---|
| **Strengths**<br>• World Class, iconic facility located in an internationally popular tourist City<br>• Strength of hard currencies against the SA Rand- attractive to foreign event organizer clients<br>• Safe & secure facility<br>• Environmentally friendly and Well-maintained facility<br>• Excellent location adjacent to primary City tourist hub<br>• Excellent advertising exposure adjacent to high usage road transportation routes<br>• Good access to public transportation & extensive parking facilities within precinct<br>• Versatile, multipurpose functionality<br>• "Clean" stadium - multiple commercial /advertising opportunities with better returns<br>• Dedicated and knowledgeable staff<br>• Established long term client base<br>• Reliable in-house service providers<br>• Organisational restructuring geared for full commercialisation of stadium<br>• Implementation of various commercialisation tenders positioning the entity to optimise earning potentials<br>• Stable Board & senior management structure<br>• "Clean" Audit report<br>• Stand-alone auxiliary power system sufficient to power -up entire stadium in event mode | **Weaknesses**<br>• Low brand awareness - the CTS ME as a brand separate from the City is only in the process of being established now<br>• Under-staffing and its impact on redundancy planning<br>• High turn – over of staff at certain levels of the organisation and the resultant gap in service<br>• Lack of succession planning<br>• Ability to retain skilled, experienced staff-particularly those on fixed-term contracts<br>• Historic lack of in-house major stadium commercialisation and marketing skills<br>• Limiting City Capital Funding<br>• Location of Cape Town – long haul destination |
| **Opportunities**<br>• 7 new commercialisation tenders have been pursued and are close to being appointed<br>• Switching on of Naming Rights sponsorship is nearing finalization<br>• Bespoke CTS commercialisation model has been developed, approved by the Board and is currently being implemented<br>• WPRU has been secured as a premier anchor tenant. Heads of Agreement has been signed by both Parties<br>• The process of compiling the formal Anchor Tenant Agreement with WPR has been initiated<br>• The Tenant lease agreement i.t.o. WPR office space at CTS is currently being negotiated<br>• Leasing of commercial rental space tender<br>• Multi- year event hosting agreements with sporting and entertainment bodies<br>• The establishment and initiation of the events acquisition function within the organisation will see new business being attracted to the CTS | **Threats**<br>• Historical and on-going weakness of Rand – impacting local sports & music promoters to attract high quality international events<br>• Instability of power generation by the state-owned entity ESKOM<br>• The instability of the Rand and the current contracted local economy<br>• Highly competitive major stadium event hosting environment<br>• With the exception of a few major high attendance professional soccer events, nationwide decrease in spectator attendances at all events due to local economic contraction<br>• Shortage of local expertise in the stadium specific event delivery and commercialisation skills labour market |

CAPE TOWN STADIUM

# 8 MACRO ENVIRONMENTAL ANALYSIS

# 8 MACRO ENVIRONMENTAL ANALYSIS

A review and update of the current high level macro-environmental (PESTEL) operating environment analysis, originally undertaken in terms of the current 2019/20 business planning period, was undertaken. Amendments in respect of the impacts of the current and potential operating environment on the CTS business operations have been affected to the original analysis.

*Reference: www.business-to-you.com/scanning-the-environment-pestel-analysis/*

The high-level findings of the updated PESTEL analysis were as follows:

## 8.1 POLITICAL

- A general synergy with the City;
- Stepping down of the previous Executive Mayor Patricia de Lille and the appointment of her successor Alderman Dan Plato
- Impact of 2019 National General Elections;
- Global political instability;
- Lack of National Government support.

## 8.2 ECONOMIC

- Weakening Rand
- Exchange rate fluctuations
- Weakened economy that impacts on buying/spending power of consumers
- Instability of power generation by state owned ESKOM
- High rates of un-employment and poverty
- Poor international perceptions of SA's credit stability
- Perceived impact of Stadium's cost on the Cape Town ratepayer
- Increased international and domestic travel/transportation costs
- Upward trend in fuel (diesel, petrol & gas) prices
- Exponential increases in utility (energy & water) costs

## 8.3 SOCIAL

- Antipathy towards the CTS from certain quarters of the Cape Town community
- Cultural differences in Cape Town community
- Job creation
- Potential apathy of WPR supporters and an unwillingness to move to a new stadium

## 8.4 TECHNOLOGICAL

- Impact of social media platforms
- Impact and reliance on mobile technology
- The challenges of rapidly changing technological advances
- Lack of national infrastructure required to support such technologies
- Increased cyber-hacking risks

## 8.5 ENVIRONMENTAL

- Water shortages/restrictions
- High rates of crime
- Event related light pollution
- Noise attenuation
- Carbon footprint
- Air pollution (increased use of diesel generators due to ESKOM power outages
- Food integrity
- Event related littering
- High rates of event related plastic usage
- High compliance costs
- On-going ESKOM power outages

## 8.6 LEGAL

- Wide-ranging National, Provincial and Local Authority legislative compliance framework applicable to CTS
- Impact of SASREA compliance
- Inconsistency in interpreting the application of the SASREA act
- Environmental protection compliance
- OHSH Compliance impact

# 9 DEPARTMENTAL PLANS

# 9 DEPARTMENTAL PLANS

## 9.1 MARKETING, BRAND AND EVENTS ACQUISITIONS

This Department has recently been re-structured and re-named as part of the overall organisational restructure of CTS.

### 9.1.1 DEPARTMENTAL MANDATE

This Department is currently and will continue to execute its mandate as follows:

- The driving of all identified aspects relating to the management of the marketing and brand components of CTS
- The procurement/acquisitioning of profitable events

### 9.1.2 HIGHLIGHTS

The highlights of the Marketing, Brand and Events Acquisition Department of CTS to date, have been as follows:

- The development and approval of a Social Media Strategy
- The establishment and management of a stand-alone CTS website (capetownstadium.co.za) and the on-going administration thereof. This remains the single point of entry into the business of CTS for all event bookings requirements. It has become a key business catalyst for CTS
- The management and administration of the Instagram profile @capetownstadium to promote events and to showcase the beauty and versatility of the facility
- Continued management and ensuring adherence to the brand and corporate identity of the new business entity

### 9.1.3 MARKETING AND BRAND MANAGEMENT

#### 9.1.3.1 Overview

The Integrated Brand Management, Niche Marketing, PR and Communications Strategy was developed and approved by the CTS Board for implementation during the 2019-2022 business planning period. The strategy remains in place and CTS is in the midst of the implementation thereof.

In this regard, the following aspects of the strategy have or are in the process of being implemented:

- As previously stated, CTS has successfully migrated to a stand-alone website and the management and maintenance thereof is ongoing
- The CTS Instagram account has been in operation since December 2018, and the management and maintenance thereof is ongoing
- The launch of the LinkedIn account for CTS is imminent. The underlying motivation for the creation of this account is to create a business to business communications platform for CTS
- The first thought leadership video of the CTS CEO, Mr. Lesley de Reuck, has been filmed and is currently being edited. This video (dealing with eco-friendly pest control initiatives at CTS) will be released on LinkedIn

These social media platforms will, inter alia, be utilised as follows:

- To build and grow CTS followers on Instagram and LinkedIn from a zero base to 5% of competitive stadium's followers within a 12-month cycle
- To increase the unique user visits per month to the stadium website
- To reposition the CTS (now managed by a stand-alone Company) as far as public perception and sentiment is concerned
- Generate positive public sentiment on the stadiums social media platform brand pages through, inter alia, prompt and efficient community management, escalations processes, and effective resolutions process
- To generate business leads which will be filtered through the online bookings process.
- To measure statistics based on the performance of social media content and on-line traffic on the 3 new CTS social media platforms

The roll-out of CTS's Integrated Brand, Niche Marketing, PR and Communications strategy, has remained focused on establishing CTS as a leading world class event hosting facility and becoming the premier major international and domestic sporting and recreational venue of choice of major event organisers.

The CTS's Social Media Strategy is playing a key role in the achievement of this goal and will be maintained throughout the period covered by this Business Plan. The ultimate objective of this Social Media Strategy is to elevate the CTS profile. This is and will be achieved by:

- increasing public participation at CTS events
- taking initiatives to entrench the Stadium as "top of mind" with all categories of event organisers
- growing the CTS and stadium brand value
- hosting more corporate events
- hosting increased numbers of major international events

#### 9.1.3.2 Implementation

Implementation of the CTS Integrated Brand Management, Niche Marketing, PR and Communications Strategy and Plan is currently being achieved as follows:

- Increasing the brand awareness of the stadium by utilising social media to showcase CTS's multi-purpose mixed-use facilities and the internationally acclaimed successful events that have taken place there, to corporates and local and international event rights holders and organisers
- It is anticipated that the implementation of this strategy will attract potential sponsors who will rationalize that CTS's social presence is a more lucrative marketing currency than billboard branding
- Managing the public perception of the CTS – the current perception is that the stadium is currently not being utilised to its full potential. By effectively marketing, advertising and communication of up-coming bowl and non-bowl events and functions and the "happenings" at such events across all social media, CTS will negate and turn-around that perception

- Increasing awareness of the stadium as a desired local events venue by showcasing the event space and opportunities to attract local event organisers to utilise the world-class stadium space and facilities
- Promotion of the CTS as an iconic, internationally recognised, world class venue. Active marketing steps through social media and other platforms are being taken to increase the international stature of the stadium, increase attendances and the number of events. This in part is being achieved by actively show-casing how well and professionally major international events are executed by CTS at the stadium

### 9.1.4 EVENTS ACQUISITIONS

- Following the restructuring of the organisation, the function of events acquisitions was identified as pivotal to the process of maximising the revenue potential of the CTS commercialisation strategy
- The re-engineering of the CTS Commercial functionality and stated focus on the maximisation of all CTS commercial opportunities will allow for the correct service offerings to be in place to cater for all of the needs of event attendees
- It flows that it is imperative for CTS, through its current event acquisitions strategy, in creating the opportunity for attendees to be present at the stadium in large numbers and on a frequent basis
- An events acquisition strategy was finalised and approved by the CTS Board;
- However due to the organisational restructuring of CTS and the expediting of its commercialisation initiatives, a need to re-align the event acquisition strategy has been identified
- This strategy re-alignment process will encapsulate the ideal of retaining recurring business through the:
  - signing of long-term deals with long standing clients
  - looking to those same clients to create additional off-shoot events (albeit on a smaller scale); and by
  - strategically targeting specific events
- This process is underway and is scheduled to be finalised and implemented prior to the end of the current CTS business planning cycle

## 9.2 COMMERCIALISATION

### 9.2.1 DEPARTMENTAL MANDATE

The Commercialisation Department's mandate is to optimise revenues and income through the activation and management of all potential income streams at the CTS.

A commercial strategy was approved by the CTS Board of Directors on 6 March 2019. In broad strokes, the strategy included:

- The securing of a naming right partner
- The securing of a premium anchor tenant
- The development of an updated commercial (and financial) model for event-stimulated revenues
- Concluding the City MATR process in respect of the planned exploitation of the commercial office, retail, parking and property development opportunities at CTS

### 9.2.2 HIGHLIGHTS

Significant progress has been made in respect of the following components of the Stadium's Commercialisation Strategy and implementation plan:

#### 9.2.2.1 Naming Rights Partner

Through the tender appointed outsourced stadium naming rights facilitator, CTS has identified three viable potential naming rights partners with whom discussions are currently underway.

#### 9.2.2.2 Securing of Premium Anchor Tenant - Western Province Rugby

During the period in review and pursuant to the 2018-2019 CTS business plan, the stadium secured a leading SA Rugby Union franchise, WPR, as a premium anchor tenant.

CTS is the first new build 2010 FIFA World Cup SA™ Stadium to secure a first tier local ("WP Rugby") and international rugby franchise ("The Stormers") at its iconic, modern international facility.

On 18 November 2019, following a comprehensive due diligence process, the City signed a Binding Heads of Agreement ("HOA") with Western Province Rugby ("WPR") - who were already signatories to the agreement on 12 June 2018. In terms of the HOA, WPR is scheduled to take occupancy at the Stadium as of February 2021.

The agreed relocation of WPR to the CTS, the culmination of a lengthy negotiation and due diligence process, has resulted in an equitable, mutually beneficial long-term business relationship for both the City and WPR.

Numerous commercial benefits will accrue to CTS as a result of this major development - not least of all the bolstering of its current events calendar by an anticipated 15 high spectator attendance events per year.

CTS could amongst others, also be the beneficiary of increased rental revenues in respect of a significant portion of its available commercial office space which WPR might also be taking up at the stadium during 2021.

The Parties are currently in the process of formalising the required property rental agreements in respect of the office space.

### 9.2.3 COMMERCIALISATION STRATEGY AND PLAN

#### 9.2.3.1 Commercial model for event stimulated revenues

The CTS Board approved commercial model referred to earlier in this report is in the process of implementation. Board agreed implementation schedules and timelines remain on track.

All identified commercial tenders in respect of the outsourced components of the Commercialisation Plan were completed and advertised during October 2019. The advertised commercial tenders included:

- **Concessionaire services** – Food & non-alcoholic beverages, Tender called for the appointment of 3 service providers on a non-exclusive basis;
- **Pouring rights partner** – Exclusive right for its beer and cider product to be sold at the stadium;
- Concessionaire services - alcoholic beverages. Tender called for the appointment of 3 service providers, on a non-exclusive basis, to supply & distribute liquor to and at the stadium and its immediate event day precincts;
- **Preferred product suppliers:** Exclusive right to product sales within the stadium and its immediate event day precincts, for a variety of fast-moving food & beverage products including dry snacks, ice cream, cool drinks, water and biltong;
- **Hospitality conferencing and events:** For the appointment of 1 service provider, on a non-exclusive basis, for the provision of all hospitality, conferencing and event services, including:
  - the selling of tickets and hospitality, on behalf of event organisers;
  - the selling of (tickets, hospitality and advertising on behalf of CTS.
- **Liquor distribution services:** For the appointment of an agent to manage the distribution and event day sale of all liquor within the Stadium on behalf of the CTS;

The compulsory tender briefing sessions were well attended and were broadly representative of the industries bidding on the various commercial tenders.

Following an assessment of a sufficient spread of qualifying bids, the tender evaluation process was finalised during December 2019. These will be assessed for award purposes by a Bid Adjudication Committee during the first quarter of 2020.

Where a tender was issued on an “exclusive” basis, allowance has been made for requirements with regards to a “clean” (commercially sterile) stadium.

While each individual tender will generate agreed revenues for CTS, the management of the inter-relationship between the various service providers, will be important. This will ensure that CTS's revenue opportunities are maximised going forward.

While the majority of the transactions will be between the appointed service providers and the end user (general public, hospitality guests), the inter-dependence and quality/level of service aspects will be managed by CTS. In short:

- The successful concessionaire bidders will be required to make use of the CTS appointed preferred suppliers and pouring rights partner. CTS will secure a **rights fee and volume discount benefit** from the pouring rights partner and preferred suppliers for all orders placed
- The successful liquor distribution agent will control all stock entering the stadium and the sale of this stock to service providers, both for public and hospitality guest consumption. The CTS will benefit from all sales through a **product mark up**
- The hospitality and events service provider will be required to utilise all operational suppliers and service providers including security, cleaning and maintenance, with CTS benefitting from a **volume discount on all services rendered**
- The hospitality and events service provider and concessionaires will be required to pay a rights **fee** together with a **turnover fee** for the right to provide hospitality and/or event support services

It is anticipated that all successful services provider bidders noted above will be contracted and in place by the final quarter of CTS's 2019/20 financial year.

**Commercial Parking**

A commercial parking service provider tender was advertised by CTS during mid-December 2019. The successful tenderer will be responsible to manage all aspects of commercial and event day parking at CTS. It is anticipated that the operator being in place by July 2020.

**Commercial Property Rentals**

A tender in respect of the utilisation of the available internal CTS retail and office space inventory will be issued by CTS once the office and facility needs of WPR (the subject of a current negotiation between the City, CTS and WPR) are finalised.

### 9.2.4 MONITORING AND EVALUATION

- All commercial service providers will be monitored and evaluated as per their agreed delivery standards
- Impact of the commercialisation implementation strategy will be measured against set income targets

## 9.3 OPERATIONS AND EVENTS

### 9.3.1 OVERVIEW

The Operations and Events Department is a product of the organisational restructure undertaken by CTS to enable the ME to meet its contracted deliverables in terms of its SDA as agreed with the City.

In essence, the former facility operations department of CTS was merged with the Events Department. This had a major operational implication for the former stand-alone facility operations function at CTS.

The Operations and Events Department manages an intelligent stadium where integral sub-systems and technologies are merged via a Human Machine Interface (HMI).

A new structure (as per Annexure A) was conceptualised and developed to enable the restructured Operations and Events Department to deliver on its new mandate.

In reviewing its new scope of works and addressing its new mandate the Operations and Events Department has placed into scope all event management and event operations in order to ensure greater client centricity, promotion of stadium eventing space and total quality management for the optimising of client retention,

The goals of the restructured Operations and Events Department include:

- the optimisation of client centricity
- ensuring business continuity
- quality assurance
- facilities maintenance management
- event support operations inclusive of planning and execution of all minor and major events hosted at CTS
- ITC /Data management
- Safety and Security management
- The promotion of environmental sustainability

### 9.3.2 MANDATE

The mandate of the Operations and Events Department is to ensure asset preservation and event delivery through facility readiness, integration and coordination.

### 9.3.3 HIGHLIGHTS

#### 9.3.3.1 Implementation of facility maintenance strategy

The Operations and Events Department has successfully implemented its Board approved Facility Maintenance strategy.

The strategy ensures the focus on and delivery of:

- Preventive Maintenance
- Corrective Maintenance
- Reactive Maintenance
- Emergency Maintenance
- Capital Maintenance
- SASREA infrastructural compliance, as legislated.

#### 9.3.3.2 Event hosting

The Operations and Events Department enjoyed a successful 2019 with its delivery of 105 events consisting of:

- 37 bowl events
- 52 non-bowl events; and
- 16 film shoots

In addition, CTS, during the current business cycle, was recognised by World Rugby™ as having the best stadium operating facilities on the World Rugby HSBC Sevens™ Series circuit.

During 2019, CTS was also nominated as a top finalist (Category: Event of the Year) at the annual 2019 Stadium Business Summit awards ceremony in London in respect of its hosting of the 2nd leg of the World Rugby Sevens™ series during December 2018.

#### 9.3.3.3 SASREA Compliance

As stated earlier in the Executive Summary report, CTS is in possession of a valid and current SASREA Section 8 Existing Stadium Safety and Event Grading certificate. The stadium is graded to host High Risk events, the only stadium in the Western Cape Province to have received this grading.

#### 9.3.3.4 Capital Projects: Suites Construction

A capital budget in the amount of R282 million (including Professional fees) for the construction of the additional 162 hospitality suites referred to earlier in this section was approved by the City during the current business planning cycle. As stated above the Operations and Events Department will be responsible to oversee the delivery of this major capital project.

The construction and projected February 2021 commissioning of the additional hospitality suites will ensure that the CTS will, with reference to the international benchmarking exercise conducted as part of the stadiums original business modelling and planning process post the 2010 FIFA World Cup™, become increasingly competitive in the major international events hosting market.

It will also ensure ample revenue producing hospitality space to accommodate a number of future major international and local events recently secured by CTS i.e.:

- 2 fixtures (including a Springbok Rugby test) during the 2021 British and Irish Lions tour of SA
- The 2022 World Rugby Sevens World Cup™
- Booked high spectator attendance international Music concerts
- The senior professional international and local matches of the recently secured premium anchor tenant at CTS i.e. WPR, as of February 2021

### 9.3.4 MAINTENANCE STRATEGY DEVELOPMENT & IMPLEMENTATION

Cape Town Stadium (RF) SOC Ltd Operations and Events Department has submitted and received approval of the Maintenance Strategy to be implemented for the validity period of this Business Plan. The aforementioned strategy is not only based on stringent fiscal adherence, but incorporated environmental sustainability as a key focus area. Strategic maintenance planning principles health and safety adherence and engineering best practices forms the back bone of this maintenance strategy. The preventative maintenance plan provides a base to get the most efficient use of resources and tools required to maintain the standards set. As the building and plant grows older, a condition and risk evaluation based maintenance approach is incorporated to ensure the optimal use of the available budget.

In order to improve the quality of the service offering for all stakeholders; continuous review, implementation and execution of processes are undertaken. Integration with other business strategies, including events, commercialisation, marketing, etc. must be ensured to ensure successful execution of the Business Plan.

### 9.3.5 EVENT STRATEGY DEVELOPMENT & IMPLEMENTATION INTEGRATED EVENTS IMPLEMENTATION STRATEGY (IEMS)

In support of the overall CTS vision to be recognised as a world –class multi-functional events facility, the Events component of the Department has identified the need to develop an integrated events implementation strategy and model.

This new model will enable a more efficient, effective, high performing and sustainable event management solution to all bowl, non –bowl and film shoot events hosted at the stadium.

The Integrated Events Implementation Strategy (IEMS) will outline event planning, implementation, event execution and post event engagement. In addition, it will outline the monitoring and evaluation of events held at CTS.

The Strategy will allow for the implementation of innovative and modern standard operating procedures associated with internationally benchmarked international eventing practices. The strategy is underpinned by the following principles:

| PRINCIPLES | OBJECTIVE |
|---|---|
| **Operational Efficiency** | Ensure that the stadium is always in a state of event readiness thus requiring that each operational component of the facility is maintained at its required and expected operational standard, as per the tiers allocated to them. |
| **Business Continuity** | Ensures the process of creating systems of prevention and recovery to deal with potential operation and event risks to CTS. In addition to prevention initiatives, the goal is to enable ongoing operations before and during the execution of recovery. |
| **Client Centric** | Means an approach to delivering services that focuses on the customer and ensure that the customer is at the center of the CTS business philosophy, operations and idea development. |
| **Quality Assurance** | Ensure that CTS adheres to the desired level of quality in respect of event management, operations and facilities maintenance. |
| **Financial Sustainability** | Ensure competitive, market related pricing structure providing clients with value for money while ensuring maximum profitability and reduced expenditure. |

### 9.3.6 MONITORING & EVALUATION

The Department will continue to actively monitor and evaluate key performance indicators by introducing a cohesive project management system during the 2019/2020 financial year.

This project management system will aim to introduce an online platform for all management and teams to share relevant operational specific information, plan events and monitor event implementation.

Over and above this, the department will monitor the:

- Percentage spend to budget on facility repairs and maintenance budget;
- Percentage spend to budget on approved repairs and maintenance;
- Percentage compliance with the Occupational Health & Safety Act and Regulations (Act 85 of 1993) as well as SASREA;
- Number of bowl events, non-bowl events, film shoots targets vs actual.

Quarterly reports on the above will be prepared by the Chief Operations Officer for submission to the Chief Executive Officer and Board of Directors.

## 9.4 INTERNAL COMPANY SERVICES DEPARTMENT

### 9.4.1 MANDATE

The operational mandate of the Company Services Department is to lead and manage Internal Corporate Services (organisation- wide support services for Human Resources, Administration, Legal and Company Secretariat) and to ensure the provision of efficient and effective services to the organisation.

### 9.4.2 HIGHLIGHTS

During the current 2019/20 business planning period the CTS Internal Company Services Section achieved and delivered the following:

- Price Waterhouse Coopers (“PWC”) were appointed to assess the functional effectiveness of the current organisational structure to deliver on CTS mandate. The outcome of this exercise is reflected in the Human Resources Overview (below).
- 100% completion of CTS staff declaration

### 9.4.3 STRATEGY AND POLICY DEVELOPMENT AND IMPLEMENTATION

The following policies were developed by the Department and approved by the CTS Board:

- Cost Containment Policy;
- Revised Supply Chain Management (“SCM”) Policy;
- Revised Hospitality Suite Policy;
- Revised Director’s Remuneration Policy;
- Risk Management Policy.

### 9.4.4 HUMAN RESOURCES AND ADMINISTRATION

#### 9.4.4.1 Overview

In order to support the CTS Entity’s revised SDA based mandate a new CTS organisational structure was developed.

The restructure was, inter alia, focused on the delivering of the over-arching CTS commercial agenda during the current business cycle. In essence, this structure will be enhancing a culture that is predominantly commercially driven and business orientated.

Due to CTS’s current commercialisation focus, a paradigm shift in HR philosophy and strategy has been required. It is currently being implemented within the internal CTS operating environment.

In this regard, specific commercially based coaching interventions are being sourced for all categories of CTS staff, including senior and middle management. This will assist in the facilitation of the transition of the enhanced focus required from staff towards a primarily commercially driven business agenda.

#### 9.4.4.2 HR OBJECTIVES

The Internal Company Services Department will ensure an environment that will optimise the potential of its HR Capital. It will achieve this through focused skills development & training and will contribute through identified interventions to ensure a highly motivated staff contingent.

The Department is in the process of investigating various avenues available to it in order to develop a staff retention and succession planning strategy designed to retain and develop staff within the organisation. The Internal Company Services Department will ensure the smooth functioning of all other CTS Departments through fulfilling all required HR and admin related support functions.

The Department is providing management with all relevant reports and intelligence that will support decision making within the human resources sphere of management.

#### 9.4.4.3 Organisational structure

A review and interrogation of the historical organisational structure of CTS was undertaken during the current business cycle. A proposed restructuring of the organisation was initiated.

An independent specialist, Price Waterhouse Coopers (“PWC”) was appointed by CTS to assess the then existing structures functional effectivity against the new CTS business Entity’s commercial mandate, identify gaps and advise on a potential re-alignment of its organisational structure.

This project was designed to ensure that the CTS ME would be enabled to deliver on its contractual mandate from the City, as stipulated in the SDA. The process was finalised and a new organisational design for CTS was approved by the Board on 06 March 2019 and was submitted to the City and approved by the City Manager on 12 April 2019. This structure is currently in the process of being implemented.

The CTS Board approved the organisational structure is attached hereto marked Annexure A:

#### 9.4.4.4 Administration and company secretariat function

**Secretariat Function**

The Internal Company Services Department will coordinate and provide oversight and support to CTS and manage the outsourced service provider that will be appointed by CTS, effective 01 July 2020, to deliver the CTS functions associated with a Company Secretariat.

The outsourced secretariat will provide the necessary administrative support which will help ensure that the CTS meets its legislative and corporate governance obligations.

**Administration**

Following the implementation of the new organisational design. The Internal Company Services Department will reassess all processes and procedures in terms of compliance for filing, archiving, stores and stock control and will address any identified shortcomings.

## 9.5 FINANCE

### 9.5.1 OVERVIEW

The Finance Department provides a support service to the CTS and is responsible for the financial management of CTS. The core focus of this component of the Department, is to provide a daily finance support function to CTS and to give substance to its financial strategy.

The Department also provides support to the operational team by ensuring that agreed financial models are compiled and that agreed revenue is timeously collected from event clients.

Furthermore, it ensures that suppliers/subcontractors for purchases and/or services rendered are paid timeously through the City's payment system. As CTS is a municipal entity (the City of Cape Town holds a majority shareholding in the company), it has to adhere to relevant provisions of the Municipal Finance Management Act ("MFMA") and associated legislation affecting municipal entities and State-Owned Companies.

This CTS plays an integral role in ensuring that the City of Cape Town's targets set of CTS, in relation corporate governance and external audits, are met.

### 9.5.2 MANDATE

CTS received its first "clean" unqualified audit report and opinion during the current business cycle and following its first eighteen months of trade following the establishment of the CTS ME. One of the key focuses of the CTS finance team going forward will be to ensure that the CTS continues to achieve an annual "clean" unqualified audit. Other focus areas of the finance team include the following:

- Financial Reporting to management, the CTS Board and Board committees/sub-committees and the City of Cape Town;
- Aligning business operational strategies to budgets and the Board approved finance strategy;
- Supporting the operational team with, inter alia, the financial modelling of all new revenue opportunities;
- Fixed assets management and verification at CTS on behalf of the City of Cape Town;
- Implement and improve on systems, processes and internal controls for all new operational areas in order to ensure good governance

### 9.5.3 2019 HIGHLIGHTS

**Financial Performance**

- The 2018/19 financial year was also the CTS's first full year of trading;
- CTS exceeded its approved revenue budget by 18.42%;
- It generated revenues of R 22.2 million against a budget of R 18.7 million.
- Due to its exceeding the revenue target, the CTS achieved a City grant saving of 24.14% against a KPI of 5%, utilising only R 55.1 million against a budget of R 72.6 million.
- Due to improved cost management the CTS achieved a 12.82% saving on its budgeted operational expenditure

### 9.5.4 STRATEGY DEVELOPMENT & IMPLEMENTATION

As stated above, a key strategic focus of the finance team would be to strive to continue achieving “clean” unqualified annual audit reports for CTS and financial efficiencies.

New commercial revenue streams are scheduled to come on line during the 2020/21 financial year. This will require the development of new systems, processes, controls and financial models and the implementation thereof. Additional control measures will also have to be implemented in order to ensure compliance and to ensure that all new commercial revenue streams are classified, recorded and reported on accurately.

During the 2020/21 financial year, the Department plans to undertake quarterly reviews and reconciliations of all financial records in order to ensure an improved control environment. These controls will facilitate an improved external audit readiness at financial year-end.

Finance will also improve on providing financial reports to line and heads of departments in order to assist with decision making.

### 9.5.5 MONITORING & EVALUATION

The finance function will continue to monitor budgets against actual spend on a monthly basis and report accordingly. They will also ensure compliance with National Treasury’s reporting standards. The mid-year adjustment budget and annual budget business plan process will also be monitored by ensuring that it meets the compliance requirements of this process.

### 9.5.6 SUPPLY CHAIN MANAGEMENT

The core function of the Supply Chain Management (SCM) is to ensure that the correct product / services is procured at the right price in order to, inter alia, meet client needs and avoid “fruitless and wasteful expenditure” at CTS. SCM plays a pivotal role at CTS. Amongst others, it is responsible to develop correct specifications for required goods and services and ensuring compliance to SCM regulations. CTS has been supported by the City of Cape Town’s supply chain team in this regard.

It is the intention for the CTS to gradually perform its CTS function in-house with less reliance being placed on the City’s support. The intention is for the CTS to form its own Bid Committee’s consisting of, inter alia, employees of CTS. The transition will be effected by a phased approach with the ultimate aim of establishing its own SCM unit.

CAPE TOWN STADIUM

# 10 SUSTAINABILITY

# 10 SUSTAINABILITY

## 10.1 OVERVIEW

The enhancement of corporate sustainability at CTS is the responsibility of every CTS stakeholder in its everyday dealings at the CTS.

## 10.2 THE CTS SUSTAINABILITY GOALS

The primary sustainability goals of CTS as identified by CTS management include:

- Independent recognition as an international benchmark for sustainable major stadiums;
- The creation of and planning for sustainable events whilst ensuring the minimisation of CTS's:
  - carbon footprint
  - waste management (including recycling)
  - noise and light pollution
  - non-sustainable event build-outs & break-downs

## 10.3 SOCIAL SUSTAINABILITY

CTS will continue to contribute to the City of Cape Town's IDP goals of:

- Job creation
- Contribution to the local and regional economy
- Skills development
- Mentorships
- Support of entrepreneurial endeavour of emerging small businesses

## 10.4 ENVIRONMENTAL SUSTAINABILITY

CTS has implemented and will continue to enforce responsible practices that will contribute to the environmental sustainability.

### 10.4.1 CTS ENVIRONMENTAL SUSTAINABILITY INITIATIVES

Environmental sustainability programs that have run during the current business planning period will be sustained. As canvassed in the Operations and Events Department section (above), these include:

- water conservation
- utilisation of energy efficient light sources
- stadium cleaning in accordance with ISO 9001 quality standards
- developing and enforcing a CTS specific event environmental sustainability guide, according to ISO 201221, with event organiser users of the stadium
- scientific micro-management of pitch moisture content - If moisture levels are adequate, no pitch watering will take place
- continued utilisation of liquid foliar fertilizer applications which do not require irrigation to assist dispersion and dissolving into the soil
- The application of a liquid fertilizer branded “Humate Sure” to the pitch on a monthly basis. This product helps moisture to remain in the soil given its coalescence around the roots of the grass plant

CAPE TOWN STADIUM

# 11 CTS BUDGET & FINANCIAL PROJECTIONS

# 11 CTS BUDGET & FINANCIAL PROJECTIONS

## 11.1 CTS BUDGETING

The CTS has completed its first full year of trade during the 2018/19 year as a ME and the historical financial information can now be used in preparation of the budgets.

The following principles will under-pin the budgeting and business planning process:

- The previously identified internal stadium commercial revenue opportunities
- The new additional revenue streams occasioned by the establishment of the more commercially flexible governance and management vehicle to operate the stadium
- The phased implementation of the historically identified and new commercial revenue opportunities (canvassed earlier in this report)
- Historical expenditure and revenue trends drawn from the City's SAP accounting system
- A focus on cost saving initiatives within the internal operating environment
- The business need for modest capital expenditure (any required major CAPEX need will be funded by the City)
- A consideration of CTS's SWOT analysis (an updated version of which is considered earlier in this report)
- The impact of inflation
- City guidelines

## 11.2 BUDGET PROJECTIONS

The budget had been revised taking into account the impact of the COVID 19 pandemic. Government has placed a ban on gatherings which will have a direct impact on the sporting and events industry. The budget for 2020/21 has been prepared on the basis that events will take place from December 2020. Budgeted expenditure of R 93.1 million against budgeted revenues of R 27.4 million has been forecasted for CTS for the 2020/21 financial year.

A copy of the 2019/20 – 21/22 budget has been attached here to marked ANNEXURE"C"

The reason is that the entity's aim is to optimize income and contain expenditure. The entity do not want to incentivize unnecesary expenditure in an attemp to reach target. The entity believes that the target of 80% is a realistic one which would lead to less expenditure, whilst not compromising on the standard of maintenance which is covered comprehensively under indicator 3, ensuring compliance with the approved maintenance programme. | 80% | 80% | REMOVE INDICATOR | REMOVE INDICATOR | REMOVE INDICATOR | REMOVE INDICATOR | Louw Visagie |

| INDICATOR | IDP Objective | INDICATOR DEFINITION |
|---|---|---|
| Percentage reduction of the grant allocation from the City of Cape Town | 1.1 | This indicator will measure the percentage reduction in the grant allocation received from the City of Cape Town. |
| Percentage achievement of projected revenue | 1.1 | This indicator will measure the meeting (achievement) of the annual projected revenue as per the latest approved budget(meeting refers to achievement). |
| Percentage compliance with approved Repairs and Maintenance program | 1.1 | The indicator measures the approved repairs and maintenance programme as per the Service Delivery Agreement between the Cape Town Stadium (RF) SOC and the City of Cape Town Repairs and Maintenance refers to all facilities and equipment at the Cape Town Stadium. Repairs and maintenance is further defined as Preventive Maintenance, Corrective Maintenance, Reactive Maintenance, Emergency Maintenance as well as repairs of damages after events. Monthly reports on the implementation of the RM Programme are presented to the Board. |
| Percentage spent on Repairs and Maintenance Budget | 1.1 | The percentage reflecting year to date spent in relation to the total approved repair and maintenance budget.<br><br>Note that 'in-year reporting' during the financial year will be indicated as a trend (year-to-date spend). Maintenance is defined as the actions required for an asset to achieve its expected useful life. Planned maintenance includes assets inspection, and measures to prevent known failure modes, and can be time or condition-based.<br><br>Repairs are actions undertaken to restore an asset to its previous condition after failure or damage. Expenses on repairs and maintenance are considered operational expenditure.<br><br>Primary repairs and maintenance costs refer to repairs and maintenance expenditure incurred for labour and materials paid to outside suppliers. Second repairs and maintenance costs refer to repairs and maintenance incurred for labour provided in-house/internally. |
| Percentage compliance with Occupational Health and Safety Acts and Regulations | 1.1 | This Indicator measures compliance against the Occupational Health and Safety Regulations on event and non-event days as well as contractors at the Cape Town Stadium. |
| Number of marketing interventions implemented as per the approved Marketing Plan | 1.1 | The Marketing Plan outlines the methodology to be used to market the Cape Town Stadium. This will be measured by the number of marketing activations and interventions achieved per quarter through the various marketing channels i.e. printed ads (events magazines, brochures, posters etc.), digital content (for stadium big screens and digital boards aired during events), social media, online presence etc. Activations: It could be advertisement, post on Instagram account, presentation, digital assets. Advertisements refer to publications placed in the magazine, online sites or newspaper. Each placement will be counted as one implemented activity.<br>Interventions: It could be Business - to Business Marketing, Workshop, Meeting, Digital Intervention or Conference. Each instance will be counted as one implemented activity. |

| INDICATOR | IDP Objective | INDICATOR DEFINITION |
|---|---|---|
| Number of bowl events hosted | 1.1 | The indicator measures the number of bowl events hosted. Bowl Events relates to events that utilise the pitch and/or the seating areas around the pitch. |
| Number of non-bowl events hosted | 1.1 | The indicator measures the number of non-bowl events hosted. Non-Bowl Events relates to all spaces/ areas excluding the pitch and seating areas utilized within the Stadium such as Conferences, Product Launches, Exhibitions, Weddings, parking etc. |
| Number of film/still shoot events hosted | 1.1 | The indicator measures the number of film/still events hosted. Still and Film Shoots relates to the use of specific areas within the stadium for commercial and non-commercial purposes. |
| Percentage approved commercialisation programmes implemented as per approved plan | 1.1 | The indicator measures the implementation of the commercialisation programme as per the approved plan.<br><br>Commercialisation programs is the process of introducing new products/programs to the market, principally for financial gain. |
| Percentage budget spent on implementation of WSP (NKPI) | 1.3 | The Workplace Skills Plan outlines the planned education, training and development interventions for the organisation.<br><br>Its purpose is to formally plan and allocate budget for appropriate training interventions that will address the needs arising out of local government's skills sector plan, the IDP, the individual departmental staffing strategies, individual employees' personal development plans and the employment equity plan. The indicator measures the actual budget spent on the implementation of the WSP against the approved budget. Proxy measure for NKPI. |
| Percentage of people from employment equity target groups employed in the three highest levels of management in compliance with the City's approved Employment equity plan (EE) (NKPI) | 4.3 | The indicator measures the percentage of people from employment equity target groups employed in the three highest levels of management, in compliance with the Cape Town Stadium (RF) approved EE plan. Each directorate contributes to the corporate achievement of targets and goals by implementing its own objectives of quantitative and qualitative goal-setting. |
| Percentage of absenteeism | 5.1 | The indicator measures the actual number of days absent due to sick, unpaid/unauthorised leaves in the department or directorate expressed as a percentage over the number of working days in relation to the number of staff employed. Sick, unpaid/unauthorised leave will include 4 categories namely normal sick leave, unpaid unauthorised leave, leave in lieu of sick leave and unpaid in lieu of sick leave. |
| Percentage of Declarations of Interest completed | 5.1 | The total number of completed declarations of interest as a % of the total number of staff. The target is cumulative over the year. Each employee needs to complete the declaration of interest at least once per year (or when circumstances change), as prescribed by the applicable legislation and Cape Town Stadium (RF) board decisions aligned with City policies/ decisions. |

| INDICATOR | IDP Objective | INDICATOR DEFINITION |
|---|---|---|
| Opinion of the Auditor General | 5.1 | The indicator measures good governance and accounting practices and will be evaluated and considered by the Auditor-General in determining his opinion. An unqualified audit opinion is where the auditor, having completed the audit, has no reservation as to the fairness of presentation of financial statements and their conformity with general recognised accounting practice. This is referred to as a 'clean audit'. Alternatively, the auditor would issue a qualified audit opinion either in whole or in part over the financial statements if these have not been prepared in accordance with general recognised accounting practice, or the auditor could not audit one or more areas of the financial statements. Future audit opinions will cover the audit of predetermined objectives. |

***Financial Projections***

The 2020/21 financial year has taken into account the first full year of operations of the Cape Town Stadium.

The 2020/21 budget was prepared following a similar approach used in the prior year. The budget takes into account the current market conditions, such as inflation, historical trend analysis, as well as the proposed City budget guidelines. The budget has taken into account the impact of COVID 19 and the ban government has placed on gatherings.
The budget has factored that no gatherings will be allowed until November 2020 resulting in no events taking place. The first event budgeted for is the Rugby Sevens Event which is planned for Dec 2020.
Furter details are discussed below:

***REVENUE PROJECTIONS***

***1. Rental of facilities and equipment***
Rental of fixed assets in 2020/21 have been budgeted at R17million which includes income to be realised from the proposed new financial model with WPRF being an anchor tentant for five months from February 2021
For the financial year 2021/22 Rental of facilities and equipment is budgeted at a 171% increase on the assumption of securing an anchor tenant and the assumption that the hospitality and concession rights goes live.

***2. Transfers and subsidies (Grant)***

Per the Key Performance Indicators as agreed upon between the City and the entity, the grant was budgeted at a decrease .

***3. Other Revenue***
Other revenue comprise of income generated through Stadium Tours, Preferred and commercial Rights, naming rights and Advertising Fees and Parking Fees. An inflationary increase have been applied to Stadium Tours and Advertising Fees.
Rights and Advertising Fees has been budgeted to increase with R1.6m due to the preferred and commercial rights and other relevant tenders that have been awarded. Naming rights income has been budgeted at R2.4million for 2020/21 financial year.
Other revenue to increase with inflation for the outer years.

***EXPENDITURE***

***4. Remuneration of board members***
This remained at a budget of 6 board members, adjusted with annual inflationary increases.

***5. Other materials***
Other materials comprise of fuel, printing and stationary and other material related costs which have been budgeted to increase by 4.5%
An estimate amount have thus been included in the 2019/20 budget and adjusted with an inflation related increase going forward.

***6. Contracted Services***
There has been no increase in contracted services budget and it has taken into account the 8.35% cost of living adjustment increase for seconded employees as well as the filling of all vacant posts as per the board approved macro-organogram

Contracted services consist out of:
- Consultants and professional services,maintenance, outsourced services and staff costs - The budgeted amount for the outer years remains stable with inflationary increases.

***7. Other***
Other expenditure budget increased with an inflationary increase of 8% and includes IT, electricity ,water , licences etc. However it includes the budget for "services in kind" which is for the costs of various services received from the City.
A budget of R2.6million has been included as part of services in kind for the 2020/21 year

| | | | | 1.2 | Delay in the conclusion of the sign off of the naming rights of the stadium (no offers received - possibly due to lack of a confirmed anchor tenant) | Long term sustainability plan - implement marketing strategy as approved by Board. | R16 Million per annum | 30% | | | | | Signing up of a naming rights partner | 2020/06/30 | 85% | [Nicola Jane Anderson - 2019/11/18 2:39 PM]<br>Currently awaiting offers from 3 companies and ongoing discussions being held with 27 other local and international companies. | Lesley De Reuck |
| | | | | 1.3 | Global economy impacts on event viability | Long term sustainability plan - implement marketing strategy as approved by Board. | R14 Million per annum | 30% | | | | | The PSL and Big Concert deals to be concluded | 2019/12/31 | 100% | [Nicola Jane Anderson - 2019/11/18 9:46 AM]<br>The PSL deal has been concluded and a 3 year MOU with Big Concerts has been signed. | Lesley De Reuck |
| | | | | | | | | | | | | | Detailed contract with WPR to be negotiated and concluded post the signing of the HOA | 2020/06/30 | 5% | [Nicola Jane Anderson - 2019/11/18 12:38 PM]<br>This is dependent on the HOA to be signed - Council has given the permission for HOA to be signed and HOA has been signed. | Lesley De Reuck |
| 2 | Human resource capacity constraints | Events and events management | • Delays in appointment of required staffs<br>• Inefficiencies<br>• Delays in service delivery<br>• Skills gap<br>• Inability to implement succession plan<br>• Current non financial capacity | 2.1 | Current approved structure does not yet have the staffing structure in place to deliver on commercialisation as per SDA | Current departments fulfilling necessary roles | R16 Million per annum | 30% | 7 | 7 | 49 | | Create commercialisation implementation structure/model | 2019/12/31 | 85% | [Nicola Jane Anderson - 2019/11/27 1:00 PM]<br>The commercialisation structure and model have both been approved by the board and implementation is taking place and posts are currently being filled. | Lesley De Reuck |
| | | Provide stadium with general facilities operations | | | | | | | | | | | Redesign the organogram, structure to enable commercialisation and the filling of these posts | 2020/06/30 | 85% | [Nicola Jane Anderson - 2019/11/18 9:54 AM]<br>The current structure has been approved by the board and currently filling the posts. | Lesley De Reuck |
| | | Finance, legal and administration management | | 2.2 | Dependency on Corporate HR for recruitment of approved positions | Implementation of and reliance of City processes and procedures | | 30% | | | | | Mitigated by existing control | 2020/06/30 | 100% | [Nicola Jane Anderson - 2019/11/18 10:25 AM]<br>To be reassessed during the next financial year risk register update. To be escalated if it becomes necessary. | Lesley De Reuck |
| 3 | Non compliance with legislation | Finance, legal and administration management | • Non compliance to VAT Act<br>• AG finding<br>• Non compliance with Companies Act, MFMA and GRAP standards<br>• Not meeting legal requirements<br>• Penalties and interest<br>• Reputational damage<br>• Intervention by shareholder | 3.1 | Dependence on part time financial support from City and absence of a full time fully committed CFO | Assistance of the City's Finance Directorate and the current internal department dealing with the financial activities. | Not assessed | 60% | 6 | 7 | 42 | | Appoint a full time CFO | 2019/11/30 | 100% | [Nicola Jane Anderson - 2019/11/15 3:43 PM]<br>The CFO has been appointed and will start on 1 Dec 2019. | Lesley De Reuck |
| | | | | 3.2 | Dependence on part time legal support from the City | Reliance/dependency on City of Cape Town legal team (dedicate legal resource) / regular external legal services procured. | | 70% | | | | | Company Secretary to be appointed | 2020/06/30 | 10% | [Nicola Jane Anderson - 2019/11/18 10:26 AM]<br>The appointment of a company secretary will be going out on tender. | Lesley De Reuck |
| 4 | Destruction of the stadium infrastructure to the degree that service delivery would be affected | Finance, legal and administration management | • Reputational damage<br>• Delays / cessation of service delivery<br>• Financial / revenue impact | 4.1 | Force majeure | Continuity plans and SOP's with various role players in place | R8,6 Billion | 70% | 7 | 2 | 14 | | | | | | |
| | | | | | | Insurance coverage of the Stadium | | 70% | | | | | | | | | |

**Disclaimer:** The Cape Town Stadium Company is responsible and accountable for risk management. IRM's responsibilities are limited to the facilitation of the risk identification, assessment and treatment processes. Risks assessed with a rating below the approved risk acceptance level remain the responsibility of the risk owner and should not be regarded as "inferior risks". These require management actions but will not be monitored during IRM processes.
Sign-off serves as a certification that inter alia:
- Contributing Factors which are accepted implies that the existing controls will be maintained;
- Risks were not manipulated in any manner and / or omitted on purpose;
- Reasonable assurance can be provided that key risks have been identified;
- "SMART" actions were developed taking into consideration accountability; sustainability and systems to facilitate action implementation.
- Sufficient resources are available to implement actions developed.

Risk Owner: L de Reuck

STAD KAAPSTAD

# ANNEXURE 35

# CAPE TOWN STADIUM (MUNICIPAL ENTITY) – TARIFF POLICY & TARIFFS

# CAPE TOWN STADIUM MUNICIPAL ENTITY TARIFF POLICY

## 1. PREAMBLE

The City has established the Cape Town Stadium SOC as a municipal entity to manage and operate the Cape Town Stadium and the surrounding precinct.

As the Stadium is to be run on commercial principles and the board proposes the fees and charges in respect of its commercial activities which is submitted to Council for approval.

Similarly, there are non-commercial/ community based activities that will be conducted and that these need to fall within the tariff structure determined by Council.

## 2. FEES AND CHARGES FOR COMMERCIAL ACTIVITIES

The Cape Town Stadium SOC's board proposes fees and charges in respect of individual events and other events and activities that are of a commercial nature which is submitted Council for approval.

## 3. TARIFFS FOR NON COMMERCIAL AND COMMUNITY /CHARITY EVENTS

The Cape Town Stadium SOC must charge the tariffs relating to Non Commercial and Community /Charity activities set out in the Sundry Tariffs, as provided for in the Schedule of Tariffs of the City.

**THE CHIEF EXECUTIVE OFFICERS DELEGATIONS APPLICABLE AND INDICATED UNDER THE "GENERAL REMARKS" COLUMN IN EACH CATEGORY OF TARIFFS SUBMITTED ARE:**

**EVENTS:**

(i) To negotiate and conclude contracts with global sport, artistic, music or other global/national and local icons/organizations/clubs/associations/bodies with their South African or International agents

(ii) To negotiate and conclude vending and commercial opportunities with key products, services, food, beverages and merchandise as may be presented from time to time, based on an agreed flat rate fee to be determined, or such percentage of sales turnover as may be agreed.

(iii) To negotiate and conclude all agreements and business contracts related to the holding of events in the Cape Town Stadium, subject to the statutory provisions pertaining to Supply Chain Management processes.

(iv) To negotiate and conclude strategic events and other opportunities with members of the event and marketing community opportunities as may be presented from time to time, based on an agreed allocation of funding to be determined or such value in kind as may be agreed in consultation with the board.

(v) Approve a maximum of 40% discount on Venue Rental for all City Owned partnered events.

| DP4446 | | Rehab of existing ballustrades on Nelson Mandela Boulevard |
| DP4447 | | Repair of the handrails on Princessvlei road bridge over the Cape Flats railway line, Plumstead |
| DP4448 | | Repair of the balustrades and retaining wall on Alexandra Road Bridge at the Vincent Palloti Hospital, Ndabeni |
| DP4449 | | Repair of Jutland Road Bridge over Roeland Street, Cape Town |
| DP4451 | | Term tender for design, manufacture, delivery, installation and commissioning of power transformers |
| DP4453 | | Repairs and maintenance of the City of Cape Town's railway sidings for Epping 1 and 2, Sacks Circle, Atlantis Industrial, Vissershok Landfill Site, Athlone Refuse Transfer Station and N'Dabeni |
| DP4455 | | Term tender for the replacement of water meters with nominal bore between 15-40mm and installation of new connections |
| DP4456 | | Term tender for the replacement of water meters with nominal bore between 50-150mm and installation of new connections |
| DP4458 | | Supply and delivery of volumetric water meters with electronic flow controllers and related accessories |
| DP4466 | X | Construction of IRT Phase 2A Depot. |
| DP4473 | | Term tender for the maintenance and repair of water mains and related Infrastructure |
| DP4480 | X | Construction of Phase 2A Trunk Infrastructure, E1 - Govan Mbeki (M9) Heinz to Sheffield Road |
| DP4481 | X | Construction of Phase 2A Trunk Infrastructure, E2 - Govan Mbeki (M9) Sheffield to Intsikizi Road |
| DP4482 | X | Construction of Phase 2A Trunk Infrastructure, E3 - Govan Mbeki (M9) Intsikizi to Morning Star Road |
| DP4483 | X | Construction of Phase 2A Trunk Infrastructure, E4 - Govan Mbeki (M9) Morning Star to Mew Way |
| DP4485 | X | Construction of Phase 2A Trunk Infrastructure, E6 – AZ Berman Stock to Mitchells Plain Town Centre |
| DP4488 | X | Construction of Phase 2A Trunk Infrastructure, W1 Imam Haron Road/Chichester Road (M24) from Stanhope Road to M5 Freeway |
| DP4489 | X | Construction of Phase 2A Trunk Infrastructure, W2 Turfall Road (M24) from M5 Freeway to Castor & Benona Road Intersection |
| DP4490 | X | Construction of Phase 2A Trunk Infrastructure, W4 Govan Mbeki (M9) from Jan Smuts Drive (M17) to Heinz Road |
| DP4493 | | Bulk printing and postal processing tender |
| DP4495 | | Supply and delivery of emergency ration packs |
| DP4496 | | Supply and delivery of plumbing materials |
| DP4499 | | Appointment of professional service provider: Due Diligence |
| DP4500 | | Supply and delivery of various batteries and 10W battery chargers |
| DP4510 | | Distribution of newsletter and ad hoc material |
| DP4512 | | Supply and delivery of analogue radios, repeaters and accessories |
| DP4513 | | Supply and delivery of tetra radio equipment |
| DP4514 | | Media monitoring and analysis |
| DP4518 | | Maintenance of sewer pipelines |
| DP4519 | | Term tender for repairs and maintenance of sewer infrastructure |
| DP4524 | | Supply, delivery and installation of static shelving, mechanical mobile systems and industrial racking for the City of Cape Town |
| DP4527 | | Supply and installation of printer management solutions |
| DP4546 | | Calibrating, servicing and repairs of medical equipment for City of Cape Town facilities |
| DP4577 | | Construction of New MRF building and ancillary works for Coastal Park Integrated Waste Management Facility, Coastal Park Landfill, City of Cape Town |
| DP4578 | | Construction of new mechanical processing plant for Coastal Park Integrated Waste Management Facility, City of Cape Town |
| DP4603 | | Driver and driver related skills training to the City of Cape Town |
| DP4605 | | Data network devices and services |
| DP4608 | X | Supply, support, maintenance of ICT security related infrastructure, software, services and licensing |
| DP4610 | | Provision of professional services for planning, engineering, design and project management for the establishment of telecommunications infrastructure |
| DP4611 | X | Supply and maintenance of data network cabling |
| DP4612 | | Supply, install and maintain telecommunication equipment |
| DP4613 | | Telecommunications network management services fulfilment & assurance |
| DP4615 | | Provision of accredited service providers to provide archives & records management programme, NQF level 4, for the City of Cape Town |
| DP4635 | | Provisioning and support of MITEL and datavoice equipment |
| DP4636 | | Cellular data services (mobile data, internet and SMS) |
| DP4639 | | Telecommunications voice systems support and provisioning |
| DP4640 | | Supply, install and maintenance of telephony PABX |
| DP4641 | | Supply and delivery of SIP, analogue and other telecommunication devices |
| DP4642 | | Provision of internet services to the City of Cape Town |
| DP4643 | | Appointment of a panel of telecommunications service providers |

| Reference Number | Section 33 Process | Description |
|---|---|---|
| DP4647 | X | Panel of investigators and initiators |
| DP4661 | X | Maintenance, service and calibration of micro 2000 online residual chlorine analysers for Utility Services |
| DP4670 | | Panel of service providers for office relocation - City-wide |
| DP4674 | | Provision of locksmiths services at various Council owned buildings |
| DP4675 | | Supply and delivery of various uniforms for the Biodiversity Management Branch for the City of Cape Town |
| DP4678 | | Supply and delivery of ring current transformers |
| DP4680 | | Supply and delivery of insulated hand tools UP 1000Vac or 1500dc |
| DP4682 | | Provision of an accredited service provider to provide training and professional services for various plant and equipment operators. |
| DP4722 | | Weed harvester |
| DP4726 | | Provision of professional services for the design and construction supervision of the Zevenwacht Reservoir |
| DP4728 | | Civil contractor for the construction of Bloubos Road to provide access to the Housing project on Farm 920 SLP |
| DP4730 | | Appointment of contractor: Upgrade of Mfuleni Taxi Rank |
| DP4733 | | Construction and refurbishment of depots |
| DP4734 | | Alteration and conversion of Goodwood Reservoir into an archive record storage |
| DP4738 | | Refurbishment Wynberg Court |
| DP4739 | | Construction of Blue Downs Court |
| DP4741 | | Bulk stormwater reticulation construction downstream from Erf 7309 Hout Bay (Imizamo Yethu) |
| DP4743 | | Construction contractor required for top structures for Beacon Valley housing project |
| DP4744 | | Construction contractor for Pook se Bos housing project |
| DP4745 | | Construction contractor required for Harare 190 |
| DP4765 | | Bulk stormwater reticulation construction - downstream from Erf 7309, Imizamo Yethu (Hout Bay) |
| DP4766 | | Outcomes-based workforce development project |
| DP4769 | | Appointment of an authorised AutoDesk reseller |
| DP4770 | | Appointment of a Certified Microsoft (MS) Licensing Solution Provider (LSP) |
| DP4771 | | Provision of environmental upgrades, maintenance and support in data centres, server rooms and remote sites |
| DP4772 | | Panel of service providers for corporate events : Event safety officers and security |
| DP4776 | | Additional panel of service providers of event coordinators for corporate events |
| DP4778 | | Supply and delivery of various small plant |
| DP4779 | | Maintenance and repair services for HV GIS |
| DP4786 | X | Supply, installation and maintenance of Que Management Systems |
| DP4806 | X | Appointment of panels of civil engineering contractors for the construction of civil infrastructure related to Government Subsidied Housing Developments |
| DP4817 | | Provision of maintenance services for Blue Plant at Solid Waste Disposal Facilities in the City of Cape Town |
| DP4818 | | Conducting of pauper/destitute burials and cremations |
| DP4825 | | Term tender for the maintenance of the river systems using mechanical and labour-intensive methods. |
| DP4830 | | Supply and delivery of MV HRC current limiting fuse links |
| DP4833 | | Supply and delivery of various moving, towing and recovery vehicles for Traffic Services |
| DP4836 | | Term tender for Groundwater Development in the TMG Aquifer: Mechanical and electrical Works |
| DP4837 | | Construction of infrastructure for Fishermans Lane: construction of revetments to support parking area and associated infrastructure for the upgrading of coastal infrasturcture and amenities at Strandfontein |
| DP4838 | | Seaforth: Upgrade of coastal amenity and associated infrastructure |
| DP4847 | | The construction of 404 community residential units in Langa |
| DP4848 | | The construction of 255 community residential units in Langa |
| DP4854 | | Provision of landscape maintenance services |
| DP4861 | | Construction for the decommissioning of the Radnor Landfill Site |
| DP4863 | | Construction of the Fisantekraal community based recycling facility |
| DP4869 | X | Supply and delivery of data analytic licencing and software |
| DP4871 | X | Delivery and supply of an audit electronic working paper software and licenses |
| DP4878 | | Provision of various psychometric and behavioural assessment instruments for use by the Talent Assessment Team in selection and development assessments for City directorates |
| DP4885 | | Maintenance, testing, investigations and repairs of high voltage cable installations. |
| DP4886 | | Term tender for maintenance upgrades and refurbishment of facilities within City of Cape Town |
| DP4898 | | Rehabilitation of portions of Jakes Gerwel Drive between the N1 and the N2 |
| DP4901 | X | Design-build of mechanical and electrical works for the biosolids beneficiating facility at the Cape Flats Wastewater Treatment Works |
| DP4902 | X | Construction of a porposed access road for the biosolids beneficiating facility |
| DP4903 | | Civil and structural works for post digester nutrient treatment of the biosolids beneficiating facility at Cape Flats wastewater treatment works |

| Reference Number | Section 33 Process | Description |
|---|---|---|
| DP4904 | | Design - build of mechanical & electrical works for post digester nutrient treatment of the biosolids beneficiating facility at Cape Flats wastewater treatment works |
| DP4909 | | Construction of civil engineering services for backstage 2 informal settlements, Khayelitsha |
| DP4916 | | Appointment of a certified adobe reseller |
| DP4925 | | Construction of a new clinic in Fisantekraal |
| DP4929 | | Fencing term tender com services and City-wide |
| DP4937 | | Repairs, maintenance and upgrades to swimming pool infrastructure in the City of Cape Town. |
| DP4940 | | Completion of construction of the refuse bag store building at Weltevreden Cleansing Depot |
| DP4955 | | Supply and delivery of pure, high quality, food grade salt for on-site electrolytical chlorination at Glen Garry, Plattekloof and Tygerberg Reservoirs |
| DP4963 | | Term tender to appoint a contractor for the removal of illegal building structures in City of Cape Town |
| DP4981 | | Provision of panel of service providers: Professional people and transformation services for Organisational Effectiveness & Innovation (OEI) |
| DP4982 | | Provision of external coaching capacity in support of City of Cape Town coaching practice |
| DP4984 | | Supply, delivery and installation of industrial heavy duty seating/benches for the City of Cape Town |
| DP4987 | | Maintenance of control systems infrastructure at various City of Cape Towns sites |
| DP5002 | | Supply, maintenance and servicing of gearboxes and associated works – City of Cape Town. |
| DP5004 | | Mechanical screens - servicing, repair and maintenance |
| DP5006 | | Repair, maintenance and servicing of pumps for water and waste service within City of Cape Town |
| DP5007 | | Supply and delivery of emergency meals for staff during disasters & or incidents for the City of Cape Town. |
| DP5023 | | Provision of training for additional skills required in an electrical environment |
| DP5024 | | Supply, install and connect virtual reality training system and components |
| DP5029 | | Re-construcution of Bloekombos community hall |
| DP5030 | | Construction of New Zakele Clinic |
| DP5037 | | The design, installation, commissioning and maintenance of rooftop solar photovoltaic systems for municipal facilities. |
| DP5041 | X | Inspection, service and repair of the waterborne fire protection system at various municipal facilities |
| DP5044 | | Demolition of redundant structures City-wide |
| DP5057 | | Provision of cleansing services for seasonal programmes |
| DP5058 | | Provision for the handling, chipping and removal of garden waste service to solid waste facilities within the City of Cape Town |
| DP5060 | X | Provision of professional services: Integrated public transport services - industry transition |
| DP5063 | X | Service provider to provide a mobile solution for HR Employee Self Service |
| DP5064 | | Provision of a service provider: End-user productivity and technical IT training |
| DP5065 | | The provision of an Employee Assistance Programme (EAP) service for the City of Cape Town |
| DP5066 | | Term tender for design, manufacture, delivery, installation and commissioning of fire protection for power transformers |
| DP5067 | | Term tender for the extension upgrade and maintenance of treated effluent and alternative water sources infrastructure |
| DP5071 | | Refurbishment of the Vissershok Landfill Leachate Treatment Plant |
| DP5083 | | POPIA Training |
| DP5087 | | Term tender for mechanical and electrical maintenance and full operation of the existing air-conditioning installations at Cape Town Civic Centre, Transport Management Centre, Strand Street concourse and other corporate facilities |
| DP5091 | | Supply, support, maintenance of telecommunications network security infrastructure hardware, software, services and licenses |
| DP5094 | | Upgrade of Glencairn parking areas and walkway to tidal pool |
| DP5097 | | Electrical control panels for CFA & AA boreholes |
| DP5099 | | Period tender for optic fibre access builds |
| DP5107 | X | Procurement of firewall networking equipment for SCADA services Bloemhof control. |
| DP5111 | | First line response – Distribution area East, North and South |
| DP5113 | X | Provision of operation and maintenance, the supply and distribution of fare cards and other related services of the Automated Fare Collection (AFC) System |
| DP5139 | | Provision of security services at various council facilities/ad hoc sites |
| DP5141 | | Term tender lifts and escalator maintenance at various municipal buildings within the City of Cape Town |
| DP5150 | | Provision of an accredited service provider to provide and accredited administration and generic skills training for the City of Cape Town employees |
| DP5185 | | Supply and erect emergency temporary housing units |
| DP5199 | | Maintenance of CCTV systems and equipment for the CT Metropolitan Police Department |
| DP5203 | | Provision of services for managing advertising opportunities at MyCiti bus stations, bus stops, public transport interchanges and on MyCiti buses |
| DP5207 | X | Vehicle operator agreement for MyCiti N2 Express |
| DP5211 | | Civil services (internal and bulks and electrical) contract pertaining to the proposed ACSA - Symphony Way housing development for area B. |

| Reference Number | Section 33 Process | Description |
|---|---|---|
| DP5212 | | Provision of a professional service provider to provide Smart Driver Training for City of Cape Town |
| DP5214 | | Provision of professional services for the development of an evacuation simulation transport model for the Koeberg Nuclear Power Station (KNPS) |
| DP5215 | | Design - build of Fine Bubble Diffused Aeration (FBDA) System and blower replacement at Westfleur WWTW |
| DP5220 | | Pickwick transitional housing- facilities and occupant management |
| DP5224 | X | Provision of professional services in respect of the design and construction of Phase 2A infrastructure and feeder support infrastructure (East) |
| DP5242 | | The works for this project include the reinstatement of trenches within road reserves and council property. |
| DP5245 | | Asanda Village Wetland Parkland: Erf 32680 and 29865 |
| DP5255 | | Supply, delivery, installation and commissioning of a brake testing machine for light & heavy vehicles |
| DP5256 | | Professional security services to undertake security risk assessments City-wide |
| DP5270 | X | Renewal of mandate for support of the Valuation Business System |
| DP5271 | | City of Cape Town: Civic Centre Podium Basement 1: Chiller replacement |
| DP5275 | | The provision of electronic functions for tracing, adverse credit listing and other related services for the City of Cape Town |
| DP5278 | | Repairs and maintenance services for Steenbras Power Station and gas turbine generators |
| DP5284 | X | Automated Meter Reading (AMR), Advanced Metering Infrastructure (AMI) Feasibility Study and Project Management Programme |
| DP5285 | | Supply and delivery of 12kV auto-reclosers |
| DP5299 | | OPM cloud computing service provider |
| DP5300 | | Data and analytics training |
| DP5308 | X | Supply, install and maintain facilities management enterprise systems |
| DP5312 | | Geotechnical investigations for the upgrade of the existing Philippi Collector Sewer |
| DP5313 | | Towing & recovery of light and extra heavy vehicles |
| DP5317 | X | Supply, delivery and installation of computer and related equipment locking devices |
| DP5318 | | Microsoft Enterprise Support Services |
| DP5319 | X | Construction and upgrade of the Somerset West Public Transport Interchange |
| DP5320 | | Provision of monitoring & evaluation training services to City of Cape Town officials for a 36 month period |
| DP5321 | | Provision of backup maintenance services on aeration blower systems at various City sites |
| DP5324 | | Construction of new workshop at the Vissershok Landfill Site |
| DP5326 | | Professional service provider for operating safe space for street people |
| DP5372 | | Strand seawall storm damage: Ph3 |
| DP5375 | X | Design – build of mechanical and electrical works for the upgrade and expansion of Potsdam Wastewater Treatment Plant |
| DP5376 | X | Civil work for the upgrading and expansion of Potsdam Wastewater Treatment Plant |
| DP5406 | | Procurement of surveying equipment |
| DP5408 | | Bikini Beach seawall emergency repairs – Gordon's Bay |
| DP5409 | | The rehabilitation and upgrade of class 4 and 5 roads and related works in Kalksteenfontein |
| DP5410 | | The rehabilitation and upgrade of class 4 and 5 roads and related works in Bonteheuwel |
| DP5411 | | Rehabilitation of various roads in Bishop Lavis |
| DP5414 | | Term tender for design, supply, delivery to site, off-loading, installation, testing, commissioning and maintenance of 75.5kV and 145kV switchgear, associated equipment and civil works |
| DP5418 | | High Voltage power transformer tap changer supply and delivery maintenance of labour services and non stock material kits |
| DP5419 | | Supply and delivery of specialised personal protective clothing for small plant and equipment operators in Recreation and Parks. |
| DP5420 | | Supply and delivery of various motorcycles |
| DP5424 | | Smart Pole Pilot RFP |
| DP5433 | | Term tender for minor stormwater infrastructure works |
| DP5438 | | Annual Broad-Based Black Economic Empowerment (B-BBEE) Verification Services required for the City of Cape Town Metropolitan Municipality for the periods 2018/19 - 2021/22 |
| DP5439 | | Hire of buses |
| DP5440 | | Provision of a service solution to provide acoustic surveillance for gunshot detection |
| DP5442 | | Mechanical maintenance of TMGA Wellfields |
| DP5444 | | Term tender for the drilling and testing of production boreholes in the TMG Aquifer |
| DP5445 | | Term tender for groundwater development in the TMG Aquifer: civil works |
| DP5479 | | Supply and delivery of tyre related services as and when required |
| DP5482 | | Supply and delivery of retread tyres, retreading and related services as and when required |
| DP5502 | | Provision of professional services, training and mentoring in respect of the design and construction monitoring of treated effluent and other alternative water sources infrastructure |
| DP5508 | | Supply and delivery of firearm safes |
| DP5514 | | Term tender for the rehabilitation of Cape Flats Bulk Sewers using CIPP |

| Reference Number | Section 33 Process | Description |
|---|---|---|
| DP5536 | | Supply and install of additional telecoms equipment |
| DP5538 | | Internal alterations to the Muizenberg Cleansing Depot |
| DP5541 | | Appointment of an independent entity to updating and drafting/developing of current and new uniform and accessories specifications |
| DP5542 | | Appointment of an independent Sanas accredited service provider to assist with inspections and testing of textile, clothing, footwear, leather, metals badges and insignia for City of Cape Town |
| DP5543 | | Purchase of anti-poaching vessels |
| DP5546 | | 2 x Custom CAMA Consultants for 3 year period |
| DP5565 | X | Telecommunication Infrastructure Wholesale partnership |
| DP5566 | | Supply and delivery of tractors (Re-advertised - 213G/2018/19) |
| DP5569 | | Control of terrestrial and aquatic invasive plants and removal and disposal of biomass and litter from sites in area north and central (area north & central) |
| DP5571 | | Panel of event coordinator service providers for events of the City of Cape Town. |
| DP5572 | | Panel of catering service providers for events of the City of Cape Town |
| DP5577 | | Appointment of a digital service provider to enable accesibility of real estate related information. |
| DP5730 | | New term tender for specialised road markings (thermo- and cold-plastic material) services to provide road marking with increased service life and durability, requiring fewer maintenance interventions and service interruptions. |
| DP5738 | | Printing of leaflets (Re-advertisement of 044S/2019/20) |
| DP5739 | X | Licensing and software support agreement for oblivision oblique imagery viewing software |
| DP5741 | | Maintenance of stormwater infrastructure by mechanical methods |
| 291G/2019/20 | | The supply and delivery of refreshments. |

# 1. Introduction

The purpose of the annual budget circular is to guide municipalities with their compilation of the 2020/21 Medium Term Revenue and Expenditure Framework (MTREF). This circular is linked to the Municipal Budget and Reporting Regulations (MBRR); and strives to support the budget preparation processes of municipalities so that the minimum requirements of the MBRR promulgated in 2009 are achieved.

In 2010, the National Treasury introduced the local government budget and financial reform agenda. Since then several projects to further this agenda have been introduced. The recent implementation of the municipal Standard Chart of Accounts *(m*SCOA*)* and the accompanying "game changers" signals a smarter way forward to strengthening local government finances.

Among the objectives of this budget circular is to demonstrate how municipalities should undertake the annual budget preparation in accordance with the budget and financial reform agenda and the associated "game changers".

Municipalities are reminded to refer to the previous annual budget circulars for guidance on budget preparation issues that are not covered in this circular.

# 2. The South African economy and inflation targets

In the 2019 Medium Term Budget Policy Statement (MTBPS) tabled by the Minister of Finance on 30 October 2019, he stated that, he is tabling the 2019 MTBPS in a difficult global and domestic environment. The global growth forecast for 2019 is the lowest since the 2008 financial crisis, weighed down by mounting trade tensions and political uncertainty. Economic activity in two engines of the world economy, namely China and India, is also slowing this year. Policy makers have taken a number of steps to support growth, but there is a risk that these measures will create new vulnerabilities, as interest rates in advanced economies decline. About a quarter of government bonds in these countries have negative yields.

In South Africa, economic growth has continued to stagnate and weaknesses in the world economy are likely to amplify our own challenges. The discussion paper termed the Economic transformation, inclusive growth, and competitiveness released by the National Treasury has proposed a number of economic reforms that might boost GDP growth over the medium and longer term, and support increased investment and job creation. These measures have been broadly agreed on within government. The next step is to implement the reforms urgently. Nevertheless, the economy has continued to weaken with the economic growth projected to grow at 1.2 per cent in the 2020/21 financial year, while long term estimates have fallen prompting government to review its outer year's estimates.

In addition to low growth, South Africa's biggest economic risk is Eskom. Ongoing problems with the utility's operations continue to disrupt the supply of electricity to households and businesses. Government has allocated significant resources to assist Eskom. With the immediate financial restraints lifted, the focus must be on operational problems and restructuring Eskom into three separate entities. Doing so will mark the beginning of a transition to a competitive, transparent and financially viable electricity sector.

South Africa's public finances deteriorated over the past decade; a trend that accelerated in recent years as low growth led to large revenue shortfalls. For 10 years, the country has run large budget deficits. This has put us deeply in debt, to the point where interest payments have begun crowding out social and economic spending programmes. This cannot be sustained.

Government proposed a range of expenditure reductions to restore the public finances to a sustainable position, some of which are likely to be painful. We owe it to future generations to ensure that we are good stewards of our country's resources and that they do not have to pay for faults in our decision-making.

The following macro-economic forecasts must be considered when preparing the 2020/21 MTREF municipal budgets.

**Table 1: Macroeconomic performance and projections, 2018 - 2022**

| Fiscal year | 2018/19 | 2019/20 | 2020/21 | 2021/22 | 2022/23 |
|---|---|---|---|---|---|
| | Actual | Estimate | | Forecast | |
| CPI Inflation | 4.7% | 4.3% | 4.9% | 4.8% | 4.8% |

*Source: Medium Term Budget Policy Statement 2019.*

*Note: the fiscal year referred to is the national fiscal year (April to March) which is more closely aligned to the municipal fiscal year (July to June) than the calendar year inflation.*

# 3. Key focus areas for the 2020/21 budget process

## 3.1 Division of Revenue outlook

Municipal governments face multiple pressures over the period ahead with local government expected to expand access to free basic service to poor households, while ensuring that those who can afford to pay for services do so.

The 2020 MTEF includes large reductions in planned transfers to municipalities. The implication of these reductions is that municipalities will be required to reprioritise projects. Larger reductions in grants are mainly affecting urban municipalities which have the capacity to offset the effects of these cuts from their own revenue investments.

A notable revision is that of the Public Transport Network Grant (PTNG) which has funded 13 cities over the past decade, yet only six have launched operations. In the 2020 MTEF, the grant will be allocated only to 10 cities and these cities will be required to reduce their costs and to demonstrate their effectiveness to receive PTNG funding.

## 3.2 Local government conditional grants and additional allocations

The proposed division of revenue is still biased towards prioritising funding services for poor communities. Allocations to local government subsidise the cost of delivering free basic services to the less fortunate and the poorest of the poor households, and the infrastructure needed to deliver those services, as well as the maintenance of the infrastructure to ensure the sustainable delivery of these services.

The 2019 Medium Term Budget Policy Statement (MTBPS) projects transfers for local government for the 2020 MTREF at R397 billion, of which 62.2 per cent comprise unconditional allocations while the remainder is conditional grant funding. The allocations for local government over the medium term represent 8.6 per cent of non-interest expenditure and a slight decrease from the 8.9 per cent realised in the 2018 budget.

The equitable share and the allocation of the general fuel levy to local government constitutes unconditional funding. Municipalities are reminded that this funding allocation is formula driven and designed to fund the provision of free basic services to disadvantaged communities. Conditional grant funding must be utilised for the intended purpose within the timeframes, as specified in the annual Division of Revenue Bill. Monies not spent must be returned to the fiscus and requests for roll-overs will only be considered in extenuating circumstances.

The annual Division of Revenue Bill will be published in February 2020 after the budget speech by the Minister of Finance. The grant allocations will be specified in this Bill and municipalities must reconcile their budgets to the numbers published therein.

Municipalities are advised to use the indicative numbers presented in the 2019 Division of Revenue Act to compile their 2020/21 MTREF. In terms of the outer year allocations (2021/22 financial year), it is proposed that municipalities conservatively limit funding allocations to the indicative numbers as proposed in the 2019 Division of Revenue Act for 2021/22. The DoRA is available at http://www.treasury.gov.za/documents/national%20budget/2019/default.aspx

### 3.3 Changes to the structure of local government allocations

The local government equitable share formula has been updated to account for projected household growth, inflation and estimated increases in bulk water and electricity costs over the MTEF period.

Large urban municipalities continue to underinvest in infrastructure, primarily because of poor programme and project preparation practices, leading to long delays, higher costs and breakdowns in service delivery. While public and private capital funding is available, these weaknesses translate into low levels of effective demand from the municipalities.

To address these problems, from 2020/21 government will introduce dedicated grant funding for large urban municipalities. Eligible municipalities will receive co-financing on a declining basis over three years. Financing will be conditional on establishing a municipal project preparation fund and an infrastructure delivery management system, and achieving targets for programmes and projects under preparation. Funding for this new facility will be reprioritised from existing allocations to municipalities.

Government is also working with municipalities to increase their revenue raising potential. The Municipal Fiscal Powers and Functions Amendment Bill, which will be tabled shortly, will standardise the regulation of development charges. Development charges are the mechanism by which municipalities recover the capital costs of connecting new developments to infrastructure for water, roads, electricity and other services. Currently, these charges are frequently below cost, so municipalities effectively subsidise the provision of infrastructure to businesses and other developments, reducing their ability to subsidise infrastructure directly for lower-income residents.

The change could increase municipal revenues for capital spending by an estimated R20 billion a year. Several efforts are also under way to improve the effectiveness of transfers to rural municipalities. The possibility of using municipal infrastructure grant funds to buy waste management vehicles, which must be purchased through a contract facilitated by the National Treasury to minimise costs, is being investigated to expand services in rural areas. Funds may be reprioritised between water and sanitation grants to accelerate the completion of regional bulk water schemes.

The Department of Energy will complete an electrification master plan to guide the future allocation of funds between the Eskom, municipal, and non-grid components of the Integrated National Electrification Programme. The Department of Transport will establish a national database for all road traffic and condition data to inform the prioritisation and monitoring of road maintenance across all roads.

## 3.4 Addressing unfunded budgets in local government

A revised strategy to address municipal financial performance failures has been endorsed by the Budget Council and Budget Forum (the respective intergovernmental forums for provincial and local government finances). This strategy is based on an analysis of performance failures in governance, financial management, institutional capabilities and service delivery. As part of this strategy, municipalities must ensure that their budgets are adequately funded.

The number of councils adopting unfunded budgets, where realistically anticipated revenue is insufficient to cover planned spending sustainably, increased from 74 in 2016/17 to 126 in 2019/20. The National Treasury, alongside provincial treasuries, has provided extensive advice and support to ensure that municipalities plan affordable expenditure and collect all the revenue owed to them. All municipalities are able to table a funded budget. This is easier for transfer-dependent municipalities as they have more predictable revenue and can plan their spending accordingly.

The 126 municipalities with unfunded budgets were required to table special adjustments budgets to align their spending plans with projected revenues and ensure they have plans in place to pay their creditors (including Eskom and the water boards). Those municipalities that did not table funded adjustments budgets by 15 November 2019 had their December 2019 tranche of the local government equitable share withheld as the MFMA requires that a municipality must table a funded budget.

Municipalities who are finding it difficult to table funded and sustainable budgets should contact National or their respective provincial treasury for assistance to reprioritise their budgets.

## 3.5 Municipal Standard Chart of Accounts (*m*SCOA)

### *3.2.1 Release of Version 6.4 of the Chart*

On an annual basis, the *m*SCOA chart is reviewed to address implementation challenges and correct chart related errors. Towards this end, Version 6.4 is released with this circular (see Annexure A). Version 6.4 of the chart will be effective from 2020/21 and must be used to compile the 2020/21 MTREF and is available on the link below:

http://mfma.treasury.gov.za/RegulationsandGazettes/MunicipalRegulationsOnAStandardChartOfAccountsFinal/Pages/default.aspx

### *3.2.2 Budgeting, transacting and reporting in an mSCOA environment*

The *m*SCOA Regulations[1] prescribes the uniform recording and classification of municipal budget and financial information at a transaction level. All municipalities and municipal entities had to comply with the Regulations by 01 July 2017.

This standard classification framework enforces the link between planning (IDP) and the budget through the project segment and enables annual reporting and performance management linked to strategic service delivery objectives.

By now, all municipalities should:

- Have acquired, upgraded and maintain the hardware, software and licences required to be and remain *m*SCOA compliant;

[1] The Minister of Finance promulgated the Municipal Regulations on a Standard Chart of Accounts in government gazette Notice No. 37577 on 22 April 2014.

- Budget, transact and report on all six (6) legislated *m*SCOA segments and directly on the core financial system and submit the required data strings directly from this system to the Local Government Portal;
- Lock down the budget adopted by Council on the core municipal financial system before submitting the budget (ORGB) data string to the local government portal;
- Closed the core financial system at month-end as required in terms of the MFMA before submitting the monthly data string to the local government portal; and
- Generate regulated Schedules (A, B, C) directly from the core municipal financial systems.

If your municipality has not achieved the above level of implementation as yet, then the implementation of *m*SCOA in your municipality should be accelerated. Towards this end:

- A road map must be provided to the National and respective provincial treasury to indicate how the municipality will be become *m*SCOA compliant;
- The municipality's *m*SCOA Project Steering Committee (chaired by the Accounting Officer) must meet at least monthly (if not more often) to track the progress against the road map and take corrective action where required;
- The National Treasury (in the case of non-delegated municipalities) and respective provincial treasury (in the case of delegated municipalities) should be invited to the *m*SCOA Project Steering Committee meeting; and
- Progress against the road map should be presented at the Mid-Year Budget and Performance and Budget Benchmark engagements.

### *3.2.3 Changing of the Core Financial System*

Municipalities are reminded to follow the required due diligence processes in terms of MFMA Circulars No. 80 and 93 and *m*SCOA Circulars No. 5 and 6 when they procure a core financial system.

In addition, if a municipality enters into a contract with a system vendor for the maintenance of the procured system that will impose financial obligations on the municipality beyond the three years covered in the MTREF budget, then the provisions of Section 33 of the MFMA should be adhered to.

Service level agreements (SLA) with system vendors must also be managed properly. Penalties, including the termination of the SLA in cases of persistent non-compliance, should be imposed if the agreed upon milestones are not met by the system vendor. Likewise, if a system vendor has delivered on the services agreed upon in the SLA, then the municipality should pay all money owing to the system vendor within 30 days of receiving the relevant invoice or statement, as per the requirements of Section 65(2)(e) of the MFMA.

The National Treasury will conduct independent audits on all municipal core financial systems in 2020 to determine to what extend these systems comply with the functionality requirements and 15 business processes required in terms of *m*SCOA. These results will also inform the new transversal tender for the procurement of municipal financial and internal control systems in 2021. Until these audits have been concluded and the results have been released, municipalities should exercise caution when changing their financial system to avoid purchasing a system that do not comply with the necessary *m*SCOA functionality requirements.

Municipalities are advised to use their internal audit function to ensure that the correct process was followed. Internal audit must ensure that the municipality has complied with the requirements of MFMA Circulars No. 80 and 93, *m*SCOA Circulars No. 5 and 6 and Section 33 of the MFMA when they procure a core financial system and/or enter into an SLA with a

system vendor. The reports on these matters of internal audit must be tabled to the audit committee and at municipal council for consideration.

### *3.2.4 Submission of Borrowing Monitoring and Investment Monitoring Data Strings*

Chapter 3 of the *m*SCOA Regulations provides that the Minister of Finance may determine minimum business processes and system requirements through issuing a gazette. MFMA Circular No. 80 provided guidance on these requirements for all categories of municipality (A, B and C). The Request for Proposal (RFP) issued on 4 March 2016 for the appointment of service providers for an integrated financial management and internal control system for local government (RT25-2016 published in Tender Bulletin No. 2906), provided further guidance on the requirements applicable to a specific category of municipality.

It should be noted that National Treasury will expand the requirements applicable to categories B and C municipalities in 2020 to include business processes and system functionality relating to investment, borrowing or performance management. The expanded requirements will provide the basis for the new transversal contract for the appointment of service providers for an integrated financial management and internal control system for local government that might be issued in 2021, as well as the minimum business and system requirements that will be gazetted at a future date, as envisaged in the Regulation.

In the interim, categories B and C municipalities that have not procured investment, borrowing or performance management modules, will have to prepare and submit their quarterly Investment Monitoring and Borrowing Monitoring data strings to the Local Government Portal manually.

### *3.2.5 Cash Flow Reconciliation*

The cash flow information presented on Table A7 of Budget Schedule A and Table B7 of Adjustments Budget Schedule B did not reconcile to the corresponding data strings for the past two financial years. One of the contributing factors to this was that there were errors in the linkages in the segment item: asset and liabilities on the Local Government Database. National Treasury has now corrected these linkages in the segment item: asset and liabilities.

It was further noticed that a number of municipalities do not use the movement accounts correctly in the *m*SCOA chart which distorts the figures reported in the cash flow tables. Guidance on the use of movement accounts is provided in **Annexure A**.

## 4. The revenue budget

Similar to the rest of government, municipalities face a difficult fiscal environment. Even as demand for services rises, weak economic growth has put stress on consumers' ability to pay for services, while transfers from national government are growing more slowly than in the past. Some municipalities have managed these challenges well, but others have fallen into financial distress and face liquidity problems. These include municipalities that are unable to meet their payment obligations to Eskom, water boards and other creditors. There is a need for municipalities to focus on collecting revenues owed to them, and eliminate wasteful and non-core spending. Municipal budgets will be scrutinised to ensure that municipalities adequately provide to service their debt obligations. Municipalities must ensure that expenditure is limited to the maximum revenue collected and not spend on money that they do not have.

Municipalities are reminded that the local government equitable share allocation is mainly to fund the costs of free basic services and to subsidise the administrative costs of the smaller and more rural municipalities. The increasing unemployment and growth in the number of

persons per household means that the revenue foregone in respect of free basic services will likely increase and it will become even more difficult to collect revenue. The household budget will be under pressure and trade-offs will be applied as it may be unaffordable to pay all household expenses with regularity.

National Treasury encourages municipalities to maintain tariff increases at levels that reflect an appropriate balance between the affordability to poorer households and other customers while ensuring the financial sustainability of the municipality. The Consumer Price Index (CPI) inflation is forecasted to be within the upper limit of the 3 to 6 per cent target band; therefore, municipalities are required to ***justify all increases in excess of the*** **projected inflation target for 2020/21** in their budget narratives, and pay careful attention to the differential incidence of tariff increases across all consumer groups. In addition, municipalities should include a detail of their revenue growth assumptions for the different service charges in the budget narrative.

### 4.1 Maximising the revenue generation of the municipal revenue base

Reference is made to MFMA Circular No. 93, item 3.1. The emphasis is on municipalities to comply with Section 18 of the MFMA and ensure that they fund their 2020/21 MTREF budgets from realistically anticipated revenues to be collected. Municipalities are cautioned against assuming collection rates that are unrealistic and unattainable as this has been identified as a fundamental reason for municipalities not attaining their desired collection rates.

It is therefore essential that municipalities pay attention to reconciling the valuation roll data to that of the billing system to ensure that revenue anticipated from property rates are accurate. Municipalities are encouraged to undertake this exercise as a routine practice. The list of exceptions derived from this reconciliation will provide an indication of where the municipality may be compromising its revenue generation in respect of property rates. A further test would be to reconcile this with the deeds office registry. In accordance with the MFMA Circular No. 93, municipalities are once more requested to submit the required information to the National Treasury by no later than 7 February 2020.

The above information must be submitted on a CD or USB to the National Treasury, for attention:

### 4.2 Setting cost reflective tariffs

Cost reflective tariff setting is a requirement of Section 74(2) of the Municipal Systems Act, 2000 (Act No.32 of 2000) which states that tariffs must "*reflect the costs reasonably associated with rendering the service*". This is meant to assist municipalities to generate sufficient revenue to fully recover their costs, deliver services to customers sustainably and invest in infrastructure that promotes local economic development.

The starting point for sound tariff setting is a credible budget. A credible budget is one that ensures the funding of all approved items and is anchored in sound, timely and reliable information on expenditure and service delivery (FFC, 2011). Credible budgets are critical for local government to fulfil its mandate to sustainably provide services. **If the budget is not credible then tariffs will not result in financial sustainability even if they are set using a sound methodology**.

A credible expenditure budget reflects the costs necessary to provide a service efficiently and effectively:

- An *effective* budget is one that is adequate to deliver a service of the necessary quality on a sustainable basis.
- An *efficient* budget is one that delivers services at the lowest possible cost.

In many cases, municipal budgets have costs that are bloated in some areas (high governance and administration costs are one commonly cited example) but inadequate in other areas (inadequate allowance for maintenance is an example). This means that a budget may be both ineffective and inefficient. Before embarking on the tariff setting process, a municipality must assess its budget to determine its efficiency and effectiveness. Ideally, a budget should be zero-based, at least periodically. This would typically require an assessment of what infrastructure is in place and what is needed to operate and maintain this infrastructure.

There are several tools and methodologies to support municipalities in setting tariffs. The common observation is that these tools and methodologies are not aligned. This creates confusion on the approach to be applied. Research has further identified that many municipalities set tariffs through an incremental method and not a scientific method. As a result, many municipalities do not recover the cost of providing that service.

Against this background an exercise was undertaken to bring certainty when setting tariffs. A tool and guide has been developed by National Treasury for this purpose and caters for all categories of municipalities. It also assists those municipalities that lack credible data which is the corner stone for setting a proper tariff. The emphasis is on setting tariffs for the four trading services namely water, sanitation, electricity and solid waste. The methodology follows an approach to tariff setting consistent with existing methodologies developed by SALGA, the NERSA Cost of Supply Framework for electricity, and the DWS Norms and Standards for water services.

The National Treasury Municipal Costing Guide is available on the link below on the National Treasury website.

http://mfma.treasury.gov.za/Guidelines/Documents/Forms/AllItems.aspx?RootFolder=%2fGuidelines%2fDocuments%2fMunicipal%20Costing%20Guide&FolderCTID=0x0120004720FD2D0551AE409361D6CB3E122A08

Setting cost reflective tariffs is the start to improved budgeting and financial sustainability.

**How will reducing Non-Revenue Water and Non-Revenue Electricity bring down the tariffs required?**

Many municipalities have very high levels of Non-Revenue Water (NRW), and some also have high levels of Non-Revenue Electricity (NRE). NRW and NRE can be broken down into 'technical' and 'non-technical' losses*.

*Technical losses* are related to physical losses out of the system. In the case of water, this is

due to pipe bursts and leakages or due to overflows on storage tanks. In the case of electricity, these are due to resistive losses and other similar effects. The cost of real losses sits in the bulk portion of the bulk purchases cost or if a municipality is performing the bulk water function internally, a portion of the costs associated with bulk water treatment and supply. If a municipality reduces its real losses, it will lose less water and electricity from the system and the cost of purchasing water and electricity or treating bulk water will be reduced.

*Non-technical losses* refer to losses due to theft or to metering inaccuracies. In these cases, there is no physical loss of water or electricity: someone is using the water or electricity and simply not paying for it. Reducing non-technical losses will have no effect on the cost of supplying a service but it will have an effect on the volumes sold. Since the tariff is calculated as the revenue required divided by the volume sold, increasing the volume sold will reduce the tariff required.

Reducing technical losses will thus reduce the tariffs required because the cost of supplying the service will be reduced. Reducing non-technical losses will reduce the tariffs required because the volumes sold will be increased.

*Note that the International Water Association (IWA) uses the term 'real losses' and not technical losses, and 'apparent losses' in place of 'non-technical losses'.*

### 4.3 Bulk electricity tariffs

Final electricity bulk price increases for 2020/21 are uncertain at this stage. Although the National Energy Regulator of South Africa (NERSA) has approved a Multi-Year Price Determination (MYPD) for the period from 1 April 2019 to 31 March 2022, Eskom has submitted an urgent application to the courts to revise the bulk tariffs allowed under the MYPD. In their most recent MYPD decision, NERSA allowed for tariff increases of 9.41 per cent in 2019/20, 8.1 per cent in 2020/21 and 5.22 per cent in 2021/22 (for national financial years). However, Eskom disagrees with the way NERSA accounted for the R23 billion per year in fiscal support from government in determining Eskom's allowable revenue for this MYPD period. Eskom has requested that the court to allow revised tariff increases of between 16.6 and 16.72 per cent in 2020/21 and 2021/22. The application has been made on an urgent basis, and a decision could be handed down as soon as early in February 2020.

The difference between municipal and national financial years means that in 2020/21, bulk tariff increases for municipalities will be slightly lower than the figures cited above for increases applicable in the national financial year. NERSA has not yet published guidance on the exact tariffs for the 2020/21 municipal financial year. National Treasury's advice to municipalities is to prepare scenarios for electricity bulk price increases in 2020/21 of between about 7 per cent and 15 per cent (to account for the difference in financial years and the potential outcomes of the court case).

Municipalities should also note that if a court decision is made in February 2020 to allow a higher bulk electricity tariff increase, the decision is likely to be too late for National Treasury to make any changes to the equitable share allocations which will be tabled in the Division of Revenue Bill on 19 February 2020.

### 4.4 Levying of surcharges

Municipal Surcharges are regulated through the Municipal Fiscal Powers and Functions Act (MFPFA) and Local Government Municipal Systems Act (MSA). Section 8 of the MFPFA gives power to the Minister of Finance to prescribe compulsory national norms and standards for imposing "municipal surcharges". Municipal surcharges are defined as: "a charge in excess of the municipal base tariff that a municipality may impose on fees for a municipal service provided by or on behalf of a municipality, in terms of section 229(1)(a) of the Constitution;".

Section 75A of MSA empowers municipalities to "levy and recover fees, charges or tariffs in respect of any function or service of the municipality". Municipalities must also adopt and implement a tariff policy on the levying of fees for municipal services in terms of section 74 of the Systems Act. The tariff policy should then guide the exercise of power given under section 75A. In section 74(2)(f) the Act provides that the tariff policy must reflect at least the following principles:

***"provision may be made in appropriate circumstances for a surcharge on the tariff for a service;".***

*Furthermore, Section 9 of the MFPFA requires a municipality to comply with processes in section 75A (2), (3) and (4) of the Systems Act in levying a surcharge.*

In terms of the process, the Minister of Finance determines the norms and standards that municipalities must comply with in the exercise of their powers in terms of section 75A of the Systems Act. Approval for surcharges is done by the municipality in terms of section 75A of the Systems Act but subject to the norms and standards prescribed by the Minister of Finance in terms of the MFPFA.

The Minister of Finance has not yet prescribed the norms and standards (the power to prescribe is discretionary). The absence of norms and standards does not prevent municipalities from including surcharges in their tariffs as the power to impose a surcharge is given in the Municipal Systems Act. However, if a municipality decide to levy a surcharge, an approval is done by the municipal council in terms of section 75A of the Municipal Systems Act which gives power to municipalities to levy and recover fees, charges or tariffs in respect of any function or service of the municipality.

A surcharge is normally treated as part of the tariff. When a municipality determines a base tariff, it can include a surcharge (added as a separate variable). The municipal base tariff and a surcharge (if applicable) collectively becomes the tariff for a municipal service (such as electricity). The collective tariff must be approved by the municipal council and published for public comments in terms of section 75A of the Municipal Systems Act (MSA). It must also be subjected to the prescribed budget processes in terms of the MFMA.

In the case of electricity, NERSA only approves the base tariff. However, the final tariff that is published for public comments in terms of MSA and MFMA should include the surcharge if the municipality opted to levy it and is approved by the municipal council.

## 5. Funding choices and Budgeting issues

The Circular clearly outlines that, as a result of the economic landscape and weak tariff setting, municipalities are under pressure to generate revenue. The ability of customers to pay for services is declining and this means that less revenue will be collected. Therefore, municipalities must consider the following when compiling their 2020/21 MTREF budgets:

- improving the effectiveness of revenue management processes and procedures;
- paying special attention to cost containment measures by, amongst other things, controlling unnecessary spending on nice-to-have items and non-essential activities as per the Cost Containment Regulations that was issued on 07 June 2019;
- ensuring value for money through the procurement process;
- the affordability of providing free basic services to all households; and
- curbing consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

Accounting officers are reminded of their responsibility in terms of section 62(1)(a) of the MFMA to use the resources of the municipality effectively, efficiently and economically. Failure to do this will result in the accounting officer committing an act of financial misconduct which will trigger the application of chapter 15 of the MFMA read with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings promulgated on 30 May 2014.

### 5.1 Employee related costs

The *Salary and Wage Collective Agreement* for the period 01 July 2018 to 30 June 2021 is still in operation, therefore municipalities need to budget for their employee related costs in line with the multi-year wage agreement, and also ensure the agreement is correctly implemented and applied as per clauses of the agreement.

### 5.2 Remuneration of councilors

Municipalities are advised to budget for the actual costs approved in accordance with the Government Gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of different members of municipal councils published annually between December and January by the Department of Cooperative Governance. Any overpayment to councillors contrary to the upper limits as published by the Minister of Cooperative Governance and Traditional Affairs will be irregular expenditure in terms of section 167 of the MFMA and must be recovered from the councillor(s) concerned.

### 5.3 Budgeting for water under inventory

GRAP 12, paragraph .07 defines inventory as follows:

*"Inventories are assets:*
*(a) in the form of materials or supplies to be consumed in the production process,*
*(b) in the form of materials or supplies to be consumed or distributed in the rendering of services,*
*(c) held for sale or distribution in the ordinary course of operations, or*
*(d) in the process of production for sale or distribution*."

In terms of this definition water should be treated as inventory and should be budgeted and accounted for accordingly. Annexure B to MFMA Circular No. 70 (Municipal Budget Circular for the 2014/15 MTREF) included guidance on the treatment of non-revenue water and electricity. To date the National Treasury has allowed municipalities to either budget for bulk purchasing of water as a direct expense in the Statement of Financial Performance as an interim measure or to account for water under inventory.

Municipalities were cautioned in MFMA Circular No. 93 for the 2019/20 MTREF that the A1 Schedule for the 2020/21 MTREF will be amended in line with the prescripts of GRAP 12. The draft amendments to the A1 Schedule to cater for water under inventory in line with GRAP 12 is attached to the budget circular as **Annexure B**. The amendments are circulated for comments and will be implemented with effect from the 2021/22 MTREF.

In terms of the *m*SCOA definition ***"Inventory consumed water"*** water stock should be treated as follows:

*Water stock must be accounted for as inventory. This will include water purchased and not yet sold at reporting date insofar as it is stored (controlled) in reservoirs and pipes at year end. Water stock also includes any water purification costs incurred for non-purchased water. Pre-purified, non-purchased water should not be capitalised as part of inventory. The cost of water purchased and not yet sold at reporting comprises the purchase price, import duties, and other taxes (other than those subsequently recoverable by the municipalities from the taxing*

*authorities, such as VAT) and transport, handling and other costs directly attributable to the acquisition of finished goods, materials and services. Importantly, trade discounts, rebates and other similar items are deducted in determining the costs of purchase.*

Substantial changes to the A1 schedule were required to accommodate this approach to account for water under inventory.

### 5.4 Budgeting for debt impairment in *m*SCOA

Municipalities are incorrectly using the line item for bad debts written-off under the Item Expenditure segment when budgeting for debt impairment. It should be highlighted that bad debts written-off is not the same as debt impairment. Debt impairment is the provision that the municipality makes for non-payment while bad debt written-off is the irrecoverable debts written off during the financial year as approved by Council per type of service. Therefore, municipalities are advised to use impairment loss under the Item Gains and Losses segment for debt impairment. This provides a breakdown for the different categories that can be impaired, for example, trade and other receivables from exchange transactions: water.

## 6. Conditional Grant Transfers to Municipalities

### 6.1 Non-compliance of in year monitoring

In terms of Section 74(1) of the Municipal Finance Management Act, 2003 (Act No. 56. of 2003) (MFMA), municipalities must submit to the transferring officers, National and Provincial treasuries documents and monthly grant reports as may be prescribed or required. Furthermore, section 12(2) of the Division of Revenue Act, 2019 (Act No. 16 of 2019) (DoRA) states that the municipality, as part of the report required in terms of section 71 of the MFMA, report on the matters referred to in subsection (4) and submit a copy of that report to the relevant provincial treasury, the National Treasury and the relevant Transferring Officer.

There are municipalities that have not been complying with the reporting requirements as stipulated above. Municipalities are reminded that non-submission of monthly reports translates to non-compliance with the MFMA and DoRA. The National Treasury and Transferring Officer will be implementing stringent measures to municipalities that do not comply with the prescripts. This includes, but is not limited to, the stopping and reallocation of conditional grants funding away from municipalities that are non-compliant. Municipalities are encouraged to comply with the reporting requirements in order to avoid withholding or stopping of an allocation. Reporting for conditional grants will also be extended in future to include the information from National Transferring Officers in the *m*SCOA format.

In terms of performance reporting on conditional grants, municipalities and Transferring Officers are urged to pay particular attention to the contents of money spent against conditional grants. Government is not realizing full value for money against the substantial investments it makes through grants. While financial reporting has become a routine matter on reporting, output/outcome based reporting has become important and it requires attention by all stakeholders. Workshops must be initiated across all government institutions to ensure value for money on conditional grants.

### 6.2 Stopping and reallocation in terms of the Division of Revenue Act

National Treasury as part of its in-year monitoring on conditional grants has through the Minister of Finance approved requests from the transferring officers to publish a gazette on stopping and reallocations between grants early in the beginning of the year, 2019/20. The gazette addresses shifting of allocations from underperforming local municipalities to their respective district municipalities, correction of errors against allocations made during the main budget and the conversion of allocations between schedules.

### *Integrated National Electrification Programme*

The Department of Energy (DoE) is stopping and re-allocating funds from the Masilonyana Local Municipality (LM) to Lejweleputswa District Municipality (DM) under the Integrated National Electrification Programme (INEP 5B). The Masilonyana LM and the Lejweleputswa DM have entered into a Memorandum of Understanding wherein it was agreed that the district municipality will implement the electrification project on behalf of the local municipality with the assistance of the Municipal Infrastructure Support Agent (MISA) to verify the work done.

### *Conversion of allocations*

According to Section 21(2)(a) of the 2019 DoRA, National Treasury may, after consultation with the relevant transferring officer, receiving officer and provincial treasury, convert any portion of an allocation listed in Part B of Schedule 5 to one listed in Part B of Schedule 6 if it is satisfied that the conversion shall prevent under-expenditure or improve the level of service delivery in respect of the allocation in question or convert any portion of an allocation listed in Part B of Schedule 6 to one listed in Part B of Schedule 5.

### *Neighbourhood Development Partnership Grant*

The Neighbourhood Development Partnership Programme within the National Treasury is converting funds under the Neighbourhood Development Partnership Grant (NDPG) due to anticipated underspending. The 2019/20 NDPG 5B allocations for West Rand DM and Emfuleni LM will be converted from Part B of Schedule 5 to Part B of Schedule 6.

### *The Municipal Emergency Housing Grant*

An amount of R149.1 million is allocated to Eastern Cape and KwaZulu-Natal municipalities after the Department of Human Settlements (DHS) declared a disaster in municipalities in these provinces. The allocation is done through the Municipal Emergency Housing Grant (MEHG) for the emergency relief to fund the temporary shelters following various disaster incidents namely fire and severe rain that caused damages and affected home owners. Funding for the MEHG remains unallocated in the Division of Revenue Act it only gets allocated upon disaster declaration.

### *Correction of errors in the Division of Revenue Act*

According to Section 16(2) of the 2019 DoRA, for purposes of correcting an error or omission in an allocation or framework published, the National Treasury must on its initiative and after consultation with the relevant transferring officer by notice in the Gazette amend the affected allocation or framework.

The Magareng, Emthanjeni and Prince Albert local municipalities in the Northern Cape and Western Cape province respectively had their 2019/20 MIG erroneously allocated in the Section 16 gazette. The MIG allocation for the Prince Albert LM did not take into account the final sport allocation of R3.6 million which was allocated to the Magareng (R2 million) and the Emthanjeni (R1.6 million) local municipalities.

## 6.3 Invoice Verification against conditional grant expenditure/ Cost reimbursement

National Treasury has over the past two years introduced a system of monitoring all invoices that are paid by municipalities against the transferred conditional grants. The process involves a team of various stakeholders to be periodically placed in municipalities and facilitate verification on all issued invoices to check whether the work done is compliant to the conditional grant framework. This initiative was necessitated by the extent of unauthorized,

irregular and unrecognized expenditure that was being recorded by municipalities through the Auditor General's report. This process will also reduce and ultimately seek to eliminate the extent of misuse of conditional grant allocations.

A selected number of municipalities are earmarked on an annual basis to be supported through this process and transfers are only made to these municipalities once the team is satisfied after verification of the invoices has taken place. These processes assist against the transfer of funds for projects that are not ready for implementation, but at the same time recognizes municipalities that are spending well and incentivizes them for the good work.

Furthermore, in instances where a local municipality is unable to deliver the current year's projects, this process allows for the funds be rechanneled through their district municipalities as part of the District Development Model launched in November 2019. The District Development Model allows for government to allocate funding to the district for implementation on behalf of the local municipality until such time that capacity is built within the local municipality to implement projects on their own.

A process map for invoice verification/or cost reimbursement is attached as **Annexure C**.

# 7. Preparation of Municipal Budgets for 2020/21 MTREF

## 7.1 Schedule A1 version to be used for the 2020/21 MTREF

National Treasury has released Version 6.4 of the Schedule A1 (the Excel Formats) which is aligned to Version 6.4 of the *m*SCOA classification framework and must be used when compiling the 2020/21 MTREF budget. Refer to Annexure B for the changes to this version of the Schedule A1.

**ALL** municipalities **MUST** prepare their 2020/21 MTREF tabled and adopted budgets using the A1 schedule version 6.4.

It is imperative that all municipalities prepare their 2020/21 MTREF budgets **in their financial systems and that the Schedule A1 be produced directly from their financial system**. Vendors have demonstrated their budget modules to the National Treasury and provincial treasuries. All financial systems have this functionality to assist and prepare budgets and to generate the prescribed Schedule A1 directly from the financial system. Therefore, there is no reason why the 2020/21 MTREF budget must be done manually which has been found to create alignment problems.

Municipalities **must** start early enough to capture their tabled budget (and later the adopted budget) in the budget module provided and **must** ensure that they produce their Schedule A1 directly out of the budget module.

Ultimately the aim is to get to a point where all municipalities budget and transact directly in and report from their core financial system. This will result in one version of the '**truth'** where the financial performance reported to Council will not differ from the financial performance information submitted to and published by National and provincial treasuries. This will also reduce the reliance on consultants and system vendors to prepare municipal reports.

The National Treasury has indicated in MFMA Circular No. 93 that in future all A1 Schedules must be submitted in PDF format only. Some vendors have expressed concerns regarding the layout of some of the worksheets and the presentation thereof in PDF. Given the fact that the *m*SCOA classification framework makes it possible to generate the financial data required in the A1 schedule directly from the data strings and to promote the *m*SCOA approach for additional data needed and prescribed in the MBRR from sub-systems, the National Treasury will only accept a prescribed data string containing the supporting data, populated and

uploaded by each municipality (refer to the attachment to this MFMA Budget Circular No 98 on the website for the layout of the data string) from the **2020/21 MTREF**. The publication in the 2020/21 MTREF of non-financial data will be done using the supporting data uploaded from these data strings.

The National Treasury will no longer gather supporting data from the MBRR A1 Schedules, but will expect each municipality to submit the prescribed supporting data strings containing the required data using the LG Upload Portal.

The detail of supporting data strings is available as attachments to this circular.

Version 6.4 of Schedule A1 is available on the following link and is accompanied a comparison between mSCOA vs 6.3 and vs 6.4, highlighting changes made.

http://mfma.treasury.gov.za/RegulationsandGazettes/MunicipalRegulationsOnAStandardChartOfAccountsFinal/Pages/default.aspx

The Municipal Budget and Reporting Regulations, formats and associated guides are available on National Treasury's website at:
http://mfma.treasury.gov.za/RegulationsandGazettes/Pages/default.aspx

### 7.2 Assistance with the compilation of budgets

If municipalities require advice with the compilation of their respective budgets, specifically the budget documents or Schedule A1, they should direct their enquiries to their respective provincial treasuries or to the following National Treasury officials:

| Province | Responsible NT officials | Tel. No. | Email |
|---|---|---|---|
| Eastern Cape | Matjatji Mashoeshoe | 012-315 5553 | Matjatji.Mashoeshoe@treasury.gov.za |
| Buffalo City | Mandla Gilimani | 012-315 5807 | Mandla.Gilimani@treasury.gov.za |
| Free State | Cethekile Moshane | 012-315 5079 | Cethekile.moshane@treasury.gov.za |
| Gauteng | Kgomotso Baloyi | 012-315 5866 | Kgomotso.Baloyi@treasury.gov.za |
| | Kevin Bell | 012-315 5725 | Kevin.Bell@treasury.gov.za |
| Johannesburg & Tshwane | Willem Voigt | 012-315 5830 | WillemCordes.Voigt@treasury.gov.za |
| KwaZulu-Natal | Kgomotso Baloyi | 012-315 5866 | Kgomotso.Baloyi@treasury.gov.za |
| | Johan Botha | 012-315 5171 | Johan.Botha@treasury.gov.za |
| eThekwini | Una Rautenbach | 012-315 5700 | Una.Rautenbach@treasury.gov.za |
| | Abigail Maila | | Abigail.Maila@treasury.gov.za |
| Limpopo | Willem Voigt | 012-315 5830 | WillemCordes.Voigt@treasury.gov.za |
| | Sifiso Mabaso | 012-315 5952 | Sifiso.Mabaso@treasury.gov.za |
| Mpumalanga | Mandla Gilimani | 012-315 5807 | Mandla.Gilimani@treasury.gov.za |
| | Musa Mnguni | 012 315 5072 | Musa Mnguni@treasury.gov.za |
| Northern Cape | Mandla Gilimani | 012-315 5807 | Mandla.Gilimani@treasury.gov.za |
| | Phumelele Gulukunqu | 012 315 5539 | Phumelele.Gulukunqu@treasury.gov.za |
| North West | Willem Voigt | 012-315 5830 | WillemCordes.Voigt@treasury.gov.za |
| | Makgabo Mabotja | 012-315 5156 | Makgabo.Mabotja@treasury.gov.za |
| Cape Town | Kgomotso Baloyi | 012-315 5866 | Kgomotso.Baloyi@treasury.gov.za |
| George | Willem Voigt & | 012-315 5830 | WillemCordes.Voigt@treasury.gov.za |
| | Mandla Gilimani | 012-315 5807 | Mandla.Gilimani@treasury.gov.za |
| Technical issues with Excel formats | Elsabe Rossouw | 012-315 5534 | lgdataqueries@treasury.gov.za |

National and provincial treasuries, will undertake a completeness check on the data string submissions and will analyse the supporting data strings. Where municipalities have not provided complete supporting information, the municipality will be informed and will be required to make the necessary corrections and resubmit the data strings.

### 7.3 Verification process and period of 2020/21 MTREF budgets

As the *m*SCOA reporting requirements state that a budget must be locked into the financial system by latest 30 June before the start of the new municipal financial year, in the previous timeframes provided, there was no opportunity to evaluate the adopted budget to be funded and complete BEFORE the start of the municipal financial year. The traditional verification period from July to September can no longer be applied as the municipalities are already transacting against the adopted and locked budget. Amending an unfunded and incomplete budget in an adjusted budget is also not the solution as the National Treasury only considers an adjusted budget in the third and fourth quarter of the financial year for analysis and publication purposes.

The verification period of all municipal budget will therefore be brought forward to the period 31 May to 30 June. In this one-month period, the National and provincial treasuries will be required to evaluate all municipal budgets for completeness and for being fully funded. Any adjustment that need to be made must be done before the start of the municipal financial year on 1 July.

Municipal managers are reminded that the annual budget must be accompanied by a quality certificate and council resolution, as well as a budget locking certificate (in the case of adopted budgets) in accordance with the format specified in Regulation 31 of Schedule A of the Municipal Budget and Reporting Regulations.

The National Treasury would like to emphasise that where municipalities have not adhered to the Municipal Budget and Reporting Regulations, ***they will be required to go back to the municipal Council and table a complete budget document aligned to the requirements of the Municipal Budget and Reporting Regulations and the Municipal Standard Chart of Accounts Regulations. In addition, where municipalities have adopted an unfunded budget, they will be required to correct the budget to ensure they adopt and implement a funded budget***.

Municipalities with municipal entities are once again reminded to prepare consolidated budgets and in-year monitoring reports for both the parent municipality and its entity or entities. The following must be compiled:

- An annual budget, adjustments budget and monthly financial reports for the parent municipality in the relevant formats;
- An annual budget, adjustments budget and monthly financial reports for the entity in the relevant formats; and
- A consolidated annual budget, adjustments budget and monthly financial reports for the parent municipality and all its municipal entities in the relevant formats.

The budget and data strings that the municipality submits to National Treasury must be a consolidated budget for the municipality (including entities). The budget of each entity must be submitted on the D schedule.

Annually during the budget verification process, it is noted that municipalities have challenges to align the audited years, which results in amendments to the Schedule A. Municipalities

must ensure that the audited figures and adjusted budget figures captured on the Schedule A aligns to the annual financial statements and Schedule B respectively.

# 8. Budget process and submissions for the 2020/21 MTREF

## 8.1 Submitting budget documentation and schedules for 2020/21 MTREF

To facilitate oversight of compliance with the Municipal Budget and Reporting Regulations, accounting officers are reminded that:

- Section 22(b)(i) of the MFMA requires that, ***immediately*** after an annual budget is tabled in a municipal council, it must be submitted to the National Treasury and the relevant provincial treasury in electronic formats. If the annual budget is tabled to council on **31 March 2020**, the final date of submission of the electronic budget documents and corresponding *m*SCOA data strings is **Wednesday, 01 April 2020**.

Section 24(3) of the MFMA, read together with regulation 20(1) of the Municipal Budget and Reporting Regulations, requires that the approved annual budget must be submitted to both National Treasury and the relevant provincial treasury ***within ten working days*** after the council has approved the annual budget. E.g. if the council approves the annual budget on **29 May 2020**, given the new timeframe for the evaluation of the municipal budgets, the adopted budget data strings and documentation must be submitted by the latest **Monday, 1 June 2020**.

**Municipalities are no longer expected to submit hard copies of budget related documents to National Treasury from the 2020/21 MTREF.**

## 8.2 Expected submissions for 2020/21 MTREF

- The budget documentation as set out in the Municipal Budget and Reporting Regulations (MBRR). The budget document must include the main Tables (A1 - A10) and the supporting tables in the A1 schedule must be submitted in the prescribed *m*SCOA data string in the format indicated in an attachment as part of this circular.
- the draft and final service delivery and budget implementation plan in electronic PDF format;
- the draft and final integrated development plan;
- the council resolution for the tabled and adopted budgets;
- signed Quality Certificate as prescribed in the Municipal Budget and Reporting Regulations for the tabled and adopted budgets;
- schedules D specific for the entities; and
- A budget locking certificate immediately at the start of the new municipal financial year on 1 July.

Budget related documents and schedules must be uploaded by approved registered users using the LG Upload Portal at: https://lguploadportal.treasury.gov.za/.

Please note that the LG Upload Portal does not have the same size restrictions previously encountered but requires all documents to:

1. be in PDF format only; and
2. each PDF file must NOT contain multiple document e.g. council resolution and quality certificate within the budget document. Each document type must be identified and uploaded separately.

Any problems experienced in this regard can be addressed with Elsabe Rossouw at Elsabe.Rossouw@treasury.gov.za.

In addition to the above-mentioned budget documentation, metropolitan municipalities must submit the draft Built Environment Performance Plan (BEPP) tabled in council by 31 March 2020 to Yasmin.coovadia@treasury.gov.za. If the BEPP documents are too large to be sent via email (exceeds 4MB) please submit to yasmin.coovadia@gmail.com or send to Yasmin Coovadia via Dropbox; any problems experienced in this regard can be addressed with Yasmin.Coovadia@treasury.gov.za. Hard copies of the BEPP may be sent to Yasmin Coovadia, National Treasury, 3rd floor 40 Church Square, Pretoria, 0002 or Private Bag X115, Pretoria, 0001. (Yasmin to confirm if she still needs hard copies.)

### 8.3 Retirement of the Budget reform returns (Appendix B)

Municipalities must conclude all reporting for 2018/19 up to restated audit outcomes on the Appendix B (old electronic returns) to lgdatabase@treasury.gov.za before we can retire the returns.

Ensure that each municipality also submit the pre-audit and audited data strings in the *m*SCOA classification framework as data strings and that the figures are aligned to the Appendix B returns. Pre-audit and audited outcomes will only be submitted in the *m*SCOA data strings prescribed from 2019/20 onwards.

### 8.4 Publications from the *m*SCOA classification framework

The 2019 MTREF and the preliminary Quarter 1 Section 71 results for the 2019/20 financial year that has recently been published, have exposed that the credibility of the *m*SCOA data strings is a concern. At the core of the problem is:

- The incorrect use of the *m*SCOA and municipal accounting practices by municipalities;
- A large number of municipalities are not budgeting, transacting and reporting directly in/from their core financial systems. Instead they prepare their budgets and reports on excel spreadsheet and then import the excel spreadsheets into the system. Often this manipulation of data leads to unauthorised, irregular, fruitful and wasteful (UIFW) expenditure and fraud and corruption as the controls that are built into the core financial systems are not triggered and transactions are processed that should not be processed; and
- Municipalities are not locking their adopted budgets and their financial systems at month-end to ensure prudent financial management. To enforce municipalities to lock their budgets and close their financial system at month-end in 2020/21, the Local Government Database and Reporting System will lock all submission periods within the reporting period at the end of each quarter. The published period will NOT be opened again to ensure consistency between publications. System vendors were also requested to build this functionality into their municipal financial systems.

To improve the credibility of these data string, National and provincial treasuries are analysing the accuracy of the data strings and the use of the six regulated segments. The National Treasury has developed tools to analyse the segment/chart use and trained budget analysts from both National and provincial treasuries on the use thereof.

The data strings are also verified against the Council adopted budget (A1 Schedule), adjustments budget (B Schedule) and monthly performance against the budget (C Schedule) to ensure that these figures reconcile.

*Quality improving focus areas for the 2020/21 MTREF*:

- Pay specific attention to the funding of the capital budget and expenditure. The total capital expenditure must balance with the total funding used. Currently the expenditure is much higher than the funding reported.
- Opening balances, especially for capital projects, will always be DEFAULT projects as it will remain a system activity governed by council decision. In the current publications, capital expenditure is highly overstated due to incorrect use of opening balances for capital projects and presents a very inflated view of the actual capital expenditure.
- The cash flow data supplied by municipalities is not credible. This is partly due to the different ways in which the vendors treat actual cash collected but also is a result of the National Treasury not giving clear guidance on the procedures and processes to follow to get credible cash flow figures. In this budget circular signals have been given as to the treatments the National Treasury wants all municipalities to follow to get credible figures from the *m*SCOA data stings. The National Treasury will implement these guidelines in March 2020 in time for the receipt of the 2020/21 MTREF budget data strings. It will affect the third and fourth quarter Section 71 publications of 2019/20 as well.
- It is imperative that vendors assist municipalities to populate SA30 / SC30 when submitting cash flow figures. The detail that is required to ring fence functions and to determine actual cash collections are in the mentioned MBRR supporting worksheets and not in A7 / C7 which is a summarised version. When transferring payments made from sub-system to the general ledger, please ensure that these transfers are done using the prescribed 6 segments at the detailed level prescribed in SA30 / SC30.
- Municipalities are not using the FUND, REGION and COSTING segment correctly. In many instances these segments are simply defaulted and hence the true power of the *m*SCOA classification framework cannot be demonstrated.
- The National Treasury is currently developing Municipal Money Phase II. The first step is to interactively show all capital projects municipalities have budgeted for and are reporting on monthly to all citizens. It has become apparent that many municipalities are not using the correct GPS coordinates when reporting on the capital projects. Many are simply using the GPS coordinates of the municipal building or using 0 coordinates. Special attention must be given to the correct location and the proper description of projects as citizens will now be able to drill down and follow what is happening in their own wards.

### 8.5 Publication of budgets on municipal websites

In terms of section 75 of the MFMA, all municipalities are required to publish their tabled budgets, adopted budgets, annual reports (containing audited annual financial statements) and other relevant information on the municipality's website. This will aid in promoting public accountability and good governance.

All relevant documents mentioned in this circular are available on the National Treasury website, http://mfma.treasury.gov.za/Pages/Default.aspx. Municipalities are encouraged to visit it regularly as documents are regularly added / updated on the website.

# Annexure A – Cash Flow Reconciliation

The following movement accounts should only be used for cash inflow and outflow transactions:

**Item Assets:**

- *Collections:* Collections received pertaining to a respective account (example is collection on receivables from non-exchange (property rates) and non-exchange (service charges electricity) transactions.
- *Acquisitions:* Purchases of assets and other expenditure.
- *Disposal:* Sale of non-current assets (example land).
- *Earned:* Interest earned on a bank account.

**Item Liabilities:**

- *Receipts:* Current year receipts on transfer and subsidies.
- *Advances:* Advances taken for the year, example for borrowing.
- *Repayments:* Repayments for the year, example for borrowing.
- *Payments:* Payments made; example defined benefits.
- *Withdrawals:* Payments made, examples are for bulk purchases for electricity and bulk purchases water.

***Funding segment***

Most municipalities are transacting incorrectly on the funding segment and accordingly overstate the cash balances available per function (example energy sources (electricity), water management (water treatment) etc. for the payment of services.
The "Funding" segment in the financial system identifies the various sources of funding available to municipalities for financing expenditure relating to the operation of the municipality for both capital and operational expenditure.

The intent with the Funding segment is to assist municipalities in the management of available funds to use in running the municipality (working capital), capital expanding, maintenance programmes and operational projects intended for the benefit of the community. **The underlying principle in recording of transactions in this segment is therefore cash based or funds available to utilise.**

The key question in finding the appropriate classification code for this segment is: "against which source of funding is the payment allocated and against which source is revenue received?"

The primary sources of funding for a municipality are property rates, service charges, equitable share and own revenue. Further to these sources of revenue a municipality also spend funds transferred from other sectors within government, namely transfers and subsidies such as appropriated by national and provincial government in terms of the Division of Revenue Act (DORA). A further source of funds available for utilisation is "cash backed reserves" as directed by the municipality's financial policy on the utilisation of the reserves.

The projects as defined within the Project segment together with the "funding" and "Item" segments provide information on how funds have been spent and on what. The Funding segment's structure distinguishes between "Operational, Capital and Non-Funding Transactions".

***Operational:*** Operational revenue provides for funds from all other sources of income such as taxes, service charges, commercial services, transfer and subsidies, etc.

***Capital:*** Funds to finance capital projects.
***Non-funding Transactions:*** This is items that does not relate to a cash transaction.
Examples of non-funding transactions are:

- Billing for services on consumer accounts issued;
- Recording of invoices;
- Depreciation; and
- Debt provision.

Example 1: A municipality has issued a consumer account (billing) to a client for electricity consumption amounting to R100 in Ward X.

The transaction will be recorded as follows:

| Segment | Dt | Cr |
|---|---|---|
| Project | Default | Default |
| Function | Function: Energy Sources: Non-core Function: Electricity | Function: Energy Sources: Non-core Function: Electricity |
| Item | Assets: Current Assets: Trade and other Receivables from Exchange Transactions: Trading Service and Customer Service Debtors: Electricity: Monthly Billing | Revenue: Exchange Revenue: Service Charges: Electricity: Electricity Sales :Domestic Low: Conventional |
| Funding | Non funding transaction | Non funding transaction |
| Region | Ward X | Ward X |
| Costing | Default | Default |
| Amount | 100 | 100 |

The monthly billing of a consumer does not relate to any cash inflow, the funding segment therefore a non-funding transaction.

Example 2: The client pays the municipality R100 on the consumer account received.

The transaction will be recorded as follows:

| Segment | Dt | Cr |
|---|---|---|
| Project | Default | Default |
| Function | Function: Energy Sources: Non-core Function: Electricity | Function: Energy Sources: Non-core Function: Electricity |
| Item | Assets: Current Assets: Cash and Cash Equivalents: Cash at Bank: Bank Account: Specify (replace with account description): Deposits | Assets: Current Assets: Trade and other Receivables from Exchange Transactions: Trading Service and Customer Service Debtors: Electricity: Collections |
| Funding | Fund: Operational: Revenue: General Revenue: Service Charges: Electricity | Fund: Operational: Revenue: General Revenue: Service Charges: Electricity |
| Region | Ward X | Ward X |
| Costing | Default | Default |
| Amount | 100 | 100 |

The payment received will be recorded as a cash inflow against revenue service charges electricity for the function electricity. The electricity function will now have R100 funding (cash inflow) available for the payment of expenditure.

Example 3: The municipality receives an invoice from Eskom for the usage of electricity amounting to R50.

The transaction will be recorded as follows:

| Segment | Dt | Cr |
|---|---|---|
| Project | Municipal Running Cost | Municipal Running Cost |
| Function | Electricity | Electricity |
| Item | Expenditure: Bulk Purchases: Electricity: ESKOM | Liabilities: Current Liabilities: Trade and Other Payable Exchange Transactions: Electricity Bulk Purchase: Deposits |
| Funding | Non funding transaction | Non funding transaction |
| Region | Mun | Mun |
| Costing | Default | Default |
| Amount | R50 | R50 |

The recording of an invoice in the financial system does not relate to any cash outflow, no payment has been made, the funding segment therefore is a non-funding transaction.

Example 4: The municipality pay Eskom R50 on the invoice received.

The transaction will be recorded as follows:

| Segment | Dt | Cr |
|---|---|---|
| Project | Default | Default |
| Function | Electricity | Electricity |
| Item | Liabilities: Current Liabilities: Trade and Other Payable Exchange Transactions: Electricity Bulk Purchase: Withdrawals | Assets: Current Assets: Cash and Cash Equivalents: Cash at Bank: Bank Account: Specify (replace with account description):Withdrawals |
| Funding | Fund: Operational: Revenue: General Revenue: Service Charges: Electricity | Fund: Operational: Revenue: General Revenue: Service Charges: Electricity |
| Region | Mun | Mun |
| Costing | Default | Default |
| Amount | R50 | R50 |

The payment made will be recorded as a cash outflow against revenue service charges electricity for the function electricity. The electricity function will now have a balance of R50 cash available (funding) which is the difference between the cash received of R100 from a consumer on electricity consumption (example 2) and the payment of R50 to Eskom for the usage of electricity (example 4).

The electricity function will have a net balance of R50 positive cash (funding) which reconcile to the net cash in the bank account of R50.

# Annexure B – Amendments to the A1 Schedule to cater for water under inventory in line with GRAP 12

Substantial changes to the A1 schedule were required to accommodate the approach to account for water under inventory. The draft adjustment to the A1 Schedule (Excel version) is attached to this published circular with amendments highlighted in light orange. The Excel document has been populated for one financial year to demonstrate the accounting treatment of the proposed changes. These changes are not for implementation during the 2020/21 MTREF but are included in the circular for comments prior to final implementation during the 2021/22 MTREF. The main changes were to Table SA3 that required further changes to some other worksheets as indicated below.

## Table SA3

Changes to this table included the addition of water and other inventory items to enable municipalities to fully budget for the acquisition, issuing, adjustment, write-off, transfer and sale of all inventories. This will provide a detail reconciliation for the disclosure of inventory on the Statement of Financial Position (Table A6). This section has been aligned to the mSCOA chart - Item Assets – Inventory and, as it relates to water inventory, also to the IWA Modified Water Balance utilised by the DWS. The layout of the section includes the following inventory items:

- Water (separate item)
- Agricultural, Consumables, Finished Goods, Materials and Supplies (consolidated into one item)
- Work-in-progress (separate item)
- Housing Stock (separate item)
- Land (separate item)

It is important to note that, as a result of these changes, bulk purchasing of water will be processed as a cash transaction in the Statement of Financial Position – Acquisition of Inventory (Table A6). Acquisitions of water stock should include the following:

- Bulk purchases - Supply from bulk or other water service providers recognised by the amount paid.
- Water purified - Potable supply from Water Treatment Works. Value is to be determined by calculating primary and secondary cost components.
- Natural sources - Supply from boreholes, springs, fountain if not supplied through the water treatment plant. Value is to be determined by calculating primary and secondary cost components.

Currently the Statement of Financial Performance (Table A4) reflected the bulk purchasing of water as a cash expense. In terms of the change to treating water as inventory the cost of sales (water inventory consumed) is disclosed as a separate non-cash expense included under “Other materials & inventory consumed” on Table A4.

The cost of water losses and any write-down of inventory are expensed as a non-cash entry under “Expenditure by type Losses” on Table A4. When there is clear evidence of an increase in net realisable value of inventory adjustments are accounted for as a non-cash entry under “Revenue by source Gains” on Table A4.

Water Inventory consumed (cost of sales) included under “Other materials & Inventory Consumed” on Table A4 should include the following:

**Billed Authorised Consumption**

**Billed Metered Consumption**
- Free Basic Water
- Subsidised Water
- Revenue Water

**Billed Unmetered Consumption**
- Free Basic Water
- Subsidised Water
- Revenue Water

**Un-Billed Authorised Consumption**
- Unbilled Metered Consumption
- Unbilled Unmetered Consumption

The above-mentioned amendments to Table SA3 also necessitated adjustments to the following other tables as indicated below:

**Table SA1**
In order to adequately account for inventory, including water inventory, the following detail calculations were added on Table SA1:

Addition of Other materials & Inventory Consumed
- Inventory Consumed - Water
- Inventory Consumed - Other material
- Other materials

Total Other Material & Inventory Consumed

Bulk purchases: Electricity & Waste Water (previously Electricity & Water - now water changed to "Waste Water)
The change of terminology
- Electricity Bulk Purchases (no change)
- Waste Water Bulk Purchases (previously Water Bulk Purchases now water changed to "Waste Water")

**Table A4**
The change of terminology:
- Bulk purchases now ***"Bulk purchases: Electricity & Waste Water"***
- Gains on disposal of PPE now ***"Gains"***
- Loss on disposal of PPE now ***"Losses"***
- Other Material changed to ***"Other materials & inventory consumed"***

**Table SA 30**
The changes of terminology to cash payments by type:
- Bulk purchases - Electricity now changed to ***"Bulk purchases - Electricity & Waste Water"***
- Bulk purchases - Water & Sewer" now changes to ***"Acquisition Inventory - Water & other inventory"***

# Annexure C – Process map for invoice verification/cost reimbursement

| ACTIVITY | INSTITUTION | INDIVIDUAL |
|---|---|---|
| **Step 1:** Municipality receives invoices from the contractors and consultants | Municipality | Technical Director and PMU Manager |
| **Step 2:** Check completeness and all documents included and update the verification list/implementation plan | Municipality | PMU Manager |
| **Step 3:** Invoices and verification list submitted to Province (PT, Transport, CoGTA province, DWS, Energy, human settlement and MISA) | Municipality | Technical Director |
| **Step 4:** Province coordinates the site verification meeting/s with all stakeholders (Prov CoGTA and Treasury, MISA and municipality | Province | Provincial selected lead official |
| **Step 5:** Municipality arranges with consultants and contractors to be on site and prepares the necessary progress report | Municipality | Technical Director and PMU |
| **Steps 6:** Site meeting/s held | (Prov CoGTA/Treasury, MISA and municipality | Verification Team |
| **Step 7:** Transferring National Officer/MISA prepares the verification report and shares with all the verification team members. It recommends the amount to be released to municipality or recommends a refer back | Transferring National Officer/MISA | Transferring National Officer/MISA |
| **Step 8:** Verification team (coordinated by Province) to consider the recommendations by Transferring National Officer/MISA and submit recommendations to NT/Sector department | Province | Transferring National Officer/MISA with Provincial Treasury |

8.1 Submitting budget documentation and schedules for 2020/21 MTREF ..... 14
8.2 Document uploads to the Local Government Upload Portal ..... 14

# Introduction

This budget circular is a follow-up to MFMA Circular No. 98 that was issued on 06 December 2019. It aims to provide further guidance to municipalities with the preparation of their 2020/21 Medium Term Revenue and Expenditure Framework (MTREF) budgets and should be read together with the budget circulars that have been issued previously.

The grant allocations as per the 2020 Budget Review and the 2020 Division of Revenue Bill are also key focus areas in this circular.

# 1. The South African economy and inflation targets

Over the past year, economic growth has been weaker than forecasted and is only expected to reach 0.9 per cent in 2020. The 2020 budget highlights the difficult economic and fiscal choices confronting government over the next several years.

It is projected that revenue to be collected for the 2020/21 financial year will amount to R1.5 trillion which equates to 29.2 per cent of the Gross Domestic Product (GDP), whereas expenditure is projected to be at R1.95 trillion which is equivalent to 36 per cent of GDP. This means that there is a consolidated budget deficit of R370.5 billion or 6.8 per cent of GDP in 2020/21. The gross national debts by the end of 2020/21 is projected to be R3.56 trillion which is 65.6 per cent of GDP.

It is evident that determined action is required to reverse the deterioration of the public finances by narrowing the budget deficit, containing debt and growing the economy faster and in a sustainable manner. Municipalities therefore need to exercise caution when they prepare their 2020/21 MTREF budgets to ensure synergy with national economic and fiscal prudency.

The declining economic growth which might be impacted on further by the Corona virus pandemic and international companies closing down as a result, the deteriorating state of the finances for state-owned entities, continued high unemployment and water and electricity shortages will put pressure on the ability of municipalities to raise revenue. Municipalities are therefore advised to follow a conservative approach when projecting their revenue and to eliminate any waste and unnecessary expenditure. Importantly, municipalities should ensure that they adopt realistic and funded 2020/21 MTREF budgets, collect the debts owed to them and pay their creditors within 30 days of receipt of invoice.

The following macro-economic forecasts must be considered when preparing the 2020/21 MTREF municipal budgets.

**Table 1 Macroeconomic performance and projections**

| | 2019 | 2020 | 2021 | 2022 |
|---|---|---|---|---|
| **Percentage change** | **Estimate** | | **Forecast** | |

*Note: the fiscal year referred to is the national fiscal year (April to March) which is more closely aligned to the municipal fiscal year (July to June) than the calendar year inflation.*

# 2. Key focus areas for the 2020/21 municipal budget process

After budgeting for debt-service costs, the contingency reserve and provisional allocations, 48.2 per cent of the nationally raised funds are allocated to national government, 43 per cent to provinces and 8.8 per cent to local government. This is a reduction from the 9.1 per cent allocated to local government when compared to the 2019/20 financial year.

Local government continue to receive the least share of the division of nationally raised revenue because it has extensive powers to raise its own revenue. On aggregate; the local government sphere raises about 70 per cent of its own revenue. However, municipalities should make every effort to improve the collection rates through improved billing and collection practices. In the present current economic climate, municipalities cannot afford to provide municipal services without recovering the cost of providing these services.

Spending outcomes for 2018/19 varied across the 257 municipalities. Many municipalities adopted unrealistic spending plans. As a result, 211 municipalities underspent their operating budgets and 214 municipalities underspent their capital budgets. This was a slight improvement from the previous year.

Of the R33.6 billion in conditional grants transferred to municipalities in 2018/19, R27.2 billion (80.1 per cent) was spent, compared to 93 per cent spent in 2017/18. This decline was partly due to underspending on drought relief funds allocated in the middle of the financial year.

## 2.1 Local government grants and municipal revenue strength

The conditional grants to municipalities have been reduced and most conditional grants have been reduced as part of efforts to limit growth in government expenditure and ensure that public debt is sustainable. To manage the effect on services, these reductions take into account:

- Past spending and performance;
- Whether the conditional grant funds salaries, and other related costs; and
- Whether there has been significant real growth in allocations in recent years.

Where possible, the National Treasury has reduced transfers that are more likely to go unspent or to be spent less effectively. Accordingly, grants that have persistently underperformed have been reduced by larger amounts. The largest proportional reduction to local government grants in 2020/21 has been made in respect of the public transport network grant, because only six of the 13 cities receiving the grant have successfully launched public transport systems. The three cities that have shown the least progress, namely Buffalo City, Msunduzi and Mbombela have been suspended from the grant and will not receive allocations in the 2020 MTEF period.

Legislation governing local planning and budgeting emphasises community participation in decision-making. The partnership between municipalities and communities relies on households and businesses recognising the value of, and paying for, municipal services. While government subsidises municipal services for low-income households, these services are only sustainable if people who can afford them and use larger quantities thereof pay their bills. Therefore, the sustainability of municipalities depends on how they collect and spend their own revenues.

Municipalities are reminded that all allocations included in their budgets must correspond to the allocations listed in the Division of Revenue Bill. All the budget documentation can be accessed from the National Treasury website by clicking on the link below:
http://www.treasury.gov.za/documents/national%20budget/2020/default.aspx

## 2.1. Changes to local government allocations

### *2.1.1. Unconditional grants*

Over the next three years, above-inflation growth in allocations to the local government equitable share continues, while growth in conditional grants is slower as a result of the reductions announced in the 2020 Budget. The local government Equitable Share continues to receive above inflation increases because it allows municipalities to offer free basic services to indigent residents who cannot afford to pay for services. The total direct allocations to local government grow at an annual average rate of 6.6 per cent over the MTEF period.

### *2.1.2. Conditional grants*

The 2020 Division of Revenue Bill has technical adjustments which were effected through the shifting of funds between different municipal allocations. However, it should be noted that the technical adjustments do not change the total amount allocated to local government. These changes to the grants include the shifting of:

- R400 million in 2020/21 from the municipal infrastructure grant, the water services infrastructure grants and the urban settlements development grant to the indirect regional bulk infrastructure grant to assist in funding the rehabilitation of wastewater treatment infrastructure in the Vaal River System;
- R160 million from the direct *neighbourhood development partnership grant* to the indirect component of the grant over the MTEF period;
- R3 billion that had been indicatively allocated to the new *informal settlement upgrading partnership grant* in 2020/21. This amount is shifted back to the *urban settlements development grant* following the decision to extend the informal settlements window within this grant for another year; and
- R166 million over the 2020 MTEF period from the *municipal infrastructure grant* to the *integrated urban development grant* for the entry of one additional municipality into the grant.

In addition to funds shifted from other local government grants, R250 million has been added to the indirect *regional bulk infrastructure grant* in 2020/21 to assist with addressing pollution in the Vaal River System. These funds were reprioritised from allocations in other spheres of government.

## 2.2 Response to the Finance and Fiscal Commission (FFC)'s recommendations

The Finance and Fiscal Commission Act, 1997 (Act No. No 99) requires that the FFC tables their recommendations on financial and fiscal matters at least 10 months before the start of each financial year. The FFC tabled its *Submission for the Division of Revenue 2020/21* to Parliament in May 2019. This year's theme is "reprioritising local government finances". The 2020/21 recommendations cover the following areas: local government financing framework, municipal government capacity building, local government sustainability, infrastructure management and efficiency, investment and developmental challenges in the local government sector.

### 2.2.1 Supplementary revenue sources for local government

The FFC recommended that the Minister of Finance should take steps (including piloting) to add supplementary revenue sources to the list of allowable taxes for different types of municipalities in a differentiated manner. National government supports this recommendation that additional revenue sources to municipalities should be fully explored. In response, various reforms have been prioritised to supplement the revenue sources of municipalities.

These include: amending the Municipal Fiscal Powers and Functions Act, 2007 (Act No. 12 of 2007) to ensure development charges are uniformly regulated and updating the municipal borrowing policy framework to clarify the funding instruments that municipalities are allowed to use to leverage their borrowing including clarifying the role of development finance institutions in this regard.

The Municipal Fiscal Powers and Functions Act already allows municipalities to apply to the Minister of Finance to levy additional taxes such as the tourism levies and fire levies recommended by the FFC. This Act also allows the Minister of Finance to introduce new municipal taxes on his own initiative. Applications from municipalities to implement new revenue sources provide a good mechanism for piloting new revenue sources like these as it ensures that the pilot municipalities are ready and willing to implement the new taxes. To be considered by the Minister of Finance, an application to introduce additional taxes must include the following:

- What the revenue from the proposed new municipal tax will be used for;
- Its compliance with section 229(2)(a) of the Constitution, which requires that municipal taxes do not prejudice national economic policy;
- The tax base, the desired tax rate, people liable for the tax and tax relief measures;
- The tax collecting authority; and
- Particulars of any consultations conducted, including consultations with a provincial government and organised local government and other municipalities where applicable, and the outcomes of these consultations.

### 2.2.2 Local government infrastructure management and efficiency

Government continues to provide responses to the FFC's recommendations on an annual basis. These annual recommendations by the FFC are required in terms of section 9 of the Intergovernmental Fiscal Relations Act, 1997 (Act No. 97 of 1997). The FFC recommended that the Ministers of Cooperative Governance and Traditional Affairs (CoGTA) and Finance should jointly strengthen the linkage between technical project planning processes and budgeting and foster smooth intergovernmental infrastructure coordination as part of the ongoing local government infrastructure grant reforms.

Government acknowledges the need to consolidate municipal infrastructure grants and to strengthen the linkages between the technical project planning process and the budgeting. The review of local government infrastructure grants has identified consolidation and rationalisation in the number of grants received by each municipality as a key area for reforming the grant system. As the various grants in the system serve different purposes, the consolidation and rationalisation process requires extensive consultation before grants can be merged. As a result, there is no definitive dates set on when the consolidation of grants will take place. However, government is committed to achieving the vision of a differentiated grant system.

## 2.3 Building capability for infrastructure delivery

The National Treasury continues to expand the tools available for provinces and municipalities to improve spending. Weaknesses in preparing and authorising projects and programmes are one of the main causes of poor performance on infrastructure transfers. The Infrastructure Delivery Management System (IDMS) has assisted provinces to build infrastructure units with qualified staff and institutionalise best practices. In the 2020/21 MTEF, cities will receive grant funding through the *integrated city development grant* to institutionalise an effective system for preparing programmes and projects. Metros will only be eligible for this funding if they:

- Have not had an adverse or disclaimed audit opinion in the last two financial years;

- Have formally adopted the Cities' Infrastructure Delivery and Management System (CIDMS) guidelines;
- Establish a programme and project approval committee to authorise work; and
- Commit to co-financing contributions and budget management arrangements.

National government provides a broad range of capacity-support grants and programmes for local government. These grants and programmes are under review and reforms to improve its effectiveness are likely to be implemented from 2021/22.

### 2.4 Development Charges reforms

National Treasury continues to explore how municipalities can use a broader package of infrastructure financing sources to meet their developmental mandate. One of these sources is development charges.

A development charge is a once-off charge imposed by a municipality on a land owner as a condition of approving a land development application that will substantially result in increased demand for municipal infrastructure services. These charges are imposed to cover the costs incurred by the municipality when installing new infrastructure or upgrading an existing infrastructure that is required to service the proposed development. It is based on the concept that urban growth and expanded land use creates the need for additional infrastructure services, therefore the developer should pay the incidence costs.

Municipalities have not fully used development charges due to uncertainty surrounding the regulatory frameworks. National Treasury is therefore amending the Municipal Fiscal Powers and Functions Act, 2007 (Act No. 97 of 1997) to incorporate the regulation of development charges. Cabinet has approved the publication of the draft Amendment Bill for public comment. The due date for submitting comments is 31 March 2020.

The draft Bill can be accessed on the National Treasury website at: http://www.treasury.gov.za/legislation/draft_bills/default.aspx.

## 3. Eskom Bulk Tariff increases

The National Energy Regulator of South Africa (NERSA) is responsible for price determination of the bulk costs for electricity. However, there has not been any determination by NERSA since the impasse around Eskom's application.

While the court case between NERSA and Eskom is still pending, municipalities should use the tariff increases previously (March 2019) approved by the regulator of 8.1 per cent for 2020/21, 5.2 per cent 2021/22 and 8.9 per cent for 2022/23.

## 4. Budgeting issues

### 4.1 The wage bill

The 2020 Budget Review highlighted the proposed wage bill reduction for the public service. Similar to national and provincial government, municipalities must ensure that compensation demands are balanced with the broader needs of society. In this context, municipalities should start taking decisive action to address bloated organisational structures and above inflation wage increases.

Wage bill increases are crowding out spending on capital projects for future economic growth and impacts on service delivery.

Local government also confronts tough fiscal choices in the face of financial and institutional problems that result in service-delivery breakdowns and unpaid bills. Municipalities can offset these trends by improving own revenue collection, working more efficiently and implementing cost containment measures.

### 4.2 Pension fund and SARS contributions

In terms of section 13A of the Pension Funds Act, 1956 (Act No. 24 of 1956), an employer must pay contributions it collected from employees' salaries to the relevant pension fund by the 7th day after the end of the month in respect of which the contributions were payable.

According to the latest annual report by the Pension Fund Adjudicator (PFA), it is especially concerned about non-payment of contributions in the municipal sector, thereby putting members' benefits at risk for extended periods of time. Over and above, there is interest on contributions that an employer is liable to pay if pension fund contributions are not paid over timeously. The Financial Services Laws General Amendment Act, 2013 (Act No. 45 of 2013) makes the employer's failure to pay contributions to a retirement fund a **criminal offence**. The amendment to this Act now provides for personal liability of persons who are entrusted with managing the overall financial affairs of the employer.

Section 65(2)(f) of the Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) states that the accounting officer must take all reasonable steps to ensure that the municipality complies with its tax, levy, duty, pension, medical aid, audit fees, and their statutory commitments. Section 171(1) of the MFMA provides that the accounting officer commits financial misconduct if that accounting officer fails to comply with a duty imposed by a provision of the Act on the accounting officer of a municipality. In addition, section 173(1)(a)(i) of the MFMA than provides that an accounting officer is guilty an offence if that accounting officer deliberately or in a grossly negligent way amongst other, contravene or fails to comply with the provision of section 65(2)(f) of the MFMA. We will therefore be monitoring whether municipalities are addressing this failure by accounting officers consistent with the legal framework provided for in the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings and take the necessary action where there is failure on the part of municipalities to address this matter.

### 4.3 Water

Access to clean and potable water is a mandatory imperative in terms of the country's Constitution, the National Water Act, 1998 (Act No. 36 of 1998) and priorities set by the government in the National Development Plan (NDP). Water is also recognised as a fundamental human right and there is no doubt about the important role that water plays in human existence, the environment, economic development and sustainability.

Municipalities should take strategic action to ensure effective water management and resilience to drought, including the security of water supply, environmental degradation, and pollution of resources to achieve economic growth, development and socio-economic priorities in an equitable and sustainable manner.

### 4.4 Attracting economic investment

Maintaining clean cities underpins economic activity and wellbeing. Investors are not interested in investing in filthy cities. Therefore, municipalities should place emphasis on sensible land use planning and development and building plan control for housing,

commercial, industrial and recreational uses. Investments in waste collection and treatment infrastructure should be made in tandem with industrial and urban developments to minimise pollution to our land and waters.

### 4.5 Borrowing for multi-year capital projects

In terms of sections 16(3) of the MFMA, money for capital expenditure may be appropriated for a period not exceeding three financial years, provided that a separate appropriation is made for each of those financial years.

Section 19(1) of the MFMA further states that *a municipality may spend money on a capital project only if —*

(a) the money for the project, excluding the cost of feasibility studies conducted by or on behalf of the municipality, has been appropriated in the capital budget referred to in section 17(2)(b) the project, including the total cost, has been approved by the council;
(b) section 33 has been complied with, to the extent that that section may be applicable to the project; and
(c) the sources of funding have been considered, are available and have not been committed *for other purposes.*

Before approving a capital project, the municipal council must consider:

a) the projected cost covering all financial years until the project is operational; and
b) the future operational costs and revenue on the project, including municipal tax and tariff implications.

A municipality must adjust the revenue and expenditure estimates in an approved annual budget downwards through an adjustments budget if there is material under-collection of revenue during the current year in terms of section 28(2) of the MFMA. It may also appropriate additional revenues that have become available over and above those anticipated in the annual budget, ***but only to revise or accelerate spending programmes already budgeted*** for. New capital projects can therefore not be included in the adjustments budget, unless provided for in terms of section 28(2) of the MFMA.

With regard to the shifting of funds between multi-year appropriations, section 31 of the MFMA requires that *when funds for a capital programme are appropriated in terms of section 16(3) for more than one financial year, expenditure for that programme during a financial year may exceed the amount of that year's appropriation for that programme, provided that –*

*(a) the increase does not exceed 20 per cent of that year's appropriation for the programme;*
*(b) the increase is funded within the following year's appropriation for that programme;*
*(c) the municipal manager certifies that -*
  *(i) actual revenue for the financial year is expected to exceed budgeted revenue; and*
  *(ii)* ***sufficient funds are available for the increase without incurring further borrowing beyond the annual budget limit****;*
*(d) prior written approval is obtained from the mayor for the increase: and*
*(e) the documents referred to in paragraphs (c) and (d) are submitted to the relevant provincial treasury and the Auditor-General*.

Considering the above sections of the MFMA, it is clear that section 16(3) allows for a multi-year capital appropriation not exceeding three financial years, while section 31 allows for:

- A maximum increase of 20 per cent in the appropriation for the year provided that it is funded within the following year's appropriation for that programme. By implication it

must be a multi-year programme and the increase should also fit within the limit of the next year's appropriation;

- Sufficient funds are available for the increase **without incurring further borrowing beyond the approved annual budget limit**. This means that additional revenues should be available in the year that the municipality intends to accelerate the expenditure or that a project saving that was funded from the borrowing that was approved for the current year should be used to prevent borrowing to exceed the annual budget limit; and
- This further implies that additional revenues should be available and prohibits the use of accumulated cash backed reserves from previous years for the acceleration of the programme.

Section 28(2)(b) prescribes that additional revenues that have become available may be used to revise or accelerate programmes already budgeted for. The same section further indicates that an adjustments budget process will be required to accelerate a capital programme. The municipal manager must provide certification that the additional revenues will be available within the financial year that the programme will be accelerated in terms of section 31 of the MFMA.

The legislation is not clear as to the timeframes for section 31 other than to state that prior written approval should be obtained from the Mayor. A prudent approach would be to include the documentation as part of the adjustments budget process and the dates set out in the Municipal Budget and Reporting Regulations.

This part of the Circular should also be read in conjunction with MFMA Circular No. 58 issued on 14 December 2011.

### 4.6 Refinancing of existing loans

Section 46(5) of the MFMA allows a municipality to re-financing existing long-term debt, provided that —

(a) the existing long-term debt was lawfully incurred;
(b) the re-financing does not extend the term of the debt beyond the useful life of the property, plant or equipment for which the money was originally borrowed;
(c) the net present value of projected future payments (including principal and interest payments) after re-financing is less than the net present value of projected future payments before re-financing; and
(d) the discount rate used in projecting net present value referred to in paragraph (c), and any assumptions in connection with the calculations, must be reasonable and in accordance with criteria set out in a framework that may be prescribed.

If the re-financing of an existing loan does not comply with the above requirements, then the municipality should consider going to the market for a new loan that offers more affordable terms and/or negotiate a payment arrangement with the financial institution until the loan can be repaid as per the original terms.

## 5. Conditional Grant Transfers to Municipalities

This section provides guidance to municipalities with regard to the preparation for the 2019/20 unspent conditional grant and roll-over process and should be referenced against previous annual budget circulars.

### 5.1 Criteria for the rollover of conditional grant funds

Section 22 of the 2019 Division of Revenue Act (DoRA) requires that any conditional grants which are not spent at the end of the municipal financial year must revert to the National Revenue Fund, unless the receiving officer, provincial treasury and transferring national officer proves to National Treasury that the unspent allocation is committed to identifiable projects, in which case the funds may be rolled over.

When requesting a rollover in terms of section 22(2) of the 2019 DoRA, municipalities must include the following information with their submission to National Treasury:

1. A formal letter, signed by the accounting officer must be addressed to the National Treasury requesting the rollover of unspent conditional grants in terms of section 22(2) of the 2019 DoRA;
2. A list of all the projects that are linked to the unspent conditional grants and a breakdown of how much was allocated and spent per project;
3. The following evidence indicating that work on each of the projects has commenced, as applicable to the specific rollover(s):

    a) Proof that the project tender was published and the period for tender submissions closed before 31 March;
    b) Proof that a contractor or service provider was appointed for delivery of the project before 31 March; or
    c) Proof of a project tender, appointment of contractor or service provider for delivery of service before 30 June in cases where additional funding was allocated during the course of the final year of the project;
    d) Incorporation of the Appropriation Statement;
    e) Evidence that all projects linked to an allocation will be fully utilised by 30 June 2021 (attach cash flow projection for the applicable grant).

4. A progress report (also in percentages) on the status of each project's implementation that includes an attached, legible **implementation plan**);
5. The value of the committed project funding, and the conditional allocation from the funding source;
6. Reasons why the grants were not fully spent during the year of original allocation per the DoRA;
7. Rollover of rollovers will not be considered therefore municipalities must not include previous year's unspent conditional grants as rollover request;
8. An indication of the time-period within which the funds are to be spent if the roll over is approved; and
9. Proof that the Municipal Manager and Chief Financial Officer are permanently appointed.

No rollover requests will be considered for municipalities with vacant or acting Chief Financial Officers and Municipal Managers for a period exceeding 6 months from the date of vacancy, this also includes acting appointments as a result of suspensions of either MM or CFO that are more than 12 months.

**If any of the above information is not provided or the application is received by National Treasury (Intergovernmental Relations Division) after 31 August 2020, the application will be declined.**

In addition, National Treasury will also consider the following information when assessing rollover applications; and reserves the right to decline an application should there be non-performance by the municipality in any of these areas:

1. Compliance with the in-year reporting requirements in terms of sections 71 and 72 of the MFMA and section 12 of the 2019 DoRA, **including the municipal manager and chief financial officer signing-off on the information** sent to National Treasury;
2. Submission of the pre-audited Annual Financial Statements information to National Treasury by 31 August 2020;
3. Accurate disclosure of grant performance in the 2019/20 pre-audited Annual Financial Statements, (i.e. correct disclosure of grant receipts and spending in the notes to the AFS); and
4. Cash available in the bank (net position including short term investments) as at 30 June 2020 is equivalent to the amount that is unspent as at the end of the financial year. If the amount that is requested for roll over is not entirely cash backed, such a roll over will not be approved. National Treasury will not approve portions of roll over requests.

It should be noted that under no circumstances will the National Treasury consider requests to roll-over:

1. The entire 2019/20 allocation to the municipality, in cases whereby the roll over request is more than 50 per cent of the total allocation National Treasury will approve the roll over amount up to 50 per cent of the 2019/20 allocation;
2. Roll Over request of the same grant for the third consecutive time;
3. Funding for projects constituted through Regulation 32 of the Municipal Supply Chain Management Regulations (Gazette No.27636). Projects linked to additional funding and disasters are exempted; and
4. A portion of an allocation where the proof of commitment for the roll over application is linked to invoices that were issued before or on 31 May 2020.

### 5.2 Unspent conditional grant funds for 2019/20

The process to ensure the return of unspent conditional grants for the 2019/20 financial year will be managed in accordance with section 22 of the DoRA. In addition to the previous MFMA Circulars, the following practical arrangements will apply:

Step 1: Municipalities must submit their June 2020 conditional grant expenditure reports according to section 71 of the MFMA reflecting all accrued expenditure on conditional grants and further ensure that expenditure reported to both National Treasury and national transferring officers reconcile;

Step 2: When preparing the Annual Financial Statements, a municipality must determine the portion of each national conditional grant allocation that remained unspent as at 30 June 2020. These amounts MUST exclude all interest earned on conditional grants, retentions and VAT related to conditional grant spending that has been reclaimed from SARS, which must be disclosed separately;

Step 3: If the receiving officer wants to motivate in terms of section 22(2) of the 2018 DoRA that the unspent funds are committed to identifiable projects, the roll over application pack must be submitted to National Treasury by 31 August 2020.

***National Treasury will not consider any rollover requests that are incomplete or received after this deadline.***

Step 4: National Treasury will confirm in writing whether or not the municipality may retain any of the unspent funds as a rollover based on criteria outlined above by 23 October 2020;

Step 5: National Treasury will communicate the unspent conditional grants amount by 06 November 2020. A municipality must return the remaining unspent conditional grant funds that are not subject to a specific repayment arrangement to the National Revenue Fund by 20 November 2020; and

Step 6: Any unspent conditional grant funds that should have, but has not been repaid to the National Revenue Fund by 20 November 2020, and for which a municipality has not requested a repayment arrangement, will be offset against the municipality's 04 December 2020 equitable share allocation.

*All other issues pertaining to Appropriation Statement and reporting on approved roll overs are addressed in the Annexure to MFMA Circular No. 86.*

## 6. The Municipal Budget and Reporting Regulations

National Treasury, together with the provincial treasuries, are rolling out training on budgeting and transacting in the *m*SCOA environment to all provinces to improve the credibility of the 2020/21 MTREF budgets.

### 6.1 Assistance with the compilation of budgets

In cases where the municipality requires advice with the compilation of their respective budgets, specifically the budget documents or Schedule A1, they should direct their enquiries to their respective provincial treasuries or to the following National Treasury officials:

| Province | Responsible NT officials | Tel. No. | Email |
|---|---|---|---|
| Eastern Cape | Matjatji Mashoeshoe | 012-315 5553 | Matjatji.Mashoeshoe@treasury.gov.za |
| Free State | Cethekile Moshane | 012-315 5079 | Cethekile.moshane@treasury.gov.za |
| Gauteng | Kgomotso Baloyi<br>Kevin Bell | 012-315 5866<br>012-315 5725 | Kgomotso.Baloyi@treasury.gov.za<br>Kevin.Bell@treasury.gov.za |
| KwaZulu-Natal | Kgomotso Baloyi<br>Johan Botha | 012-315 5936<br>012-315 5171 | Kgomotso.Baloyi@treasury.gov.za<br>Johan.Botha@treasury.gov.za |
| Limpopo | Willem Voigt<br>Sifiso Mabaso | 012-315 5830<br>012-315 5952 | Willem.Voigt@treasury.gov.za<br>Sifiso.Mabaso@treasury.gov.za |
| Mpumalanga | Mandla Gilimani | 012-315 5807 | Mandla.Gilimani@treasury.gov.za |
| Northern Cape | Mandla Gilimani | 012-315 5807 | Mandla.Gilimani@treasury.gov.za |
| North West | Willem Voigt<br>Makgabo Mabotja | 012-315 5830<br>012-315 5156 | Willem.Voigt@treasury.gov.za<br>Makgabo.Mabotja@treasury.gov.za |
| Western Cape | Vuyo Mbunge | 012-315 5661 | Vuyo.Mbunge@treasury.gov.za |
| Technical issues Local Government Database | Elsabe Rossouw | 012-315 5534 | lgdataqueries@treasury.gov.za |

National Treasury, together with the provincial treasuries, will undertake a compliance check and, where municipalities have not provided complete budget information, the municipal budgets will be returned to the mayors and municipal managers of the affected municipalities for the necessary corrections. Municipal managers are reminded that the annual budget must be accompanied by a quality certificate and council resolution in accordance with the format specified in regulation 31 of Schedule A of the Municipal Budget and Reporting Regulations. In addition to the above compliance check, the *m*SCOA data strings will be assessed to determine whether the municipalities are compliant.

The National Treasury herewith emphasises that where municipalities have not adhered to the Municipal Budget and Reporting Regulations, ***they will be required to return to the municipal council and table a complete budget document aligned to the requirement of the Municipal Budget and Reporting Regulations***.

Municipalities with municipal entities are once again reminded to prepare consolidated budgets and in-year monitoring reports for both the parent municipality and its entity or entities. The following must be compiled:

- An annual budget, adjustments budget and monthly financial reports for the parent municipality in the relevant formats;
- An annual budget, adjustments budget and monthly financial reports for the entity in the relevant formats; and
- A consolidated annual budget, adjustments budget and monthly financial reports for the parent municipality and all its municipal entities in the relevant formats.

The Schedule A that the municipality submits to National Treasury must be a consolidated budget for the municipality (plus entities) and the budget of the parent municipality. Schedules D must be submitted for each entity.

# 7. Municipal Chart of Accounts (*m*SCOA)

## 7.1 Release of Version 6.4.1 of the Chart

Version 6.4.1 was released to include the amendments in conditional grants as per the 2020 DoRA. Version 6.4.1 of the chart will be effective from 2020/21 and must be used to compile the 2020/21 MTREF. It is available on the link below:

**Link to *m*SCOA**

## 7.2 Use of funding segment to populate the cash flow tables

It is critical that municipalities undertake balance sheet and cash flow budgeting to provide accurate cash flow information. The general rule that applies is that the “funding” and “Item” segments must be combined to provide cash flow information on how funds have been spent and on what.

This means that the budget is available at a cash flow level (A1 Schedule Budget Table SA30 and A7) and not when billing is done or when invoices are processed (A1 Schedule Budget Table A4: Statement of Financial Performance). Municipalities must apply the budgeted assumed collection rate to determine the cash flow budgets. Therefore, expenditure can only be processed against items with funding in line with the anticipated cash inflow and not billing. Municipalities should therefore identify the relevant source in the funding segment where revenue is received from and identify the funds to be used when payments are made. Guidance on this was provided in MFMA Circular No. 98.

However, there are still challenges to populate the detail of cash payments by type in the A1 Schedule Budget Table SA30 from Item Liabilities: Current Liabilities: Trade and other payables from exchange transactions as payables and accruals are not broken down by type (e.g. other materials, contracted services etc.). This omission of detail in the *m*SCOA chart will be addressed through chart amendments in version 6.5 of the chart.

As an interim measure the cash flow will be populated as follows:

For Cash Receipts:
The **cash receipts by source** will be populated using Item Assets: Current Assets: Cash and cash equivalents: Cash at bank: Bank account: Deposits in conjunction with the Funding Segment.

For Cash Payments:
The **cash payments** by type will be populated using Item Liabilities: Current Liabilities: Trade and other payables Exchange and Non- Exchange Transactions: Withdrawals in conjunction with the Funding Segment.

The cash payments that are not classified by type, will be grouped together as other payments on table SA30. This will enable population of suppliers and employees on the cash flow (Table A7).

National Treasury will share the linking of A1 Schedule Budget Tables SA30 and A7 to the *m*SCOA chart items to ensure that the cash flow information is populated correctly with municipalities and system vendors.

### 7.3 Capital Projects using Internally Generated Funding

Capital Projects in acquiring Assets using Internally Generated Funding must use: Funding: Capital: Transfer from Operational Revenue. This will ensure that table A5 will be populated correctly.

## 8. Budget process and submissions for the 2020/21 MTREF

### 8.1 Submitting budget documentation and schedules for 2020/21 MTREF

Accounting officers are reminded that Section 22(b)(i) of the MFMA requires that, ***immediately*** after an annual budget is tabled in a municipal council, it must be submitted to the National Treasury and the relevant provincial treasury in PDF and electronic formats. However, in cases where Council requires amendments to the tabled budget prior to consultation, municipalities should inform he National Treasury and the relevant provincial treasury *immediately* and submit the required budget documents and corresponding *m*SCOA data strings ***within three working days*** after the Council meeting.

The approved annual budget must still be submitted to both National Treasury and the relevant provincial treasury ***within ten working days*** after the council has approved the annual budget.

### 8.2 Document uploads to the Local Government Upload Portal

Due to the number of queries received on the document upload process using the Local Government Upload Portal, a full guideline will be issued in due course to explain the process and to outline which documents will be required to upload.

## 1. MFMA Exemption Notice

The President of South Africa declared a nationwide lockdown, where all citizens, except those that form part of essential services, were ordered to stay home for a period of 21 days. Those working in essential services, as defined in the latter announcement, were exempted from the nationwide lockdown declaration. The nationwide lockdown commenced at midnight on Thursday, 26 March 2020. This announcement will broadly affect how municipalities and municipal entities undertake their financial management responsibilities for the remainder of the 2019/20 financial year in terms of the MFMA and more imminently the 2020/21 MTREF budget preparations process.

As a result, the Minister of Finance issued a conditional Exemption Notice in terms of section 177(1)(b) of the Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) on 30 March 2020 to facilitate and enable the performance of legislative responsibilities by municipalities and municipal entities during the national state of disaster. Find hereto attached **a list of key time bound actions to be taken by MUNICIPALITIES which may be affected during the National State of Disaster (Appendix 1)**. However, it should be noted that:

(a) this is not an exhaustive list; and
(b) some of these provisions may fall outside or within the scope of the exemption should:
  i. the period of the disaster be extended; or
  ii. the period of the disaster be terminated earlier than anticipated.

Furthermore, the Minister of Cooperative Governance and Traditional Affairs, in terms of section 27(2) of the Disaster Management Act, 2002 (Act 57 of 2002) ("the DMA"), issued directives to address, prevent and combat the spread of COVID-19 in South Africa.

Municipalities and municipal entities will be exempted from the timeline provisions in the MFMA, until such time that the national state of disaster declaration is lifted by the Minister of Cooperative Governance and Traditional Affairs. The exemption is conditional in that "any action that was required to be taken in terms of the MFMA must be taken within 30 days after the national state of disaster lapsed or is terminated". This exemption should therefore enable municipalities and municipal entities to undertake their financial management responsibilities including their budget preparation processes in a manner taking cognisance of the challenges experienced as a result of the announcement of the national state of disaster and the nationwide lockdown. It also provides for a special adjustments budget to address any expenditure relating to COVID-19 for the current municipal financial year ending 30 June 2020.

Municipalities should note that only one adjustments budget will be allowed between the date of the declaration of the national state of disaster and 15 June 2020, which is the date when it is envisaged to end in terms of the DMA. Municipalities should therefore plan the date when the municipal council will pass the adjustments budget carefully to ensure that all related expenditure is authorised in this one special adjustments budget.

It is important that the Exemption Notice be understood within the context of the COVID 19 pandemic and the related declarations made by the President of the Republic of South Africa. The Exemption provided enabled a relaxation of all those provisions that would have compromised amongst others, the social distancing and the prohibition of gatherings of more than 100 people measures that was introduced as part of the national state of disaster declaration. The latter refers to council meetings where reports had to be approved before being made public, public consultation meetings, sitting of bid committees etc. In other words, every action or decision that requires some degree of human contact will be covered by this conditional exemption. All other actions or decisions e.g. paying suppliers within 30 days of receipt of invoice, etc. that involve minimal to no human contact should continue as normal.

Subsequent to the issue of the exemption notice, there were various queries raised by municipalities and other stakeholders on certain practical implications of the notice. This circular seeks to provide further clarity in this regard.

## 2. Socio-economic Impact

The National State of Disaster and subsequent lockdown comes amidst already dire macro-economic conditions which have seen South Africa slump into a technical recession and downgraded to sub-investment grade ("junk" status) and worsening already high levels of unemployment.

The lockdown will likely have a devastating effect on economic activity as non-essential business are forced to shut down completely resulting in a reduction in overall economic output and job losses. National Government, in conjunction with prominent private sector role-players, has introduced various forms of relief programmes to aid small businesses and employees alike during the period of the lockdown to compensate for a loss of income and wages, etc.

Municipalities will be impacted negatively due to a loss of revenue streams as businesses, households and communities reel from the economic fallout caused by COVID-19. They may also be required to expand their scope of basic services and free basic services to respond

directly to the socio-economic impacts of the pandemic and prevent the transmission of communicable diseases.

Given the developmental role of Local Government articulated in the Constitution, municipalities must assist Small-Medium Micro Enterprises (SMMEs) and communities to access the information on relief measures to ease the impact of COVID-19 provided by government.

## 3. Generic principles for considering a municipal response

The following core principles have been identified as being relevant in an event of disasters, where governance and financial management practices are still required, but balanced with the need for rapid and impactful responses:

- **Strategic management:** (i) Extraordinary operations that are different from day-to-day activities are required. (ii) A balance is required between the controls and speed of decision-making within the applicable legal framework, and the need to be responsive to COVID -19 requirements; and (iii) Disaster-related decisions should be sub-delegated to and exercised by those closest to and critical to the need to respond to the pandemic;
- **Supply chain management:** (i) Sourcing rules should be appropriately adapted within the applicable legal framework to enable procurement decisions to be exercised in a manner that achieves the desired procurement outcomes with the required urgency and responsiveness as far as is reasonably possible. MFMA Circular No. 100 already provide guidance in this regard. (ii) Applicable procurement roles should be adapted for the purposes of ensuring adequate emergency preparedness planning and responsiveness to the pandemic; and (iii) Resources will be deployed by organs of state most suitable to respond to the COVID-19 relief procurement needs from a legal, practical, resource and skill capability perspective;
- **Donations and sponsorship:** regulation 48 of the Municipal Supply Chain Management Regulations provides that the accounting officer of a municipality or municipal entity must promptly disclose to the National Treasury and the relevant provincial treasury any sponsorships promised, offered or granted to the municipality or municipal entity, whether directly or through a representative or intermediary, by any person who is (i) a provider or prospective provider of goods or services to the municipality or municipal entity or (ii) a recipient or prospective recipient of goods disposed or to be disposed of by the municipality or municipal entity. Therefore, municipalities or municipal entities, must as part of the envisaged reporting in terms of MFMA Circular No. 100, report all donations/sponsorships received from the local or international donor community to the National Treasury and the relevant provincial treasury within 30 days of receipt.
- **Disaster Response Plans:** Municipalities should commit to pre-approved response plans, adjusted as necessary, and guard against deviations from established disaster response frameworks;
- **Risk assessment and mitigation:** As the pandemic rapidly spreads, municipalities must conduct a localised risk assessment to help identify areas of most pressing need. The assessment should reflect on likelihood and impact/magnitude of each risk. Municipalities are advised to amend their risk registers accordingly;
- **Revenue Management:** Revenue streams must be actively protected to mitigate the financial impact of COVID-19. Most business and households will feel the financial impact of COVID-19 (albeit to a varying degree) and will likely reprioritise their own spending patterns;
- **Expenditure Management:** All non-essential spending should be curtailed to optimise savings that can in turn be applied for disaster relief. Strategic management of priority functional classifications of budget allocations and basic incremental increases to primary mandates and functions to ensure basic operational effectiveness (recurrent budgeting) should be undertaken, with savings and developmental project allocations

channelled to areas of need identified through risk assessment while not losing sight of existing capital projects requirements; and

- Records are maintained for all expenditure incurred to ensure effective internal controls, special adjustments budget allocations and appropriations, and audit purposes.

## 4. Budgetary Implications

In response to the impact of COVID-19, municipalities are currently considering the reprioritisation of their funding allocations for the 2019/20 and 2020/21 financial year. Given the prevailing circumstances, municipalities may be under pressure to grant some form of relief to consumers, such as rates holidays, etc. However, we advise municipalities not to make assumptions about the ability of consumers to pay under these circumstance and prematurely grant relief measures as this is not supported by the National Treasury. We strongly advise municipalities to assess the merits of each case.

In doing so, National Treasury recommends that municipalities consider the following guiding principles:

i) Where municipalities consider initiatives to reduce the impact of COVID-19 on businesses and economic households such as rebates, payment holidays, relaxation of credit control measures municipalities –
   a. must ensure that their liquidity and overall financial sustainability is not compromised;
   b. in granting rebates to their consumers, should consider all the relevant legislation, regulations such as Municipal Property Rates Act (MPRA), MFMA dealing with revenue management within the disaster management principles;
   c. must ensure that the relaxation of levying of interest for overdue payments for municipal services should be in line with Council's policies, by-laws and other applicable legislation;
   d. must from a tariff perspective, understand that the prohibition on increasing tariffs in terms of section 28(6) of the MFMA still remains. Any tariff increase required during this national disaster period will be considered on a case by case basis. Municipalities are however allowed to decrease their tariffs in-year. With regard to tariffs tabled as part of the draft budget, the National Treasury views this as "indicative" and might change after the public consultation process. We therefore advise that whatever tariff is introduced or proposed as part of the draft budget tabled in March is indicative and municipalities are allowed to change the tariff (increase or decrease) **before** the final budget is adopted by the municipal council;
   e. must as it relate to public consultation consider section 17(3)(a) of the MFMA which requires that the draft budget must be accompanied by draft resolutions that amongst others, impose any municipal taxes and setting any municipal tariff for the specific budget year. If the indicative tariff that was used to consult the public on the draft budget changed significantly post consultation, the municipal council will have to consult again on the revised tariff given the impact on the consumer. The nature of the consultation is the discretion of the municipality as it is not a legal requirement at the moment to consult again after the initial draft budget was made public. However, reasons for increasing the tariffs must be provided, and the municipality must consider special short-term tariff measures, so any increase may be undertaken on a short-term basis and reversed, depending on a case-by-case basis; and
   f. Expenditure side measures and cost savings on the budget must also allow for limitations on increases as the levels of affordability for households and business may be breached.

ii) With respect to relief strategies to indigent households, municipalities should consider:
   a. reviewing their respective indigent policies to factor in the potential economic impact of COVID-19 on poor households; and
   b. the possibility of an increase in the number of indigent households while the quantum for free basic services remains within the national policy e.g. 6 kilolitres for water. Municipalities must ensure that financial sustainability is not compromised in implementing these policies. If the increase is implemented for the remainder of 2019/20 financial year (quarter four), it can be effected as part of the anticipated adjustments budgets allowed for by the Exemption Notice No. 43181 dated 30 March 2020.

iii) Municipalities are reminded that any expenditure related to COVID-19 should be **limited to the implementation of their mandates as outlined in the Constitution**, specifically related to the provision of basic services i.e. water, sanitation, refuse and electricity amongst others. By implication avoid creating unfunded mandates for themselves.

## 5. Conditional grants being used to respond to COVID-19

Municipalities should follow guidance issued by transferring officers regarding the use of conditional grant funds to support the response to the disaster. Some of the projects that need to be implemented urgently (such as provision of water infrastructure) can already be funded within the purpose and rules of conditional grants. In such cases, transferring officers will advise on the process for changing conditional grant business plans to enable the implementation of such projects.

Transferring officers and National Treasury will advise municipalities of any further changes to the use of conditional grants in 2019/20 to facilitate the response to the COVID-19 disaster.

Municipalities should follow closely any announcements from the National Treasury regarding revisions to allocations and conditional grant rules for 2020/21.

## 6. Tabling and adoption of 2020/21 MTREF budgets

It should be noted that municipalities that have already tabled their budgets will not be required to re-table such budgets after the lockdown given that they have already complied with the timelines for tabling. The exemption notice does not nullify compliance with the requirements of the MFMA prior to the nationwide lockdown. The exemption notice was issued to facilitate instances where municipalities could not comply with the provisions of the MFMA due to the nationwide lockdown.

Where a municipality has not submitted or published the tabled budget during the nationwide lockdown, then the exemption notice enables those municipalities to comply with these requirements within 30 days from the date that the national state of disaster is lifted. All requirements are therefore relaxed for as long as the national state of disaster is in effect. Note however that those municipalities that can comply with the law despite the current situation should continue to do so and report accordingly. The use of electronic mechanisms is encouraged.

The Minister of Cooperative Governance and Traditional Affairs (Minister of COGTA) issued a directive that suspends all council meetings during the period of the 21-day nationwide lockdown period. The same directive from the Minister of COGTA provides guidance around how council meetings and decision making must unfold post the 21-day nationwide lockdown period to consider amongst other, the adoption of the 2020/21 MTREF budget.

Therefore, depending on the municipality's ability to implement the measures introduced by the Minister of COGTA post the 21-day national lock down period, adoption of the budget by 31 May 2020 (including the approval of the BEPPs for Metros) should not be a problem and compliance in this regard should be attained. It is only in the event that, the municipality is unable to implement the measures introduced by the Minister of COGTA in relation to council sittings and associated decision making that the MFMA Exemption Notice issued by the Minister of Finance will cover the municipality in terms of allowing municipal councils to sit and adopt their budgets 30 days post the lifting of the national state of disaster by the President of the Republic of South Africa.

The municipality may consider other forms of having council meetings i.e. councillors can use their tools of trade to receive and consider draft budgets and casting their votes via email to a centrally controlled email system via the Office of the Speaker who can count all votes received and communicate the results via email to all councillors. The administration can then implement what council has decided. The latter will then ensure that council proceedings especially as it relate to the budget still proceeds albeit within the confines of the current situation. The exemption provided will then only be used in the event that it is extremely impossible to convene a council sitting in the manner described above.

## 7. 2019/20 reporting requirements

The nationwide lockdown affects amongst others, the monthly and quarterly performance reporting in terms of section 71 and section 52(d) of the MFMA respectively. The section 71 reporting can be done remotely in terms of a municipality's Business Continuity Plans. Reasons should be provided if this cannot be performed. Therefore, in cases where municipalities are unable to comply, municipalities must submit all reports that they have missed during the lockdown within 30 days after the national state of disaster is lifted. This includes Division of Revenue Act (DoRA) reporting requirements that are linked to monthly reporting in terms of section 71 of the MFMA. However, this **does not apply to all** DoRA reporting requirements. No exemption/departure is possible in respect of other monthly reporting provided for in DoRA that is not linked to any reporting requirement in the MFMA.

Municipalities are still expected to undertake the 2018/19 audit verification and submit the information on trading services gross and net operating margins. Similarly, this work does not require formal sittings and approval; therefore, it can be done as officials are expected to work from home during the nationwide lockdown, where mechanisms exists. The outcome of this work will have an impact on the timing of the state of local government finances and financial management report as at 30 June 2019. Importantly, municipalities must ensure that they submit separate *m*SCOA data strings for M09 and M10 as M09 is part of the reporting for quarter 3 of the 2019/20 financial year, while M10 forms part of the quarter 4 reporting.

In addition, given that National Treasury is tasked by Cabinet to anticipate / calculate the impact of this National Disaster across the spheres of government together with the impact of the downgrading on the broader economy, municipalities are requested to still submit their monthly Section 71 and other reports informally to the Local Government Database although formally exempted to do so. This will be in the best interests of individual municipalities and the local government sphere as a whole.

Additional reporting requirements relating to the impact on your special adjustments budget for 2019/20 as well as the main 2020/21 MTREF budgets will soon be circulated. In anticipation that revenue collections are likely to be impacted by the economic fall-out of COVID-19, and by implication reducing cash buffers in municipalities, it is important that the correct and appropriate decisions are made by municipalities during this critical period, as this will have a profound impact on financial and operational sustainability going forward. This information will

be required to assist both National and provincial treasuries to excise their oversight and support responsibilities as articulated in the Constitution.

# 8. Revenue and Expenditure Management

Municipalities must perform their normal billing and credit control in the spirit of good financial management practices in order to ensure that they can still honour their service delivery obligations.

## 8.1 Payment of Creditors

Municipalities must continue to pay for services rendered within the framework of the measures introduced by the President of the Republic of South Africa. The exemption notice does not divest municipalities of their contractual obligations and such will still have to be met. Therefore, municipalities must ensure that all services rendered are paid for as and when they become due. Municipalities must still comply with section 65(2)(e) of the MFMA which requires them to pay creditors within 30 days of receiving the relevant invoice or statement.

## 8.2 The wage bill

The 2020 Budget Review highlighted the proposed wage bill reduction for the public service. Similar to national and provincial government, municipalities must ensure that compensation demands are balanced with the broader needs of society. In this context, municipalities should start taking decisive action to address bloated organisational structures and above inflation wage increases.

Wage bill increases are crowding out spending on capital projects for future economic growth and impacts on service delivery.

Local government also confronts tough fiscal choices in the face of financial and institutional problems that result in service-delivery breakdowns and unpaid bills. Municipalities can offset these trends by improving own revenue collection, working more efficiently and implementing cost containment measures.

# 9. Tabling and adoption of completely new 2020/21 MTREF budgets

The National Treasury will have no objection if any municipality is of the opinion that it will have to re-do their entire 2020/21 MTREF budget, given that these budgets were prepared prior to the declaration of the national disaster and subsequent nationwide lockdown. Municipalities seeking to exercise this option should take into consideration the principles outlined in paragraph 3 above as well as the extent of reprioritisation required. Furthermore, the public participation process as a result of the changes made must be considered as outlined in paragraph 4 above. Those municipalities that are unsure of their ability to make decisions of this nature are invited to approach their respective provincial treasury during this process to assist them in this regard.

# 10. Conclusion and the way forward

The COVID-19 pandemic has introduced new dimensions of volatility, uncertainty, complexity and ambiguity to the task of financial stewardship across all spheres of government. Public policy decision-makers at all levels of government must act with vision, understanding, clarity and agility in responding to the crisis in a resilient manner. This will require a fundamental strategic rethink of the way in which we currently conduct our planning, budgeting and implementation processes.

The annual National and Provincial Budget and Benchmark assessment process of the tabled municipal budgets is still in progress within the constraints of the national lockdown. The discussion will be strategic in nature and include a focus on the implications of the municipality's proposed response to Covid-19. The annual Budget and Benchmark assessment engagements on the annual budgets are scheduled to take place from end of April 2020 until the end of May 2020 via video conferencing.

Any enquiries pertaining to this circular or the MFMA directive should be directed to MFMA helpdesk at the following email address: MFMA@treasury.gov.za.

## SCHEDULE OF SOME KEY TIMEBOUND ACTIONS TO BE TAKEN BY MUNICIPALITIES IN TERMS OF THE MFMA TO WHICH THE EXEMPTION NOTICE APPLIES

***Note:*** ***This schedule is not an exhaustive list of all time-bound actions to be taken by municipalities and municipal entities in terms of the MFMA and regulations thereto to which the Exemption Notice applies. This schedule lists examples of time-bound actions to be taken by municipalities to which parts of the Exemption Notice applies.***

| No. | Action | Empowering provision | Timeline specified in the MFMA |
|---|---|---|---|
| 1. | The accounting officer of a municipality must:<br>• Table in the municipal council a consolidated report of all withdrawals made in terms of section 11(1)(b)-(j) of the MFMA; and<br>• Submit a copy of such report to the Provincial Treasury and the Auditor-General. | Section 11(4)(a) of the MFMA | Within 30 days after the end of each of the following quarters:<br>• 1 July to 30 September<br>• 1 October to 31 December<br>• 1 January to 31 March<br>• 1 April to 30 June |
| 2. | The municipal council must approve the annual budget (together with all supporting documents referred to in section 24(2) of the MFMA) for the forthcoming financial year. | Section 16(1), read with section 24(2), of the MFMA | On or before 30 June |
| 3. | The mayor of a municipality must table the annual budget, together with all supporting documents referred to in section 17(3) of the MFMA, at a municipal council meeting. | Section 16(2) of the MFMA | At least 90 days before 1 July (i.e. on or before 31 March) |
| 4. | The accounting office of a municipality must make the annual budget and supporting documents referred to in section 17(3) of the MFMA public and invite the local community to submit representations in connection with the annual budget. | Section 22(1)(a) of the MFMA | Immediately after tabling of the annual budget |
| 5. | The accounting officer of a municipality must submit the annual budget:<br>• In both printed and electronic formats to the National Treasury and the Provincial Treasury; and<br>• In either format to any prescribed national or provincial organs of state and to other municipalities affected by the budget. | Section 22(1)(b) of the MFMA | Immediately after the tabling of the annual budget |
| 6. | The municipal council must consider the views of the local | Section 23(1) of the MFMA | After the tabling of the annual budget and completion of the |

| No. | Action | Empowering provision | Timeline specified in the MFMA |
|---|---|---|---|
| | community, as well as the National Treasury, Provincial Treasury and any national or provincial organs of state or municipalities which made submissions on the annual budget. | | prescribed public participation processes but before the approval of the annual budget |
| 7. | The municipal council must give the mayor an opportunity:<br>• To respond to the submissions received on the annual budget; and<br>• If necessary, to revise the budget and table amendments for consideration by the municipal council. | Section 23(2) of the MFMA | Once the municipal council has considered all submissions on the annual budget but before the approval of the annual budget |
| 8. | The municipal council must consider approval of the annual budget. | Section 24(1) of the MFMA | At least 30 days before the start of the next financial year (i.e. at least 30 days before 1 July) |
| 9. | The municipal council must reconsider and vote again on the annual budget, or an amended version thereof, where it fails to approve the annual budget. | Section 25 of the MFMA | Within 7 days of the council meeting that failed to approve the annual budget |
| 10. | The mayor of a municipality must inform the Provincial Minister responsible for Finance, in writing, of any impending non-compliance with any provision of the MFMA or any other legislation pertaining to the tabling or approval of an annual budget process or compulsory consultation processes | Section 27(1) of the MFMA | Upon becoming aware of any impending non-compliance with any provision of the MFMA or any other legislation pertaining to the tabling or approval of an annual budget process or compulsory consultation processes |
| 11. | The mayor of a municipality may apply to the Provincial Minister responsible for Finance, on good cause shown, for an extension of any time limit or deadline imposed by the MFMA (excluding section 16(1) of the MFMA). | Section 27(2) of the MFMA | Upon becoming aware of any impending non-compliance with any time provision of the MFMA or any other legislation pertaining to the tabling or approval of an annual budget process or compulsory consultation processes, but before the time limit expires or the deadline passes |
| 12. | The mayor of a municipality must, upon becoming aware of any actual non-compliance by the municipality of a provision of Chapter 4 of the MFMA, inform the council, the Provincial Minister responsible for Finance and the National Treasury, in writing, of—<br>(a) such non-compliance; and<br>(b) any remedial or corrective measures the municipality intends to implement to avoid a recurrence. | Section 27(3) of the MFMA | Upon becoming aware of any actual non-compliance by the municipality of a provision of Chapter 4 of the MFMA |

| No. | Action | Empowering provision | Timeline specified in the MFMA |
|---|---|---|---|
| 13. | The mayor must table an adjustment budget in line with prescribed timelines. | Section 28 of the MFMA | Prescribed in regulations to the MFMA |
| 14. | If the mayor of a municipality, in emergency or other exceptional circumstances, authorises unforeseeable and unavoidable expenditure for which no provision was made in an approved budget, such expenditure must be appropriated in an adjustments budget passed by the municipal council. | Section 29(3) of the MFMA | Within 60 days after the date on which the expenditure was incurred |
| 15. | Funds appropriated in an annual or adjustments budget must be spent to avoid the relevant appropriation lapsing to the extent that such funds are unspent. | Section 30 of the MFMA | On or before the end of the financial year (i.e. 30 June), unless the appropriation of expenditure was made for a period longer than the financial year |
| 16. | The accounting officer of a municipality must promptly inform the mayor, the Provincial Minister responsible for Local Government and the Auditor-General of certain matters relating to unauthorised, irregular or fruitless and wasteful expenditure incurred by the municipality | Section 32(4) of the MFMA | Promptly after the unauthorised, irregular or fruitless and wasteful expenditure in question has been incurred |
| 17. | The accounting officer must comply with the consultation and public participation requirements applicable before certain contracts that have future budgetary implications beyond the three-year period covered in the annual budget are concluded. | Section 33(1)(a) of the MFMA | At least 60 days before the meeting of the municipal council at which the contract in question is approved |
| 18. | Municipalities must meet all financial commitments towards other municipalities or national or provincial organs of state. | Section 37(1)(c) of the MFMA | Promptly |
| 19. | The accounting officer of a municipality responsible for the transfer of an allocation to another municipality must notify the receiving municipality of the projected amount of any allocation proposed to be transferred to that municipality during the next financial year. | Section 37(2) of the MFMA | At least 120 days before the start of the next financial year |
| 20. | Municipalities and municipal entities must take all reasonable steps necessary to resolve disputes of a financial nature without having to resort to litigation and, where necessary, report such disputes to the National Treasury. | Section 44 of the MFMA | As promptly as possible |

| No. | Action | Empowering provision | Timeline specified in the MFMA |
|---|---|---|---|
| 21. | A municipality intending to incur long-term debt must comply with the consultation, public participation and notice requirements applicable before incurring such debt. | Section 45(3) of the MFMA | Not later than 21 days prior to the municipal council meeting which the debt in question will be considered for approval |
| 22. | The mayor of a municipality must submit a quarterly report to the municipal council on the implementation of the budget and the financial state of affairs of the municipality. | Section 52(d) of the MFMA | Within 30 days after the end of each of the following quarters:<br>• 1 July to 30 September<br>• 1 October to 31 December<br>• 1 January to 31 March<br>• 1 April to 30 June |
| 23. | The mayor of a municipality must take all reasonable steps to ensure that the municipality approves its annual budget before the start of the budget year. | Section 53(1)(c)(i) of the MFMA | Before 1 July |
| 24. | The mayor of a municipality must take all reasonable steps to ensure that the municipality's service delivery and budget implementation plan is approved by the mayor. | Section 53(1)(c)(ii) of the MFMA | Within 28 days after the approval of the annual budget |
| 25. | The mayor of a municipality must report to the municipal council and the Provincial Minister responsible for Finance any delay in the tabling of an annual budget, the approval of the service delivery and budget implementation plan or the signing of the annual performance agreements. | Section 53(2) of the MFMA | Promptly |
| 26. | The mayor of a municipality must ensure that the revenue and expenditure projections for each month and the service delivery targets and performance indicators for each quarter, as set out in the service delivery and budget implementation plan, are made public. | Section 53(3)(a) of the MFMA | Not later than 14 days after the approval of the service delivery and budget implementation plan |
| 27. | The mayor of a municipality must ensure that the performance agreements of the municipal manager, senior managers and any other categories of officials as may be prescribed, are made public and that copies of such performance agreements are submitted to the council and the Provincial Minister responsible for Local Government. | Section 53(3)(b) of the MFMA | Not later than 14 days after the approval of the municipality's service delivery and budget implementation plan |
| 28. | The mayor of a municipality must consider and take the required actions to address a statement or report submitted to him or her by the accounting officer of the | Section 54 of the MFMA | Promptly upon receipt of the statement or report |

| No. | Action | Empowering provision | Timeline specified in the MFMA |
|---|---|---|---|
| | municipality in terms of section 70 or 71 of the MFMA (including addressing any serious financial problems identified in such statement or report). | | |
| 29. | If a municipality has not approved an annual budget by the first day of the budget year or if the municipality encounters a serious financial problem referred to in section 136, the mayor of the municipality must report the matter to the Provincial Minister responsible for Local Government. | Section 55 of the MFMA | Immediately upon a failure by a municipality to approve an annual budget by the first day of the budget year or immediately upon a serious financial problem referred to in section 136 of the MFMA is encountered |
| 30. | The accounting officer of a municipality must take all reasonable steps to ensure that the revenue due to the municipality is calculated on a monthly basis. | Section 64(2)(b) of the MFMA | On a monthly basis |
| 31. | The accounting officer of a municipality must take all reasonable steps to ensure that accounts for municipal tax and charges for municipal services are prepared. | Section 64(2)(c) of the MFMA | On a monthly basis or less often as may be prescribed in regulations where monthly accounts are uneconomical |
| 32. | The accounting officer of a municipality must take all reasonable steps to ensure that all money received is deposited in accordance with the MFMA into the municipality's primary and other bank accounts. | Section 64(2)(d) of the MFMA | Promptly |
| 33. | The accounting officer of a municipality must take all reasonable steps to ensure that all revenue received by the municipality, including revenue received by any collecting agent on its behalf, is reconciled. | Section 64(2)(h) of the MFMA | At least on a weekly basis |
| 34. | The accounting officer of a municipality must inform the National Treasury of any payments due by an organ of state to the municipality in respect of municipal tax or for municipal services, if such payments are regularly in arrears for periods of more than 30 days. | Section 64(3) of the MFMA | Immediately |
| 35. | The accounting officer of a municipality must take all reasonable steps to ensure that any funds collected by the municipality on behalf of another organ of state is transferred to that organ of state. | Section 64(4)(a) of the MFMA | At least on a weekly basis |
| 36. | The accounting officer of a municipality must take all | Section 65(2)(e) of the MFMA | Within 30 days of receiving the relevant invoice or statement, |

| No. | Action | Empowering provision | Timeline specified in the MFMA |
|---|---|---|---|
| | reasonable steps to ensure that all money owing by the municipality is paid. | | unless prescribed otherwise in regulation for certain categories of expenditure |
| 37. | The accounting officer of a municipality must take all reasonable steps to ensure that all financial accounts of the municipality are closed and reconciled with its records. | Section 65(2)(j) of the MFMA | At the end of each month |
| 38. | The accounting officer of a municipality must report to the municipal council on all expenditure incurred by the municipality on staff salaries, wages, allowances and benefits | Section 66 of the MFMA | As prescribed in regulation |
| 39. | The accounting officer of a municipality accounting officer must submit to the mayor:<br>• A draft service delivery and budget implementation plan for the budget year; and<br>• Drafts of the annual performance agreements as required in terms of section 57(1)(b) of the Municipal Systems Act for the municipal manager and all senior managers. | Section 69(3) of the MFMA | Not later than 14 days after the approval of the annual budget |
| 40. | The accounting officer of a municipality must report in writing to the municipal council:<br>(a) any impending—<br>(i) shortfalls in budgeted revenue; and<br>(ii) overspending of the municipality's budget; and<br>(b) any steps taken to prevent or rectify such shortfalls or overspending. | Section 70(1) of the MFMA | Prior to the said revenue shortfalls and overspending occurring |
| 41. | The accounting officer of a municipality must notify the National Treasury where the municipality's bank account(s) show(s) a net overdrawn position for a period exceeding a prescribed period. | Section 70(2) of the MFMA | Promptly |
| 42. | The accounting officer of a municipality must submit to the mayor of the municipality and the Provincial Treasury a statement in the prescribed format on the state of the municipality's budget reflecting certain required particulars for that month and for the financial year up to the end of that month. | Section 71(1) of the MFMA | Not later than 10 working days after the end of each month |
| 43. | The accounting officer of a municipality which has received an allocation referred to in | Section 71(5) of the MFMA | Not later than 10 working days after the end of the month in which the relevant allocation is received |

| No. | Action | Empowering provision | Timeline specified in the MFMA |
|---|---|---|---|
| | section 71(1)(e) of the MFMA during any particular month must submit that part of the statement reflecting the particulars referred to in section 71(1)(e) and (f) to the national or provincial organ of state or municipality which transferred the allocation. | | |
| 44. | The accounting officer of a municipality must adhere to the general reporting obligations set out in section 74 of the MFMA. | Section 74 of the MFMA | As prescribed by regulation or as required |
| 45. | The accounting officer of a municipality must place the documents referred to in section 75(1) of the MFMA on the municipality's website. | Section 75(2) of the MFMA | Not later than 5 days after each document is tabled in the municipal council or on the date on which it must be made public, whichever occurs first |
| 46. | The accounting officer of a municipality must monitor the performance of each contractor of the municipality. | Section 116(2)(b) of the MFMA | On a monthly basis |
| 47. | The accounting officer of a municipality must report to the municipal council on the management of contracts with contractors. | Section 116(2)(d) of the MFMA | On a regular basis |
| 48. | The council of a municipality must within nine months after the end of a financial year deal with the annual report of the municipality and of any municipal entity under the municipality's sole or shared control in accordance with section 129. | Section 121(1) of the MFMA | Within nine months after the end of a financial year (i.e. before 31 March) |
| 49. | The accounting officer of a municipality must prepare the annual financial statements of the municipality and, within two months after the end of the financial year to which those statements relate, submit the statements to the Auditor-General for auditing. | Section 126(1)(a) of the MFMA | Within two months after the end of the financial year to which annual financial statements relate |
| 50. | The accounting officer of a municipality referred to in section 122(2) of the MFMA must prepare consolidated annual financial statements in terms of that section and, within three months after the end of the financial year to which those statements relate, submit the statements to the Auditor-General for auditing. | Section 126(1)(b) of the MFMA | Within three months after the end of the financial year to which the relevant annual financial statements relate |
| 51. | The mayor of a municipality must table in the municipal council the annual report of the municipality and of any municipal entity under the municipality's sole or shared | Section 127(2) of the MFMA | Within seven months after the end of a financial year |

| No. | Action | Empowering provision | Timeline specified in the MFMA |
|---|---|---|---|
| | control. | | |
| 52. | Once the annual report is tabled in the municipal council, the accounting officer of the municipality must make the annual report public, follow the required public participation process, and submit the annual report to the Auditor-General, the Provincial Treasury and the Department of Local Government. | Section 127(5) of the MFMA | Immediately |
| 53. | The accounting officer of a parent municipality must report on any non-compliance of a municipal entity under the sole control of the parent municipality with sections 121(1) or 126(2) of the MFMA, together with reasons for such non-compliance, to the municipal council of the parent municipality, the Provincial Treasury and the Auditor-General. | Section 128 of the MFMA | Promptly |
| 54. | The council of a municipality must adopt an oversight report containing the council's comments on the annual report. | Section 129(1) of the MFMA | Not later than two months from the date on which the annual report was tabled in the municipal council in terms of section 127 of the MFMA |
| 55. | The accounting officer of a municipality must make an oversight report adopted by the municipal council public. | Section 129(3) of the MFMA | Within seven days of the date on which the oversight report is adopted in terms of section 129(1) of the MFMA |
| 56. | The accounting officer of a municipality must submit the annual reports and oversight reports referred to in sections 132(1)(a) and 132(1)(b) of the MFMC to the Western Cape Provincial Legislature. | Section 132(2) of the MFMA | Within seven days after the municipal council has adopted the relevant oversight report in terms of section 129(1) of the MFMA |
| 57. | The mayor of a municipality mayor must promptly table in the council a written explanation setting out the reasons for the failure to submit the annual financial statements to the Auditor-General in terms of section 126(1) or 126(2) of the MFMA or the failure to table the required annual reports in terms of section 127(2) of the MFMA. | Section 133(1)(a) of the MFMA | Promptly |

# High level summary of changes between tabled 2020/21 - 2022/23 budget (March 2020) and 2020/21 - 2022/23 budget (May 2020)

# HIGH LEVEL SUMMARY OF CHANGES BETWEEN THE TABLED AND THE PROPOSED 2020/21 BUDGET

The tabled 2020/21 budget was drafted with a theme of low rates and tariff increases with an aim to utilise surplus cash. However, in response to the impact of the COVID-19 pandemic, more specifically the lockdown period, the City had to reconsider and reprioritise funding allocations for the 2020/21 financial year. An appraisal of the City's funding sources was undertaken and future funding positions per the March tabled budget re-evaluated.

## a) 2020/21 Operating Budget

The City's immediate response to the pandemic was focused on its vulnerable citizens. This necessitated a budget rework to accommodate unplanned expenditure relating to the COVID-19 pandemic and its impact on revenue. These amendments/additions to the March tabled budget allocations are listed below

- **R904 million, within various directorates, for additional requirements relating to the COVID-19 pandemic**

| Directorate/Department | Project/Nature of Expenditure | R Thousand |
|---|---|---|
| Community Service & Health directorate | Health Services and provision on grants-in-aid for humanitarian relief to cover social impacts of COVID-19 | 452 289 |
| Corporate Services directorate | Costs Related to Call Centre Staff, Procurement of 3G cards and Data), CRM overtime, Covid Testing for staff, Thermometer testing, Flu Vaccines | 48 053 |
| Economic Opportunity & Asset Management directorate | Security costs, hand and liquid sanitizer costs for city buildings | 5 580 |
| Human Settlements directorate | Building Management & Education and Awareness at CRUs | 88 066 |
| Office of the City Manager directorate | Procurement of food hampers issued by the Mayor, funeral assistance, emergency disaster situations | 7 000 |
| Safety and Security directorate | Deployment of LEO - Overtime, Uniform & Protective Clothing, Fuel, Facility establishment and hire costs etc. | 81 277 |
| Transport directorate | Management of PTI's - Cleaning Costs & Protective Clothing | 7 200 |
| Water and Sanitation Service department | Informal Settlements - Unserviced Settlements, Health & Hygiene Costs | 214 452 |
| **Total** | | **903 917** |

- **R1 499 million, within various Rates and tariff-funded services, for additional expenditure on debt impairment resulting from projected reductions on collections ratios**

| Directorate/Department | R Thousand |
|---|---|
| Water & Sanitation Services department | 465 750 |
| Energy & Climate Change directorate | 206 989 |
| Solid Waste Management department | 201 047 |
| Finance directorate | 610 338 |
| Economic Opportunity & Asset Management directorate | 5 000 |
| Human Settlements directorate | 10 000 |
| **Total** | **1 499 123** |

- **R1 704 million reduction on various expenditure items impacted on by the COVID-19 pandemic**

| Directorate/Department | Expenditure type | R Thousand |
|---|---|---|
| Community & Health Services directorate | Employee Costs, Salaries, Materials, Travel, advertising, computer network & services, signage, catering and training | 157 000 |
| Corporate Services directorate | Employee Costs, Contracted Services, R&M and General Expenses | 60 093 |
| Economic Opportunity & Asset Management directorate | Contracted Services, R&M, Events & Sponsorship | 52 000 |
| Energy & Climate Change directorate | Bulk Purchases, Contracted Services, R&M & General Expenses, Contribution to Rates | 783 010 |
| Energy & Climate Change directorate | Less Contribution to Rates | 69 587 |
| Human Settlements directorate | Employee Costs, Contracted Services, R&M and Transfers & Subsidies | 31 117 |
| Office of the City Manager directorate | Mayoral Projects & General Expenses | 540 |
| Safety & Security directorate | Training, Advertising-Marketing, Uniform and Travel | 18 821 |
| Solid Waste Management department (Collections/Disposal) | Water Minimisation, R&M Buildings, Training | 37 079 |
| Solid Waste Management department (Rates) | Demolition of the Tygerdal Drop-off will not be happening if lockdown continues | 1 861 |
| Spatial Planning & Environment directorate | Employee Costs & Contracted Services | 2 954 |
| Transport directorate | Employee Costs, Contracted Services, R&M & General Expenses | 275 447 |
| Water & Sanitation Services department | Employee Costs, advisory services, Events, Conference & Seminars, Electricity, Sewerage, Meter management etc. | 214 452 |
| **Total** | | **1 703 962** |

- **R1 078 million amendments on various revenue sources impacted on by the COVID-19 pandemic**

| Directorate/Department | Revenue Source/Item | R Thousand |
|---|---|---|
| Community & Health Services directorate | Rental of facilities and equipment, Fines, Other revenue, penalties and forfeits, licences and permits | 18 777 |
| Economic Opportunities and Asset Management directorate | Profit on Sale of Asset and Event/Functions | -500 |
| Energy & Climate Change directorate | Sale of Electricity | 695 866 |
| Finance directorate | Cape town Stadium - Event Income, Agency Income, 100% Rates loss on guest houses and Hotels, reversal of rates revenue strategy | 112 955 |
| Finance directorate | Loss of Electricity contribution to Rates (included above) | 69 587 |
| Human Settlements directorate | OGD Funds form Interest | -88 066 |
| Safety & Security directorate | Fines Income, Learners Licence Applications, Drivers Licence Applications, Cellphone Impoundment Fees, Vehicle Impoundment Fees etc. | 90 515 |
| Solid Waste Management department | General Waste disposal, Hazardous Waste Disposal. | 13 473 |
| Solid Waste Management department (Collections) | Additional Interest outstanding Debtors | -7 500 |
| Spatial Planning & Environment directorate | Building levies, Rental Fixed Assets, Admission/Entrance Fees and Signage Fees | 10 000 |
| Transport directorate | Licence & Permits, Operational Revenue, Sales of Goods and Rendering of Services, Advertising, Railway Sidings Recoveries, Recovery of Infrastructure R&M, MyCiTi Busfares/Card Sales, Parking & Development Contributions | 67 706 |
| Water & Sanitation Services department | Water Service Charges - Schools, Water Services Charges - Industrial and Commercial & Sewer Services Charges - Industrial and Commercial | 95 000 |
| **Total** | | **1 077 812** |

- **To balance the tabled 2020/21 budget, various expenditure items were reduced (R450 million), and a top-up from existing reserves (R1 522 million) was required to absorb the additional requirements relating to COVID-19 and the impact thereof on revenue.**

The details of the reductions are reflected in the table below.

| Item | Comment | Proposed Reduction R Thousand |
|---|---|---|
| IPM increments (T14 and Above) | 50% of IPM to be paid out on both Rate Tariff Services | 20 000 |
| Vacancies | Cuts within Rates | 250 000 |
| Consultants | Cuts within Rates excluded all items linked to Capital programme | 120 000 |
| Long Service Award | Propose 50% pay-out, balance to be converted to leave | 30 000 |
| Training | Bulk of training programmes will not materialise | 30 000 |
| **Total** | | **450 000** |

The details of the top-up from existing reserves are reflected in the table below.

| Service | R Thousand |
|---|---|
| Rates | 891 263 |
| Electricity | 34 195 |
| Solid Waste - Trading | 76 717 |
| Water and Sanitation | 519 373 |
| **Total** | **1 521 549** |

## b) 2020/21 Capital Budget

The impact of delays resulting from the COVID-19 lockdown were considered by the various directorates and incorporated into the May 2020 version of the budget, in order to also quantify the effect on the City's overall cash flow, given the significant impact effect on the operating budget proposed for 2020/21.

The City remains committed to a large scale infrastructure investment plan to assist in re-energising the economy to stimulate economic growth over the short- to medium term post the COVID-19 lockdown. In instances where line functions could ascertain the potential impact of the national COVID-19 lockdown levels on ongoing projects and programmes, the unspent components that could be estimated were rolled over from the current financial year to the 2020/21 financial year.

The table below reflects the high-level changes per major funding source between the March tabled budget and the May proposed budget.

| Major Fund Source | 2020/21 | | | 2021/22 | | | 2022/23 | | |
|---|---|---|---|---|---|---|---|---|---|
| R Thousand | Tabled Budget 2020/21 | Proposed Budget 2020/21 | Increase / Decrease 2020/21 | Tabled Budget 2021/22 | Proposed Budget 2021/22 | Increase / Decrease 2021/22 | Tabled Budget 2022/23 | Proposed Budget 2022/23 | Increase / Decrease 2022/23 |
| CGD | 2 838 423 | 2 883 814 | 45 391 | 3 312 729 | 3 312 729 | – | 3 424 875 | 3 424 875 | – |
| CRR | 1 269 671 | 1 439 208 | 169 538 | 895 994 | 885 736 | (10 258) | 1 046 061 | 932 753 | (113 308) |
| EFF | 4 560 212 | 5 231 245 | 671 032 | 5 366 082 | 5 377 977 | 11 895 | 6 224 574 | 6 246 087 | 21 513 |
| REVENUE | 38 876 | 51 607 | 12 731 | 29 392 | 29 392 | – | 37 385 | 37 385 | – |
| Grand Total | 8 707 183 | 9 605 874 | 898 691 | 9 604 197 | 9 605 834 | 1 637 | 10 732 896 | 10 641 101 | (91 795) |

- **High-level changes to Capital Grants and Donations (CGD)**

| Directorate<br>R Thousand | Increase/ Decrease 2020/21 | Increase/ Decrease 2021/22 | Increase/ Decrease 2022/23 |
|---|---|---|---|
| Community Services & Health | 634 | - | - |
| Energy & Climate Change | 8 500 | - | - |
| Transport | 36 257 | - | - |
| Grand Total | 45 391 | - | - |

The above changes mainly relate to the following:

- Community Services and Health directorate - R633 959 for the Turfhall Stadium Upgrade (funded ex private sector);
- Electricity Generation & Distribution department - R8.5 million for Service Connections (Quote): South FY21 (funded ex private sector);
- Transport directorate - Increase on capital budget with corresponding decrease on operating budget (funded ex Public Transport Network Grant); and
- Human Settlements directorate - Portfolio of proposed projects for 2020/21 was reprioritised to incorporate three new de-densification of informal settlements projects (Kosovo, Dunoon and Ithemba), which will incorporate planning, design and provision of internal service in response to the COVID-19 pandemic (funded ex Urban Settlements Development Grant and Informal Settlement Upgrading Partnership Grant).

- **High-level changes to Capital Replacement Reserves (CRR)**

| Directorate<br>R Thousand | Increase/Decrease 2020/21 | Increase/Decrease 2021/22 | Increase/Decrease 2022/23 |
|---|---|---|---|
| Community Services & Health | 6 519 | – | – |
| Economic Opportunities & Asset Managemnt | 5 968 | – | – |
| Energy & Climate Change | 45 267 | 15 639 | – |
| Finance | 14 092 | – | – |
| Human Settlements | 5 829 | (25 897) | (13 308) |
| Safety & Security | 1 225 | – | – |
| Spatial Planning & Environment | 1 544 | – | – |
| Transport | 4 859 | – | – |
| Urban Management | (1 178) | – | – |
| Water & Waste - Solid Waste Management | 85 414 | – | (100 000) |
| Grand Total | 169 538 | (10 258) | (113 308) |

The aforementioned changes mainly relate to the following:

- Roll-over of projected unspent components, where line functions could ascertain the potential impact of the national COVID-19 lockdown levels on ongoing projects and programmes, from the current financial year to the 2020/21 financial year.
- Rephasing of R15.6 million for Streetlighting from the current financial year to the 2020/21 financial year.
- Reductions to the Atlantis Kanonkop - and Atlantis GAP Site Housing projects, which have been adjusted downwards and rephased stemming from latest investigations and revised procurement plans.
- Higher value projects/programmes where roll-overs were included subsequent to the tabled budget in March 2020 i.e.
  - Facilities Management Structural Rehabilitation - R5.9 million (Economic Opportunities & Asset Management directorate);
  - Replacement Plant & Vehicles - R82.4 million (Solid Waste Management department);
  - Road Upgrade of Langverwacht Road: Amandel to Zevenwacht - R4.6 million (Transport directorate);
  - Suites Cape Town Stadium - R14.1 million (Finance directorate);
  - System Equipment Replacement - R22 million (Energy & Climate Change directorate);
  - MV Switchgear Refurbishment - R9.2 million (Energy & Climate Change directorate); and
  - Roll-over of various allocations funded ex Ward Allocations as well as ward allocation projects supported by a subcouncil but not included in the March tabled budget totalling R6.96 million across various directorates.

- **High-level changes to External Financing Fund (EFF)**

| Directorate<br>R Thousand | Increase/ Decrease 2020/21 | Roll over | Re-phased | Increase/ Decrease 2021/22 | Increase/ Decrease 2022/23 |
|---|---|---|---|---|---|
| Community Services & Health | 6 587 | 6 587 | – | – | – |
| Corporate Services | 14 800 | 14 800 | – | – | – |
| Economic Opportunities & Asset Managemnt | 72 728 | 72 289 | 439 | 400 | – |
| Energy & Climate Change | 44 172 | 44 172 | – | – | – |

| Human Settlements | 45 387 | 45 387 | – | – | – |
| Office of the City Manager | 292 | 292 | – | – | – |
| Safety & Security | 113 876 | 113 876 | – | – | – |
| Spatial Planning & Environment | 19 252 | 27 011 | (7 759) | 6 920 | – |
| Transport | 20 034 | 20 034 | – | – | – |
| Urban Management | 3 808 | 3 808 | – | | – |
| Water & Waste | 328 993 | 355 081 | (26 088) | 4 575 | 21 513 |
| *Solid Waste Management* | 46 172 | 72 260 | (26 088) | 4 575 | 21 513 |
| *Water & Sanitation Services* | 282 821 | 282 821 | – | – | – |
| Grand Total | 671 032 | 704 440 | (33 408) | 11 895 | 21 513 |

The above changes mainly relate to the following:

- Roll-overs as a result of the impact of the COVID-19 lockdown on project/programme delivery in the 2019/20 financial year;
- Latest available implementation plans (to the extent it could be updated given the uncertainty around the various COVID-19 lockdown phases) requiring minor re-phasing across the MTREF and

- Changes in 2020/21 to include a borrowing amount of R2.5 billion resulted in funding shifts on projects/programmes within the EFF.

- **High-level changes to Revenue**

| Directorate<br>R Thousand | Increase/Decrease 2020/21 | Increase/Decrease 2021/22 | Increase / Decrease 2022/23 |
|---|---|---|---|
| Community Services & Health | 70 | - | - |
| Economic Opportunities & Asset Managemnt | 1 212 | - | - |
| Energy & Climate Change | 9 000 | - | - |
| Finance | 2 002 | - | - |
| Spatial Planning & Environment | 56 | - | - |
| Urban Management | 104 | - | - |
| Water & Waste | 286 | - | - |
| Solid Waste Management | 286 | - | - |
| Grand Total | 12 731 | - | - |

The above changes mainly relate to the following:

- Certain replacement goods relating to insurance claim settlements, which cannot be delivered by the end of the current financial year, due to the impact of the COVID-19 lockdown resulting in funds being rolled-over to the 2020/21 financial year; and
- An increase of R9 million on the Insurance Contingency Holding vote within the Energy & Climate Change directorate. No expenditure will be incurred against this contingency, but will be viremented out to make provision for insurance claim settlements once known.

In summary, the net result of the proposed changes on the 2020/21 MTREF per directorate are as follows:

| Directorate<br>R Thousand | Tabled Budget 2020/21 | Proposed Budget 2020/21 | Increase / Decrease 2020/21 |
|---|---|---|---|
| Community Services & Health | 408,312 | 422,122 | 13,810 |
| Corporate Services | 227,220 | 242,020 | 14,800 |
| Economic Opportunities & Asset Management | 500,413 | 580,321 | 79,908 |
| Energy & Climate Change | 942,192 | 1,049,131 | 106,939 |
